The Complete Idiot's Guide to Motorcycles

The urge has found you daydreaming more than once. The urge to define, bend, shape, fabricate, invent, shove, break. To slide your leg over the seat you finally got back from the leather shop. To twist back the throttle grip you wrapped

yourself. To lunge into the darkness of an open highway on a creation all your own. More than a motorcycle, this is about your identity. It's about building something as unique as you are. In *The Build*, Robert Hoekman Jr compiles insights from today's best builders to help you plot out your own beautiful beast. Loaded with photos, *The Build* features firsthand advice from the masters of moto design, including John Ryland (Classified Moto), Alan Stulberg (Revival Cycles), Jared Johnson (Holiday Customs), Jarrod DelPrado (DP Customs), and the legendary Max Hazan (Hazan Motorworks). You've seen what can be done. It's time to do it yourself. Get *The Build*.

Experience one of the first novels from New York Times bestselling author Ted Dekker. “[Heaven’s Wager is] genuinely exciting . . . fast paced . . . spine-tingling . . .” —Publishers Weekly A thriller unlike any you have ever read. A love strong enough to bring a tremor to your bones. A sacrifice powerful enough to make

heaven weep. At the close of World War II, a shell-shocked soldier, Jan Jovic, was forced to inflict a game of life and death on a peaceful Bosnian community. In a few short hours, this young man was confronted by more love—and hate—than most experience in a lifetime. Years later, Jan has become a world-renown writer with widespread influence in the United States, his past buried deep in his memory. Until the most inopportune time, the game Jan witnessed comes back to haunt him . . . and unwittingly leads him to a beautiful but broken woman caught in an underworld of crime. He must now defeat an evil rarely seen. But there is a price. One that even this war-scarred soldier can't imagine. "Well, well, guess what I've found. A fiction writer with a rare knack for a compelling story, an expansive reservoir of clever ideas, and a unique dry wit that makes me laugh." —Frank Peretti, New York Times bestselling author "Rarely does a novel grip a reader's heart and soul the way Heaven's Wager does. Dekker is among a very small number of writers who have mastered the challenge of blending sound theology with knock-your-socks-off storytelling." —Robert Liparulo, novelist and contributing editor of New Man magazine

Kawasaki Z1000SX/Versys, '10-'16

294 pages, 130 black & white illustrations, size 5.5 x 8.5 inches. In 1963, Temple Press UK published a revised and expanded 4th UK edition of 'Tuning for Speed' and, in 1965, they published a reprint of that 1963 edition. Both the 1963 and the 1965 publications are identical in content and contain 294 pages, a significant increase from the previous 208 page 1960 printing. With a total of 294 pages, the revised and expanded 4th UK edition is the most comprehensive of all of the 'Tuning for Speed' editions ever published. Earlier editions only stretched to 208 pages and later editions shrunk to 260 pages (or less) as what was thought to be 'dated information' was deleted from the contents. This 'dated information' is considered valuable today by those enthusiasts interested in vintage motorcycle tuning and modification. Consequently, this makes the revised 4th UK publication the most complete and desirable edition. Therefore, it is our pleasure to offer this reprint of the Floyd Clymer 'Revised 4th UK Edition or Second American Edition of 'Tuning for Speed' to motorcycle enthusiasts worldwide. 'Tuning for Speed' was originally published in 1948 and continuously reprinted and updated in order to keep pace with the constantly evolving range of British motorcycles and engines. While the primary focus of this publication is on 1965 and prior British motorcycles, the theory and engineering it contains is still applicable to the current crop of high revving imports. 'Tuning for Speed' is considered by many knowledgeable motorcycle enthusiasts to be one of the best books ever written on how to improve, modify and fine tune a motorcycle engine and it is often referred to as one of the 'top 10' classic motorcycle books. The Floyd Clymer association with this publication dates back to the early 1960's when he purchased the United States Publishing rights for 'Tuning for Speed' from Temple Press in the UK and, in 1967, Clymer published the 1st American edition of that title. However, by 1967, the Clymer publication had been preceded by 8 printings of the UK edition and was incorrectly identified by Clymer as a 9th edition. In fact, the 1967 Clymer publication is actually a reprint of the less desirable 208 page 1960 UK edition. However, in 1963, the 4th UK edition was revised and expanded to 294 pages (with a second identical re-print in 1965). Therefore, this 2nd American edition of the Floyd Clymer publication of 'Tuning for Speed' includes all of that valuable 'dated information' that was deleted from the later editions and is identical in all respects to the 294 page 1963/1965 revised and expanded 4th UK edition - with the exception that 7 pages of UK-based advertising to the rear of the book are not included in the Clymer publication.
