as hosts of comedy podcast Answer Me This! Helen and Olly take on the world's questions and solve them with their unique mixture of pointless knowledge, reckless opinion and a dash of filth.

Art Models

Figure drawing is the most essential--and the most difficult--of all skills for the artist to learn. In this book, Burne Hogarth, one of the founders of the School of Visual Arts in New York, introduces his own revolutionary system of figure drawing, which makes it possible to visualize and accurately render the forms of the human body from every conceivable point of view. 300+ drawings & diagrams.

A Woman's Right to Pleasure

'To admit to writing about artists' models is to set off an avalanche of interest. "Didn't Rossetti marry his model?" "didn't Augustus John sleep with all of his?" At first I brushed such questions aside as frivolous. Instead of revealing the facts about modelling in England from the foundation of the Royal Academy to the present day, the gossip column approach to art history seemed to veil them. But as research revealed the mundane business of a model's life, I had second thoughts about my high-minded approach. I became fascinate by the way that contrary to

Read Book Art Models 2 Life Nude Photos For The Visual Arts Art Models Series

the facts that were emerging, the majority of model anecdotes shared a common obsession - sex - and a common assumption - that models are female. I started to wonder to wonder how posing for artists, a tiring, tedious and lowly-paid profession practised by both sexes and all ages, could have become so fascinating to the public mind and also so distorted.' This is how Frances Borzello's unusual and revisionist book begins. Myth and reality are far apart. It is quite wrong to suppose models were always women, always naked and always promiscuous. Male models were just as much in demand for painters of History, Mythology and Genre, in which both sexes might require to be clothed in some particular manner. There are ten chapters: Fact and Fantasy, The Rise and Fall of the Professional Model, The Heyday of the Professional Model, The Model's Status, Bohemia, The Stereotype, High and Low Writing, The Propagation of Myth, The Model in Fiction, The Model in Art: and in them the author, with great originality, covers all aspects of this much misunderstood activity. 'The first chapter of Frances Borzello's book, The Artist's Model, is entitled Fact and Fantasy. The facts are dull. Modelling is a boring, tiring, badly paid profession. Yet out of them we have created an image of a woman dressed only for seduction who probably sleeps with the artist, cooks for him, and inspires his best work. Rossetti has his beloved Lizzie Siddall, Whistler had his Maud, Augustus John . . . well Augustus had whoever he could, whenever he could.'

Waldemar Januszczak, Guardian

Live Nude Girl

Read Book Art Models 2 Life Nude Photos For The Visual Arts Art Models Series

While no book can replace a live model, this photographic guide to the human form provides a diverse selection of figures for those who do not have access to live models. Posed in a variety of classical and modern modes, the models are set in a clear, clean environment that is void of distractions and enhances the figure. All of the high-resolution photographs were painstakingly edited and adjusted to yield all the nuances of the figures. The companion disc contains 24 photographs per pose that, in totality, comprises a full 360 degree view. Each angle of every pose can be enlarged, enabling artists to zoom in on specific body parts to discover their intricate detail or project the photos to life-like proportions. The disc also offers the flexibility of numerous viewing options—on a computer screen, printed out, projected for a group, or via a high-definition television when connected through a computer.

Art Models 7

Artists can easily access the human form outside of the studio with this solid pictorial reference. More than 500 crisp photographs portray a diverse set of models in 100 poses - ranging from the classical to everyday - and show the positions from a variety of angles, including overhead. Exquisitely detailed close-ups of particular body parts and precise lighting reveal otherwise hidden areas of the models while providing rich shadowing and tone. The inspiring photographs in

this collection are ideal for both students and more advanced artists who are looking for material to supplement a live model class or to hone their skills from the comfort of home.

The Undressed Art

"The best way to improve in figure art is to practice, which requires quality reference material that inspires you. That's what the Art Models series is all about. With nearly 200 photos of nude art models--both female and male--Art Models 10 will inspire students and professionals alike to practice and create finished works of art (which may be sold royalty free). For students, we provide a brief instructional exercise at the beginning of the book written by author and art teacher Butch Krieger that will have you improving right away using pose photos. The 100 distinct poses within the book were selected by a team of experienced art instructors to ensure they are genuinely useful for both students and professionals, with the inclusion of hands, feet, and faces that give close-up views of these notoriously tricky areas. Become a better artist with Art Models 10--novices can practice and experts can perfect."--Amazon.com.

Art Models Ultra

Artists looking to supplement a live model class or hone their skills from the comfort of home are provided with a solid pictorial guide to the human form in this detailed reference. Nearly 200 crisp photographs portray a diverse group of male and female models from a variety of angles in 52 classically inspired poses. Precise lighting reveals otherwise hidden areas of the models and illustrates rich shadowing and tone, while an anatomical study, inspired by da Vinci's Vitruvian Man, presents detailed proportional references for each model.

The Practical Guide to Drawing Figures

This book commemorates the first ten years of exhibiting the photographic fine art female nude by Doug Heslep. There are multiple diverse series within representing a serious overview of Heslep's celebrated collection.

FORCE: Dynamic Life Drawing

Art Models 4

Art is always ambiguous. When it involves the female body it can also be erotic. Erotic Ambiguities is a study of how contemporary women artists have

Read Book Art Models 2 Life Nude Photos For The Visual Arts Art Models Series

reconceptualised the figure of the female nude. Helen McDonald shows how, over the past thirty years, artists have employed the idea of ambiguity to dismantle the exclusive, classical ideal enshrined in the figure of the nude, and how they have broadened the scope of the ideal to include differences of race, ethnicity, sexuality and disability as well as gender. McDonald discusses the work of a wide range of women artists, including Barbara Kruger, Judy Chicago, Mary Duffy, Zoe Leonard, Tracey Moffatt, Pat Brassington and Sally Smart. She traces the shift in feminist art practices from the early challenge to patriarchal representations of the female nude to contemporary, 'postfeminist' practices, influenced by theories of performativity, queer theory and postcoloniality. McDonald argues that feminist efforts to develop a more positive representation of the female body need to be reconsidered, in the face of the resistant ambiguities and hybrid complexities of visual art in the late 1990s.

Art Models 10

The first behind-the-scenes look at the life of the most enigmatic First Lady in U.S. history Melania Trump is an enigma. Regardless of your political leanings, she is fascinating—a First Lady who, in many ways, is the most modern and groundbreaking in recent history. A former model whose beauty in person leaves people breathless, a woman whose upbringing in a communist country spurred a relentless drive for stability, both for herself and for her family. A reluctant pillar in

Read Book Art Models 2 Life Nude Photos For The Visual Arts Art Models Series

a controversial presidential administration who speaks five languages and runs the East Wing like none of her predecessors ever could—underestimate her at your own peril (as a former government official did and was summarily fired). But who is she really? In *Free, Melania* we get an insider's look at Melania Trump, from her childhood in Slovenia to her days in the White House, and everything in between. We see the Trump family dynamics that Melania has had to navigate, including her strained relationship with Ivanka. We get a rare glimpse into what goes into her famous and sometimes infamous clothing choices (including perhaps the real message behind Melania's controversial jacket, "I Really Don't Care, Do U?", which she wore while visiting the U.S.-Mexico border), and how a publicly quiet Melania actually speaks very loudly—if you just know where, and how, to listen. And we get a behind-the-scenes look at her often eyebrow-raising relationship with Donald Trump, from their beginnings to becoming the most unusual First Family in modern history. Looking at Melania in the pantheon of historic First Ladies, Kate Bennett shows just how different Melania Trump is and why she matters. Bennett, an expert on First Ladies, has unparalleled access to Melania's very small and loyal inner circle. As she shows in this page-turning book, the seemingly most reluctant First Lady is, in many ways, the most compelling and complex First Lady, ever.

Re Jane

Artists in search of figures in intense action—flying through the air, punching,

Read Book Art Models 2 Life Nude Photos For The Visual Arts Art Models Series

kicking, and crouching—will find more than 100 poses of male and female models in 28 categories of dynamic movement in this DVD-ROM that is the latest addition to the Art Models series. With over 2,000 high-resolution images on the disc, artists have the ability to study these motions at length, opening up a world of high-intensity movement that can be incorporated into their artwork without taking up space on their computer hard drives or working with the cost and time constraints of hiring models. The ability for multiple-angle viewing and drawing at the artist's pace becomes as easy as putting in the disc—which is both Mac and PC compatible and doesn't require any special programs—and opening any photo. Poses have been carefully chosen to illustrate important effects, such as foreshortening and perspective changes. For artists who work in fine detail, close-ups and dramatic perspectives have been added for many positions and can be found in resolutions up to 20 megapixels. A section of photos depicting frozen actions, including jumping, falling, or swinging a sword, offers artists a series of expertly photographed views that would be very challenging to achieve with a studio model. Art Models 7 also presents a number of the series' trademark stationary poses photographed in 24-point rotation and shot in the round.

Wild Awake

From head to toe, the human form, in all its complexities, is visually simplified to such a degree in this remarkable workbook that even complete beginners will soon be able to draw accurate, well-proportioned faces and figures every time they try. Avoiding complex charts of muscles and bones that are more helpful to doctors than to artists, this book's refreshing approach teaches anatomy from a cartoonist/illustrator's point of view. For example, there are many large and small muscles in the neck, all rendered in great detail in most anatomy books, but here, master teacher Christopher Hart shows only the four that are visible and need to be drawn. His clear instruction helps readers to visualize and portray shifting body weight in a pose without the need of a model, and instead of showing a mass of facial muscles and bones, he translates them into the simple planes an artist needs to draw a range of expressive faces.

Human Anatomy Made Amazingly Easy

An essential guide to creating artistic renderings of the human form. While no book can replace a live model, this photographic guide to the human form provides an array of figures for those who do not have access to live models. The latest in the series, this guide features two new models and an entirely new collection of

Read Book Art Models 2 Life Nude Photos For The Visual Arts Art Models Series

photographs. Posed in a variety of classical and modern positions, the models appear in a clear, clean environment that is void of distractions and enhances the figure. All of the high-resolution photographs were painstakingly edited and adjusted to yield all the nuances of the figures. The PC- and Mac-compatible companion CD-ROM contains 24 photographs per pose that, in total, comprise a full 360-degree view. Each angle of every pose can be enlarged, enabling artists to zoom in on specific body parts to discover their intricate detail or project the photos to lifelike proportions. The CD also offers the flexibility of numerous viewing options -- on a computer screen, printed out, projected for a group, or via a high-definition television when connected through a computer.

Drawing on the Right Side of the Brain

From action to static, fully clothed to nude, and full-body to close-up poses, this high resolution figure reference enables digital artists to give their creations ultra-realistic features and traditional artists to create detailed or monumental-size paintings and drawings. This comprehensive figure study of a single female model provides 360-degree surround and detailed views of every part of the body from multiple angles with particular attention given to the most challenging areas such as eyes, hands, and feet. Phonemes show the mouth in 10 different positions—A, C, E, F, L, M, O, U, W, and rest—and images of expressions register six universally recognized emotions—anger, fear, disgust, happiness, sadness, and surprise—plus

neutral. The figure reference is designed for use in a computer, is PC and Mac compatible, and only requires standard photo-viewing software such as that built into Windows and OS X. Images are photographed at 21 megapixels; cropped to eliminate excess background; developed in 16-bit to normalize white balance and exposure; and painstakingly edited to remove basic blemishes such as dry skin, pimples, and scars while retaining all other natural skin detail. Ensuing images are virtually indistinguishable from the source PSD files, yielding ultra-real, detailed, and close-up views of a natural, red-headed model.

Things you earnestly believe will happen while your parents are away: 1. You will remember to water the azaleas. 2. You will take detailed, accurate messages. 3. You will call your older brother, Denny, if even the slightest thing goes wrong. 4. You and your best friend/bandmate Lukas will win Battle of the Bands. 5. Amid the thrill of victory, Lukas will finally realize you are the girl of his dreams. Things that actually happen: 1. A stranger calls who says he knew your sister. 2. He says he has her stuff. 3. What stuff? Her stuff. 4. You tell him your parents won't be able to— 5. Sukey died five years ago; can't he— 6. You pick up a pen. 7. You scribble down the address. 8. You get on your bike and go. 9. Things . . . get a little crazy after that.* *also, you fall in love, but not with Lukas. Both exhilarating and wrenching, Hilary T. Smith's debut novel captures the messy glory of being alive, as seventeen-year-old Kiri Byrd discovers love, loss, chaos, and murder woven into a summer of music, madness, piercing heartbreak, and intoxicating joy.

The Art Model's Handbook

Read Book Art Models 2 Life Nude Photos For The Visual Arts Art Models Series

Whether for work on a finished piece, trying a new technique, or getting in some practice time, this figure study enables artists to work when and where they want with their choice of model, pose, and view. The latest in the series features 12 new male and female art models—as well as Becca from the previous book—in a collection of poses selected by readers and visitors to the authors' website. The contrast has also been increased in many of the photos to provide deeper, more challenging shadows. While the guide includes individuals and couples with a wide range of body types in natural, relaxed stances as well as some inspired by classical works of art, the primary focus is on dynamic poses—twisting, scrunching, reaching, and even fighting. Poses are precisely lit, revealing every area of the model, and have been carefully chosen to illustrate important effects such as foreshortening and perspective changes. A judicious amount of photo retouching is done, not to make the models more glamorous or plastic, but to remove distractions that detract from the essence of the models. The PC- and Mac-compatible DVD-ROM included in the book features more than 1,200 high-resolution photos available in a number of viewing options—on a computer screen, printed out, projected for a group, or via a high-definition television. Each angle of every pose may also be enlarged, enabling artists to zoom in on specific body parts to achieve a higher level of detail.

Artists in search of figures in intense action—flying through the air, punching, kicking, and crouching—will find more than 100 poses of male and female models in 28 categories of dynamic movement in the latest addition to the Art Models series. Informed by diverse sources such as baroque art, with its moody lighting and twisting figures, and comic books, with heroic figures in strong stances and suspicious crouches, this visual reference will inspire any artist—comic book artists, animators, video game designers, and illustrators—interested in depicting drama. A section of time-stopping photos of actions including jumping, falling, or swinging a sword offers artists a series of expertly photographed views that would be very challenging to achieve with a studio model. Art Models 7 also presents a number of the series' trademark stationary poses photographed in 24-point rotation and shot in the round. For artists who work in fine detail, close-ups and dramatic perspectives have been added for numerous positions and can be found on the companion disc in resolutions up to 20 megapixels.

The Art of Nude Life Modeling Illustrated

Many of us want to learn “how to draw.” But as artist Anthony Ryder explains, it’s much more important to learn what to draw. In other words, to observe and draw what we actually see, rather than what we think we see. When it comes to drawing the human figure, this means letting go of learned ideas and expectation of what the figure should look like. It means carefully observing the interplay of form and light, shape and line, that combine to create the actual appearance of human form. In *The Artist’s Complete Guide to Figure Drawing*, amateur and experienced artists alike are guided toward this new way of seeing and drawing the figure with a three-step drawing method. The book’s progressive course starts with the block-in, an exercise in seeing and establishing the figure’s shape. It then build to the contour, a refined line drawing that represents the figure’s silhouette. The last step is tonal work on the inside of the contour, when light and shadow are shaped to create the illusion of form. Separate chapters explore topics critical to the method: gesture, which expresses a sense of living energy to the figure; light, which largely determines how we see the model; and form, which conveys the figure’s volume and mass. Examples, step-by-steps, and special “tips” offer helpful hints and practical guidance throughout. Lavishly illustrated with the author’s stunning artwork, *The Artist’s Complete Guide to Figure Drawing* combines solid instruction with thoughtful meditations on the art of drawing, to both instruct and inspire artists of all levels.

The Fine Art Nude: Decade One

Nude Photography

Throughout her twenties, Kelley Swain worked as an artists' model. 'The Naked Muse' is her elegant, fascinating memoir of this time, meditating on art, travel, and how we accept, inhabit, and understand our own bodies. She describes her first experience disrobing for a class, modelling for international artists over six years, an intensive month being painted in Bruges, and posing as saints for a Sicilian chapel frieze. Swain reveals how it really feels physically, intellectually, and emotionally - in the moment when "it's my matter that matters, not what I consider to be 'me'." Both a flirtation with submissiveness and a wielding of power, Swain examines the model's role in art's alchemy, and tells the forgotten stories of women whose faces still bewitch us from gallery walls.

The Artist's Model

A fascinating consideration of the work of life models and the models' own perspectives on their craft.

Art Models 5

Collection of 31 Original female nude art drawings and sketches from nude life modeling sessions. These drawings range from the 1960's through the 1990's. Several body types and body poses are modeled. This is a wonderful artistic example of the female human form. All of these original drawings appear on the right hand side of the page, the left side pages are blank for your own sketching, story writing or notes. This is Volume 1 and we are working on Volume 2 now. An art model poses for any visual artist as part of the creative process, providing a visual reference for the human figure in a work of art. However, more than being simply the subject of art, models are often thought of as muses, a source of inspiration, without whom the art would not exist. The most common types of art works that use models are figure drawing, figure painting, sculpture and photography, but almost any medium may be used. Art models are often paid professionals with skill and experience but are rarely employed full-time, and artists may also rely on friends and family to pose. Paid art models are usually anonymous and unacknowledged subjects of the work. Models are most frequently employed for art classes or by informal groups of artists that gather to share the expense of a model. Models are also employed privately by professional artists. Although commercial motives dominate over aesthetics in illustration, its artwork commonly employs models. For example, Norman Rockwell used his friends and neighbors as models for both his commercial and fine art work. An individual who

Read Book Art Models 2 Life Nude Photos For The Visual Arts Art Models Series

is having their own portrait painted or sculpted is usually called a "sitter" rather than a model, since they are paying to have the work done rather than being paid to pose. Beginning with the Renaissance, drawing the human figure from living models was considered the most effective way to develop the skill of draftsmanship. In the twentieth century, it became established that it is best to draw from life, rather than copying two dimensional images such as photographs. In addition, an artist has a connection to drawing another human being that cannot exist with any other subject. Models for life drawing classes are usually nude. In the classroom setting, where the purpose is to learn how to draw the human form in all the different shapes, ages and ethnicity, there are no real limitations on who the model can be. In some cases, the model may pose with various props, one or more other models, against real or artificial background, in natural or artificial light. The role of art models has changed through different eras as the meaning and importance of the human figure in art and society has changed. Nude modeling, nude art and nudity in general are at times subject to social disapproval, at least by some elements in society.-Wikipedia
