Is your firm's board creating value—or destroying it? Change is coming. Leadership at the top is being redefined as boards take a more active role in decisions that once belonged solely to the CEO. But for all the advantages of increased board engagement, it can create debilitating questions of authority and dangerous meddling in day-to-day operations. Directors need a new road map—for when to lead, when to partner, and when to stay out of the way. Boardroom veterans Ram Charan, Dennis Carey, and Michael Useem advocate this new governance model—a sharp departure from what has been demanded by governance activists, raters, and regulators—and reveal the emerging practices that are defining shared leadership of directors and executives. Based on personal interviews and the authors' broad and deep experience working with executives and directors from dozens of the world's largest firms, including Apple, Boeing, Ford, Infosys, and Lenovo, Boards That Lead tells the inside story behind the successes and pitfalls of this new leadership model and explains how to:

- Define the central idea of the company
- Ensure that the right CEO is in place and potential successors are identified
- Recruit directors who add value
- Root out board dysfunction
- Select a board leader who deftly bridges the divide between management and the board
- Set a high bar on ethics and risk

With a total of eighteen checklists that will transform board directors from monitors to leaders, Charan, Carey, and Useem provide a smart and practical guide for businesspeople

everywhere—whether they occupy the boardroom or the C-suite.

Sixteen-year-old Max and 10-year-old Tessa were fully prepared for another horrible summer vacation. While they always hoped to go somewhere fun like Disney World or Universal Studios, they usually went somewhere weird and cheap that their father, former boy bander Don Masters, found in an ad in a truck stop coupon magazine. But this year was different. Where they went couldn't be found on any map or in any truck stop coupon book. They passed through a portal to a place called Turtle Island, an alternate version of America that diverged from our history before the pilgrims landed at Plymouth Rock. It was there where they met world famous action movie star Jordie Paine -- star of such films as I Plan to Kill You Now and the sequel, I Plan to Kill You Now, Too, the ninja film, Chuck Butcher: Sword Wielding Jackal, as well as the light-hearted romp, Harry Hinklehoffer and the Giant Dancing Toad of East Nebraska -- who would be their guide in this strange new world. Jordie, they later learned, brought the Masters family to Turtle Island for a very specific reason. Because they look just like the ruthless first family of Turtle Island, the Masters are pawns in a coup to overthrow the dictator. But things don't go as planned and the Masters wind up in the Survival Games, Turtle Island's national pastime/system of justice where criminals competitors, or crimpetitors, compete for their freedom. In this scifi comedy, the stakes are very simple -- if they win, they rule, if they lose, they must suffer the consequences.

Readers will feel they know someone just like the characters in this timely novel on social status and social media. Steen Sand, CEO of Stensure Networks, is the head honcho at an IT firm that's developed an Internet service to monitor, compute, and publish people's social status. His chief operating officer, Irene Lund, serves as his muse. He needs her to be part of his world, or he can't achieve anything of significance. But does she feel the same? Chief financial officer, Michael Jensen, is a hard-core pessimist who has learned the hard way not to speak up against the status quo, in spite of his natural inclination to do so. Jensen's a numbers guy. He relates to spreadsheets better than he does to people. Will this cost him in the end? Louise Hald, chief marketing officer, joined Stensure's management team after leaving her post as an assistant professor at a business school. She's beginning to wonder if she'll ever move past the "assistant" part in the eyes of her coworkers. What can she do to ensure she gets ahead? And then there's Sophie Bech. She's made the long trip back to Denmark from South Africa for her own private reasons, and everything looks different to her now. She wonders what her return will hold for her. Was it a mistake? Will her fresh set of eyes-and values-help or hinder the team? Reductionism-understanding complex things by reducing them to fundamental parts and interactions-comes up against social status, so subtle, intricate, and sought-after, in this intriguing modern-day novel. Will these characters-and their supporting players-make the changes they need to survive in today's world? Or will they succumb to the allure of using easy but underhanded methods to get ahead?

Jerry D Young was born at home, in Senath, Missouri July 3, 1953. At age 5 the family rented a small farm house on an active farm 40 miles southwest of St. Louis. While the family weren't farmers, they lived something of a homestead type life, raising a milk cow, sometimes two, and calves, a pig or two, chickens, and the occasional goat. Along with the stock, a large garden helped to feed Jerry's three brothers and two sisters for several years. Fishing and hunting contributed to the pantry, as did foraging the wild edibles on the property. At the age of 14, the family, minus a brother and two sisters that were now adults and on their own, moved back to Senath. Having been encouraged from an early age to read, Jerry was a regular patron of the Senath Branch Library. A love of a good story was born within him, and shortly before graduating high school, for a lack of stories that he liked at the library, he began to write short vignettes, and started taking notes for stories that he wanted to tell. Well, a full life interceded, and the writing didn't resume for several years. But while working a job with a much free time, and the then newfangled home computer, Jerry began to write in earnest. With the occasional gap in the process, Jerry continued to research and write, never believing he could ever be published. But when he turned 50, he wanted a change in his life, left the job he was doing and began focusing on his writing. When he became ill, the writing stopped, but not the inspiration. When he started writing again, in 2004, after getting the medical problems under control, he began to read some on-line stories dealing with emergency preparedness, one of his other loves. The die was cast. Now with over a hundred of the vignettes and short stories about how to survive disasters written, along with his other novels, Jerry decided to go for broke, adding one of his previous works every few days to his list of stories now available, Jerry continues to write, both the Prep/PAW stories, as well as action adventure with a little romance type stories that first got him started.

A single volume that gathers together three of the most remarkable novels from Jean Echenoz, the "most distinctive French voice of his generation" (The Washington Post), Three by Echenoz demonstrates the award-winning author's extraordinary versatility and elegant yet playful style at its finest. "A parodic thriller sparkling with wit" (L'Humanité), Big Blondes probes our universal obsession with fame as a television documentary producer tries to track down a renowned singer who has mysteriously disappeared. A darkly comedic, noir-style tour de force, it finally answers the age-old question: do blondes have more fun? "Fluid, never forced...like a garment that fits beautifully even inside-out" (Elle), Piano brings Dante's Inferno to contemporary Paris, following Max Delmarc, a concert pianist suffering from paralyzing stage fright and alcoholism, as he meets his untimely death and descends through purgatory—part luxury hotel, part minimum-security prison—into a modern vision of hell. Running is "a small wonder of writing and humanity" (L'Express)—a portrait of the legendary Czech athlete Emil Zátopek, who became a national hero, winning three gold medals at the 1952 Helsinki Olympics even as he was compelled to face the unyielding realities of life under an authoritarian regime.

It also includes a head's up on "Three Hand Pinochle" a card game for the masses defined as having two levels of players: Level 1—social players and Level 2—players registered as competent to play the game in competitive financial events, for example: casinos, cruise ships etc., under rules explained by the author [Phil Duse Rules] which make the game truly challenging and unforgiving of players who for whatever excuse fail to follow the rules. Such infractions are defined and qualified as reneges or "Opps" which either result in a loss of "Melt" or both a loss of melt and reduction in score equal to the bid.

The chapters of "Discovery of Soul," "Art of Death" and "Art of Life" will demystify the riddle of Hinduism. Why "Morality is Satanic" and the characteristics of true Freedom are discussed. Further, "Caste System" is dealt in details. The last chapter "Manage Yourself" will let the readers relate to Discipline, self-development, yoga, meditation and improving oneself. The chapters like "Advice to Religions" and also, "Advice to Democracies" will challenge the threat of multi-dogmatic-religious society.

### **Women at the Table**

This novel is a true story! I was a part of it. In 1974 a wealthy industrialist bought the oldest silver mine in the USA. in Lancaster County. The mine had been abandoned for over 100 years when the lower shafts broke into the water table. Once they were drained out super-rich veins of silver were rediscovered. I was the one sent down to see what was there. The discovery was kept a secret, except for the few who knew. The industrialist went on a 14-year quest to uncover the mineral wealth by opening up a quarry. The township refused. They were never told of the silver there. He bided his time and meanwhile opened up a huge campground and venue for country-music stars. From 1974 to 1988 every country-music star in the country went there and entertained over 500,000 people. He figured that, in time, new supervisors would come and he would get his way. He never did. He died, unexpectedly, in 1988, taking his high ambition and his secret with him. Except for me! Now I tell you the story, the truth, untold for all this time. The silver mine is a 300-acre park which can be visited by the general public. But there is no one there to tell the storied past. Except me. Read it here first! Then go and see it for yourself! Christopher Haefner is also the author the 2006 thriller, The Cuz.
