Ford in Touring Car Racing

A prophetic memoir by the activist who “articulated the intellectual foundations” (The New Yorker) of the civil rights and women’s rights movements. First published posthumously in 1987, Pauli Murray’s *Song in a Weary Throat* was critically lauded, winning the Robert F. Kennedy Book Award and the Lillian Smith Book Award among other distinctions. Yet Murray’s name and extraordinary influence receded from view in the intervening years; now they are once again entering the public discourse. At last, with the republication of this “beautifully crafted” memoir, *Song in a Weary Throat* takes its rightful place among the great civil rights autobiographies of the twentieth century. In a voice that is energetic, wry, and direct, Murray tells of a childhood dramatically altered by the sudden loss of her spirited, hard-working parents. Orphaned at age four, she was sent from Baltimore to segregated Durham, North Carolina, to live with her unflappable Aunt Pauline, who, while strict, was liberal-minded in accepting the tomboy Pauli as “my little boy-girl.” In fact, throughout her life, Murray would struggle with feelings of sexual “in-betweenness”—she tried unsuccessfully to get her doctors to give her testosterone—that today we would recognize as a transgendered identity. We then follow Murray north at the age of seventeen to New York City’s Hunter College, to her embrace of Gandhi’s Satyagraha—nonviolent resistance—and south again, where she experienced Jim Crow firsthand. An early Freedom Rider, she was arrested in 1940, fifteen years before Rosa Parks’ disobedience, for sitting in the whites-only section of a Virginia bus. Murray’s activism led to relationships with Thurgood Marshall and Eleanor Roosevelt—who respectfully referred to Murray as a “firebrand”—and propelled her to a Howard University law degree and a lifelong fight against “Jane Crow” sexism. We also read Betty Friedan’s enthusiastic response to Murray’s call for an NAACP for Women—the origins of NOW. Murray sets these thrilling high-water marks against the backdrop of uncertain finances, chronic fatigue, and tragic losses both private and public, as Patricia Bell-Scott’s engaging introduction brings to life. Now, more than thirty years after her death in

1985, Murray—poet, memoirist, lawyer, activist, and Episcopal priest—gains long-deserved recognition through a rediscovered memoir that serves as a “powerful witness” (Brittney Cooper) to a pivotal era in the American twentieth century.

When the Mazda MX-5 was launched in 1989, sports car enthusiasts gave thanks. Safety regulations had virtually killed off the traditional roadster in the early 1970s, and if you wanted the wind in your hair the choice seemed limited to a four-seater convertible that looked like a baby's buggy. Hopes were pinned on the launch of a new MG - but the MX-5 got there first. The car is a star. Here is the full story, from genesis and model evolution to ownership, with all the possibilities that offers.

A trace element (TE) is a chemical element presented below ~ 0.1 wt. % and required in minute quantities to maintain proper physical functioning. TE analysis in clinical samples (plasma, urine, cerebro-spinal fluid, full-term placenta, hair, nails, buccal mucosa, semen, biopsy specimens) has received increasing attention. Based on 62 sources, current effort presents comparative knowledge about the attempts to accurately trace TE in clinical samples through Vis/NIR, PIXE, TXRF, GFAAS, ICP-MS. It informs the need for further research adjustments to reveal the reciprocal states of certain TE (Cu/Zn, Ca/Mg, Fe/ Pb) in correlation with their real-time counts in both maternal and neonatal umbilical cord plasma, and in relation to augmented oxidative stress. This would help to achieve consistency in interpreting obstetrical complications (preeclampsia, prematurity, or gestational diabetes). Generated hypotheses should target plausible mechanisms behind TE alterations and their stage-sensitive measures in gynecological cancer. New prospects are discussed in management and prognosis of endometriosis and premature ovarian failure (POF).

Aztec Design Notebook: Summer Rose

Central to the aim of both this book is to rethink the concept of diaspora as it is used both academically and popularly at the beginning of the twenty-first century. It seeks to interrogate the notion of “diaspora” in an interdisciplinary way, and to explore the contradictions inherent in contemporary notions of place and identity. It presents explorations of both “traditional” diasporas, such as the Irish community in the United States and in Great Britain, as well as recently established diasporas being formed through new patterns of migration and resettlement. Traditional conceptions of diaspora focused on forced exile from the homeland and the adoption of conscious strategies of integration upon arrival in the new land. In the past, it was assumed that migrants would rapidly assimilate into their receiving societies. Alternatively, migrant workers were regarded by themselves and their host societies as “sojourners”: they were not expected to integrate precisely because their alien presence was perceived to be temporary. Two poles then framed the traditional interpretation of migration and settlement. On the one hand, migrants assimilated rapidly; on the other, migrants were temporarily in the host-land. Yet, the realisation both that the melting pot is a myth and that migrant workers do not, in the main, go home, has forced an increasing acceptance of ethnic diversity. This, combined with ongoing improvements in travel and communications technologies, facilitates today’s migrants in maintaining links with their home countries. The increased visibility of transnational ethnic communities and a resurgence in labour migration in the twenty-first century, have stimulated academic interest in both contemporary diasporas and in recovering the hidden narratives of earlier global migrations. The renewed interest in the formation and narrative of diasporas is evident across a range of disciplines. Moreover, the meaningful exploration of any aspect of the humanities and social sciences requires an inter-disciplinary approach. Thus is the aim of this volume. Contributors approach the issue of diaspora from a variety of academic backgrounds: sociology, politics, history, literature and the visual arts. Concomitantly, data sources are diverse, with contributors drawing on official government publications, literary sources and personal memoirs, paintings and photographs, popular culture and personal interviews. This diversity of data sources indicates the multifarious approaches to the exploration diaspora. More importantly, it highlights the critical role played by unofficial, and often hidden, narratives in representing the experiences of those who find themselves, through a

variety of political, social and economic factors, displaced. "This edited collection is a timely and precocious answer to a gap in the literature of identities and nationhood. It is a response to the new challenges and opportunities facing diasporic communities and, what is more, sets out key pointers for rethinking diaspora in the twenty-first century. At a time when western states are facing the need to re-evaluate traditional responses to ethnic difference arising from migration in the mid-twentieth century, this book posits an important perspective on the multiculturalism debate. Contrary to previous political and scholarly assumptions, this book shows that the children and grandchildren of immigrants can continue to have an ambiguous relationship to the state in which they were born in part because of the very nature of diaspora. The enduringly complex and sometimes volatile insider/outsider relationship is explored in these chapters through analysis of various narratives, in textual, spoken and visual forms. Analysis of such 'hidden narratives' reveals that the meaning and pertinence of membership of a diasporic community is defined as much by the context of the host country as by the discourses of the homeland. Across their various sources and case studies, the authors demonstrate the power of the juncture between dominant national discourses of the host state and the identity of its immigrants. Each author notes how different the diasporic community in question would be – not to mention the impact on its relationship to the host state and the homeland – if some of narratives hidden over time were to be reclaimed. As one author puts it, flux in elements of identity-formation in postmodern society represents a chance to 'engage in dialogue with our own diversity'. In constructing a coherent volume from such a diverse range of cases and disciplines, the editors successfully demonstrate the wide validity of their case for 'rethinking diasporas'. Nonetheless, the specific origins of this book – a conference held in a border town in Ireland – are, it may be argued, uniquely significant. For the current process of change in Irish national identity is inseparable from central features of diaspora-formation that the authors highlight, including economic pressures. Moreover, just as the town of Dundalk has historically felt the effects of its proximity to Northern Ireland, so the 'imagined borders' of diaspora explored in this book are shown to be all the more powerful for the fact that their delineation is contested." —Katy Hayward (Institute for British-Irish Studies, UCD)

This interdisciplinary Handbook combines both mainstream and heterodox economics to assess the nature, scope and importance of leisure activities. Surprisingly, the field of leisure economics is not, thus far, a particularly integrated or coherent one. In this Handbook a wide ranging body of international scholars get to grips with the core issues, taking in the traditional income/leisure choice model of textbook microeconomics and Becker's allocation of time model along the way. They expertly apply economics to some usually neglected topics, such as boredom and sleeping, work-life balance, dating, tourism, health and fitness, sport, video games, social networking, music festivals and sex. Contributions from further afield

by Veblen, Sctivosky and Bourdieu also feature prominently. Applying a mix of both theoretical and empirical data, undergraduate students in modules on sport/leisure economics as well as sport/leisure management will find this important resource invaluable.

Dorothy Parker holds a place in history as one of New Yorks most beloved writers. Now, for the first time in nearly a century, the public is invited to enjoy Mrs. Parkers sharp wit and biting commentary on the Jazz Age hits and flops in this first-ever published collection of her groundbreaking Broadway reviews. Starting when she was twenty-four at Vanity Fair as New Yorks only female theatre critic, Mrs.

Parker reviewed some of the biggest names of the era: the Barrymores, George M. Cohan, W.C. Fields, Helen Hayes, Al Jolson, Eugene O'Neil, Will Rogers, and the Ziegfeld Follies. Her words of praise and contempt for the dramas, comedies, musicals, and revues are just as fresh and funny today as they were in the age of speakeasies and bathtub gin. Annotated with a notes section by Kevin C. Fitzpatrick, president of the Dorothy Parker Society, the volume shares Parkers outspoken opinions of a great era of live theatre in America, from a time before radio, talking pictures, and television decimated attendance. Dorothy Parker: Complete Broadway, 1918-1923 provides a fascinating glimpse of Broadway in its Golden Era and literary life in New York through the eyes of a renowned theatre critic.
