BMW 5 Series (E39) Service Manual 1997-2002, Volume 2: 525i, 528i, 530i, 540i, Sedan, Sport Wagon

"Atoms First seems to be the flavor of the year in chemistry textbooks, but many of them seem to be little more than rearrangement of the chapters. It

takes a master like McQuarrie to go back to the drawing board and create a logical development from smallest to largest that makes sense to students."---Hal Harris, University of Missouri-St. Louis "McQuarrie's book is extremely well written, the order of topics is logical, and it does a great job with both introductory material and more advanced concepts. Students of all skill levels will be able to learn from this book."---Mark Kearley, Florida State University This new fourth edition of General Chemistry takes an atoms-first approach from beginning to end. In the tradition of McQuarrie's many previous works, it promises to be another ground-breaking text. This superb new book combines the clear writing and wonderful problems that have made McQuarrie famous among chemistry professors and students worldwide. Presented in an elegant design with all-new illustrations, it is available in a soft-cover edition to offer professors a fresh choice at an outstanding value. Student supplements include an online series of descriptive chemistry Interchapters, a Student Solutions Manual, and an optional state-of-the-art Online Homework program. For adopting professors, an Instructor's Manual and a CD of the art are also available.

When Only Love Remains

Instead of Going Out of Your Mind, Get into His. The only American to study and work with the renowned Barbara Woodhouse, Brian Kilcommons solves all those "bad dog" problems that drive owners crazy- and shows you how to raise a puppy into a happy, perfectly behaved dog. The trick is to understand how dogs think, read their body language, and, with the secrets Kilcommons shares in this book, be "fun, fair, and firm." A dog-training guide that gives you immediate results even with an adult dog, this manual trains you, as it gives owners everything they need and everything dogs need to become Good

Owners, Great Dogs Includes specific tips on how to: * housebreak both puppies and adult dogs * teach your dog to come to you regardless of what he's doing * end annoying habits like jumping, food stealing, and barking * prevent aggression and, in many cases, stop it after it has become a problem * use games to teach your dog to obey and much more.

More than one-half million people of Korean descent reside in Japan today—the largest ethnic minority in a country often assumed to be homogeneous. This timely, interdisciplinary volume blends original empirical research with the vibrant field of diaspora studies to understand the complicated history, identity, and status of the Korean minority in Japan. An international group of scholars explores commonalities and contradictions in the Korean diasporic experience, touching on such issues as citizenship and belonging, the personal and the political, and homeland and hostland.

Drawing on a wealth of knowledge and experience and a background of more than 1,000 magazine articles on the subject, engine control expert Jeff Hartman explains everything from the basics of engine management to the building of complicated project cars. Hartman has substantially updated the material from his 1993 MBI book Fuel Injection (0-879387-43-2) to address the incredible developments in automotive fuel injection technology from the past decade, including the multitude of import cars that are the subject of so much hot rodding today. Hartman's text is extremely detailed and logically arranged to help readers better understand this complex topic.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips

that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

The Big Blue Book of Beginner Books

As a leading Confederate general, Braxton Bragg (1817–1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South's military failures but also as the chief whipping boy of the Confederacy. The strongly negative opinions of Bragg's contemporaries have continued to color assessments of the general's military career and character by generations of historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns

and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army--including Bragg's superiors, his fellow generals, and his subordinates--reveal how the general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history.

Henry St George Caulfeild (1851–1943) wrote this autobiography towards the end of his life and called it percipiently, 'A Speck in the Cosmos'. Reading 'A Speck in the Cosmos' reveals a fascinating insight into Henry Caulfeild's life in colonial Ceylon (as Sri Lanka was known), when coffee was grown and where he worked as a plantation manager. When coffee failed there, Henry then moved to Queensland during Australia's era of imported labour from the South Sea Islands for the rapidly developing sugar plantations around Bundaberg, a topic which subsequently became controversial. Written in the somewhat constrained language of the time, this autobiography nevertheless remains a primary historical resource of a lifestyle of that era and puts a first-hand and very personal touch to British and Australian enterprises of the time. Although the autobiography was never formally published at the time, a portion of 'A Speck in the Cosmos' was serialised in a pre-World War II Australian magazine called 'The Steering Wheel and Society & Home'. Sisters Colleen Watts and Louise Brodie, Henry's great grandchildren, have carefully compiled this book, using the previously published pages and a selection of family and historical

photographs. Also included is a section of the family tree to give context to the autobiography and the family members mentioned. Caulfeild's Boer War Compendium (an extraordinary amount of material relating to the Boer War and referred to in this autobiography) is housed by the State Library of Queensland, Australia in the John Oxley Library in Brisbane.
