How They Sell Music

A Field Guide to Student Teaching in Music is a practical guide focused on the link between music education coursework and the field-based aspects of the student teaching experience. It addresses general topics that are common to all music placements, as well as those topics that are of specific interest to the general, choral, and instrumental music classrooms. This text builds on theoretical materials typically covered in music methods courses, yet it is not specific to any one particular teaching pedagogy, making it flexible enough for use in a variety of music teaching settings. It will guide students through the student teaching process as they make the transition from student to music educator.

Beginner's Guide to Reading Music

In *Mind Searching* Nyamnjoh has attempted to do something rather clever - to expose, through the attitudes, feelings and thoughts of one man and a very simple story, the hypocrisy and corruption of Cameroon society and humanity in general, often using understatement and irony in good effect. The commentary is unremittingly cynical and returns again and again to corruption, callous squandering, exploitation, prostitution, and other fairly worn butts. The book depicts a society where basic freedoms are shackled, and thinking aloud treasonable. Hence the mental ramblings of the narrator and central character Judascious Fanda Yanda, in the form of an extended monologue full of observations, anecdotes and asides written from the point of view of an apparently insouciant naive. The basic method is to foreground the opinions and conversational elegance of the narrator, while having events going on as a background to his thoughts. We trace the narrator's progress from a disenchanting 'Damn de la Terre' to a comfortably well off Private Secretary to a Vice Minister over a number of years. It is a clear illustration of how the system perpetuates its mediocrity and buys off any spark of initiative. Nyamnjoh has a good command of ironic tone and sound control over form and structure. He employs a very fluent style, and often has very urbane and neat turns of phrase. He captures the bored, superior, cynical and ultimately predatory tone of voice of his narrator extremely well.

The Penguin Guide to Jazz Recordings is firmly established as the world's leading guide to recorded jazz, a mine of fascinating information and a source of insightful - often wittily trenchant - criticism. He has completely revised his and Richard Cook's entries and reassessed each artist's entry for this book. The result is an endlessly browsable companion that will prove required reading for aficionados and jazz novices alike. 'It's the kind of book that you'll yank off the shelf to look up a quick fact and still be reading two hours later' Fortune 'Part jazz history, part jazz Karma Sutra with Cook and Morton as the knowledgeable, urbane, wise and witty guides This is one of the great books of recorded jazz; the other guides don't come close' Irish Times
