This volume presents a series of original papers focusing on the theme of phonological argumentation, set within the framework of Optimality Theory. It contains two major sections: (1) chapters about the evidence for and methodology used in discovering the bases of phonological theory, i.e., how constraints are formed and what sort of evidence is relevant in positing them; and (2) case studies that focus on particular theoretical issues within OT, usually through selected

phenomena in one or more languages, arguing in favor of or against specific formal analyses. A noteworthy detail of this book is that all of the contributors are connected with the program in phonology and phonetics at the University of Massachusetts Amherst, either as current professors or former graduate students. Consequently, all of them have been directly influenced by John McCarthy, himself one of the major proponents of OT. This collection will therefore be of interest to anyone who seriously follows the field of OT. The intended readership is primarily graduate students and those already holding an advanced degree in linguistics, i.e., persons conversant with and capable of interacting with the OT literature.

Oddr Snorrason, a Benedictine monk in northern Iceland in the late twelfth century, composed a landmark Latin biography of the legendary Norwegian king Olaf Tryggvason (died 1000 C.E.). This biography was soon translated into Icelandic, and the translation (though not the Latin original) is preserved in two somewhat differing versions and a small fragment of a third. The Saga of Olaf Tryggvason is the first English translation of this text, augmented by an introduction and notes to guide the reader. There is a strong possibility that Oddr's biography was the first full-length saga of the Icelandic Middle Ages. It ushered in a century of saga writing that assured Iceland a unique place in medieval literature and in the history of prose writing. Aside from being a harbinger of the saga tradition, and indeed of the modern novel, The Saga of Olaf Tryggvason has its own literary merits, including an epic description of the great Battle of Svoldr, in which King Olaf succumbed. In significant ways the narrative of this battle anticipates the mature style of the classical sagas in the thirteenth century.

King of Foxes

An unforgettable portrait of France's legendary chef, and the sophisticated, unforgiving world of French gastronomy Bernard Loiseau was one of only twenty-five French chefs to hold Europe's highest culinary award, three stars in the Michelin Red Guide, and only the second chef to be personally awarded the Legion of Honor by a head of state. Despite

such triumphs, he shocked the culinary world by taking his own life in February 2003. The GaultMillau guidebook had recently dropped its ratings of Loiseau's restaurant, and rumors swirled that he was on the verge of losing a Michelin star (a prediction that proved to be inaccurate). Journalist Rudolph Chelminski, who befriended Loiseau three decades ago and followed his rise to the pinnacle of French restaurateurs, now gives us a rare tour of this hallowed culinary realm. The Perfectionist is the story of a daydreaming teenager who worked his way up from complete obscurity to owning three famous restaurants in Paris and rebuilding La Côte d'Or, transforming a century-old inn and restaurant that had lost all of its Michelin stars into a luxurious destination restaurant and hotel. He started a line of culinary products with his name on them, appeared regularly on television and in the press, and had a beautiful, intelligent wife and three young children he adored—Bernard Loiseau seemed to have it all. An unvarnished glimpse inside an echelon filled with competition, culture wars, and impossibly high standards, The Perfectionist vividly depicts a man whose energy and enthusiasm won the hearts of staff and clientele, while self-doubt and cut-throat critics took their toll.

"Comprised of footnotes to a non-existent text, *The Body: An Essay* is a meditation on absence, loss, and disappearance that offers a guarded "narrative" of what may or may not be a love letter, a dream, a spiritual autobiography, a memoir, or a scholarly digression, a treatise on the relation of life to book. Christian Bök describes Bouilly's groundbreaking text as one that "may simply annotate a fantastic biography from another reality, referring only to itself as a kind of dream within a dream. The reader can only fantasize about the original contexts that might have made such information significant to its author, and ultimately, implies that the body of any text consists of nothing but a void--filled with the exegetical projection of our own imagination." First published in 2002 and excerpted in such anthologies as *The Next American Essay* and *The Best American Poetry 2002*, *The Body: An Essay* continues to challenge conventional notions of plot and narrative, genre and form, theory and practice, unremittingly questioning the presumptive boundaries between reflection, imagination, and experience."--Easy Press website.

The Perfectionist

Sidra DeKoven Ezrahi's sweeping study of modern Jewish writing is in many ways a long meditation on the thematics of geography in Jewish culture, what she calls the "poetics of exile and return." Until the late nineteenth century, Jews were identified in their own religious and poetic imagination as wanderers and exiles, their sacred center—Jerusalem, Zion—fatefully out of reach. Opening the book with "Jewish Journeys," Ezrahi begins by examining the work of medieval Hebrew poet Yehuda Halevi to chart a journey whose end was envisioned as the sublime realignment of the people with their original center. When the Holy Land became the site of a political drama of return in the nineteenth century, Jewish writing reflected the shift, traced here in the travel fictions of S.Y. Abramovitsh, S.Y. Agnon, and Sholem Aleichem. In "Jewish Geographies" Ezrahi explores aspects of reterritorialization through memory in the post-Holocaust writing of Paul Celan, Dan Pagis, Aharon Appelfeld, I.B. Singer and Philip Roth. Europe, where Jews had dreamed of return, has become the new ruined shrine: The literary pilgrimages of these writers recall familiar patterns of grieving and representation and a tentative reinvention of the diasporic imagination—in America, of course, but, paradoxically, even in Zion.

St Matthias Mission 1902: 'There are men who know that when you are finished with this war of yours and have raised your flag to the glory of your Empire - the one that we, as black men, are supposed to revere for having bestowed on us education, faith, prosperity and all the other high-sounding gifts - that you will sell us out - perhaps against the advance of metaphorical cattle - and say it is expedient. You will sacrifice our rights in order to secure your peace with the Boers and shrug us off. It is for this expedience that men like Tom and Reuben and Sonwabo Pumami are dead. There will be thousands like them in the time to come. ' Against a backdrop of drought, the rinderpest pandemic, the South African War, the burgeoning gold-mining industry and the complex birth of the exploitative system of recruiting migrant labour, Shades explores the growing tensions between cultures in South Africa at the turn of the twentieth century and the deepening awareness of the black mission-educated elite, empowered by the printing press, of the need to articulate their political and spiritual beliefs. Set within the microcosm of an isolated Eastern Cape mission, Shades is not only a love story and the chronicle of a family but a sensitive and perceptive insight into the country's wider conflicts. It explores the slow but inexorable destruction of the fabric of a community, the assault on its traditions and the struggle to reconcile two faiths: the Christian and the traditional beliefs of the amaXhosa in their ancestral shades. It is the story of those far-sighted enough to seek convergence and those destined to undermine its wisdom. Primarily, Shades is an intimate tale of love, friendship, acceptance and profound loss: of life, of faith and of belonging.

On a diplomatic mission to the planet Andor, Captain Picard and the crew of the Enterprise-E bear witness to the rank devastation resulting from the Borg invasion. With the reproductive issues that have long plagued the Andorian people reaching crisis level, avenues of research that at first held great promise have proven largely unhelpful, and may well indeed be worsening the problem. Despite the Federation's seeming inability to provide assistance and growing doubt over its commitment to a staunch, longtime ally, Andorian scientists now offer renewed hope for a solution. However, many segments of Andorian society are protesting this controversial new approach, and more radical sects are beginning to make their displeasure known by any means available. In response, President Nanietta Bacco has sent the Enterprise crew and a team of diplomats and scientists to Andor to convene a summit, in the hope of demonstrating that the Federation's pledge to helping Andor is sincere. But the Typhon Pact is watching, and their interests may very well lead the Andorian people down an even more treacherous path. . . .

The Serpents of Paradise

Most people think that beauty revolves around such things as lipstick, sweet eyes, or skinny jeans -- all those things that we can see (and obsess over) in the mirror. But the fact is that beauty isn't some superficial pursuit, and it's not some random act that you can thank (or curse) your ancestors for. There are, in fact, scientific standards to beauty. Beauty is purposeful, because it's how humans have historically communicated who we are to potential mates. Beauty, in fact, is really about your health and happiness. In this groundbreaking book, Dr. Michael F. Roizen and Dr. Mehmet C. Oz bust the myths and stereotypes about the way we view ourselves -- and how we define beauty. In these pages, you'll find out why beauty isn't as much about your vanity as it is about your humanity. The doctors take a scientific, informative, and entertaining look at the three levels of beauty and explain how they all work together to form a complete and authentic YOU. Those three levels of beauty are: Looking Beautiful: Your appearance influences your self-esteem and has major health implications. Here, the docs will tell you how you can look the way you want. Feeling Beautiful: So what if you have luscious lips or gorgeous locks
