### **Making Societies**

Ecology and Empire forged a historical partnership of great power -- and one which, particularly in the last 500 years, radically changed human and natural history across the globe. This book scrutinizes European expansion from the perspectives of the so-called colonized peripheries, the settler societies. It begins with Australia as a prism through which to consider the relations between settlers and their lands, but moves well beyond this to a range of lands of empire. It uses their distinctive ecologies and histories to shed new light on both the imperial and the settler environmental experience. Ecology and Empire also explores the way in which the science of ecology itself was an artifact of empire, drawing together the fields of imperial history and the history of science.

Line them up on the counter, and there you have it: thousands of years of human history in six drinks. Tom Standage opens a window onto the past in this tour of six beverages that remain essentials today. En route he makes fascinating forays into the byways of western culture: Why were ancient Egyptians buried with beer? Why was wine considered a “classier” drink than beer by the Romans? How did rum grog help the British navy defeat Napoleon? What is the relationship between coffee and revolution? And how did Coca-Cola become the number one poster-product for globalization decades before the term was even coined? From the Hardcover edition.

Early European visitors placed Ayutthaya alongside China and India as the great

powers of Asia. Yet in 1767 the city was destroyed and its history has been neglected. This book is the first study of Ayutthaya from its emergence in the thirteenth century until its fall. It offers a wide-ranging view of social, political, and cultural history with focus on commerce, kingship, Buddhism, and war. By drawing on a wide range of sources including chronicles, accounts by Europeans, Chinese, Persians, and Japanese, law, literature, art, landscape, and language, the book presents early Siam as a 'commercial' society, not the peasant society usually assumed. Baker and Phongpaichit attribute the fall of the city not to internal conflict or dynastic decline but failure to manage the social and political consequences of prosperity. This book is essential reading for all those interested in the history of Southeast Asia and the early modern world.
