The Impact of Austerity Measures on People and Local Government

With austerity's disproportionately heavy impact on women now apparent, this engaging book considers activism against it from a feminist perspective. Emma Craddock goes deep inside activist culture to explore the many cultural and emotional dimensions of political participation. She questions what motivates and enables protest and the role of gender within it, and considers the enabling aspects, solidarity and empathy of activism and the negative emotions and gender barriers associated with it. This is a lived-in study that gets to the heart of what it means to be an anti-austerity activist, and an important addition to social justice debate.

Christian Approaches to Poverty

Ausperity

This book reflects the enormous interest in work-life balance and current pressing concerns about the impacts of austerity more broadly. It draws on contemporary research and practitioner experiences to explore how work-life balance and related workplace and social policy fare in turbulent economic times and the implications for employees, employers and wider societies. Authors consider workplace trends, practices and employment relations and the impacts on work, care and well-

being of diverse workers. A guiding theme throughout the book is a triple agenda of supporting employee work-life balance, workplace effectiveness and social justice. The final chapters present case studies of innovative processes and organizational practices for addressing the triple agenda, note the important role of social policy context and discuss the challenge of extending debates on work-life balance to include a social justice dimension. This book will be of interest to academics and postgraduate students of organisational psychology, sociology, human resource management, management and business studies, law and social policy, as well as employers, managers, HR managers, trade unions, and policy makers.

The Longing for Less

Austerity in Britain

It is a sad fact that the majority of the world's people still lives in poverty, with all the problems of hunger and disease that goes with it. What should Christians do about this? Various things have been tried, all with their own advantages and problems. Here is an overview of these approaches, and a suggestion for a synthesis based on Christian teachings.

Littell's Living Age

The Ascetic Self

"These tips are worth their weight in gold to businesses of all sizes." —Peter Jones, CBE, Entrepreneur and star of TV's Dragon's Den For any business, less really can be more. We all face new, austere times. Whether starting up, surviving or seeking to dominate its niche, every business needs to adjust. Based on years of real business experience, this book shows you how. From reinvigorating staff with Dunkirk spirit, to building revenues on a shoestring, this book tells you where to cut and where to keep spending. Packed with witty anecdotes, inspirational quotes and common sense advice, Austerity Business is a reinvigorating read for any business leader sworn down by daily bad news – the age of austerity really can be about thriving, not just surviving.

The Living Age

We're all feeling poor. Our wages mightn't have risen for a long time, but taxes, food, heating, clothes, pets, driving, kids,

booze, leaving the house - and paying for the privilege of living there - certainly have. Life costs more - but that doesn't mean it has to become rubbish. No need for a hairshirt or holiday-less year - treats can stay on the agenda. This book contains so many money-saving ideas and tips that together they'll knock thousands off the cost of living. It's less shiver-me-timbers-I-can't-afford-the-heating, more ten easy tips to slash your heating bill by a third.

Freedom Is

Austerity in Britain is the first book to explore the entire episode of rationing, austerity, and fair shares from 1939 until 1955. These policies were central to the British war effort and to post-war reconstruction. The book analyses the connections between government policy, consumption, gender, and party politics during and after the Second World War. The economic background to austerity, the policy's administration, and changes in consumption standards are examined. Rationing resulted in at times extensive black markets and popular attitudes to the policy ranged from wartime acquiescence to post-war discontent. *Austerity in Britain* qualifies the myth of common sacrifice on the home front and highlights the limitations of the fair-shares policy which failed to achieve genuine equality between classes or between men and women. The continuation of rationing and austerity policies after 1945 was central to party politics. Disaffection, particularly among women, undermined Labour's popularity while the Conservatives' critique of austerity was instrumental to the party's victories at the general elections of 1951 and 1955.

The Barn at the End of the World

New York Times Book Review Editor's Choice "More than just a story of an abiding cultural preoccupation, *The Longing For Less* peels back the commodified husk of minimalism to reveal something surprising and thoroughly alive." -Jenny Odell, author of *How to Do Nothing* "Less is more": Everywhere we hear the mantra. Marie Kondo and other decluttering gurus promise that shedding our stuff will solve our problems. We commit to cleanse diets and strive for inbox zero. Amid the frantic pace and distraction of everyday life, we covet silence-and airy, Instagrammable spaces in which to enjoy it. The popular term for this brand of upscale austerity, "minimalism," has mostly come to stand for things to buy and consume. But minimalism has richer, deeper, and altogether more valuable gifts to offer. Kyle Chayka is one of our sharpest cultural observers. After spending years covering minimalist trends for leading publications, he now delves beneath this lifestyle's glossy surface, seeking better ways to claim the time and space we crave. He shows that our longing for less goes back further than we realize. His search leads him to the philosophical and spiritual origins of minimalism, and to the stories of artists such as Agnes Martin and Donald Judd; composers such as John Cage and Julius Eastman; architects and designers; visionaries and misfits. As Chayka looks anew at their extraordinary lives and explores the places where they worked-from Manhattan lofts to the Texas high desert and the back alleys of Kyoto-he reminds us that what we most require is presence,

not absence. The result is an elegant new synthesis of our minimalist desires and our profound emotional needs.

Crisis, Austerity, and Everyday Life

Love Signs and You

In the first book of its kind, Bassel and Emejulu explore minority women's experiences of and resistances to austerity measures in France and Britain. Minority women are often portrayed as passive victims. However, *Minority Women and Austerity* demonstrates how they use their race, class, gender and legal status as a resource for collective action in the face of the neoliberal colonisation of non-governmental organisations, the failures of left-wing politics and the patronising initiatives of policy-makers. Using in-depth case studies, this book explores the changing relations between the state, the market and civil society which create opportunities and dilemmas for minority women activists. Through an intersectional 'politics of survival' these women seek to subvert the dominant narratives of 'crisis' and 'activism'.

The Practical Works of Richard Baxter: with a Life of the Author and a Critical Examination of His Writings by William Orme

A collection of essays by fifteen philosophers presenting a thoughtful, introductory guide to choosing a philosophy for living an examined and meaningful life. A VINTAGE ORIGINAL Socrates famously said "the unexamined life is not worth living," but what does it mean to truly live philosophically? This thought-provoking, wide-ranging collection brings together essays by fifteen leading philosophers reflecting on what it means to live according to a philosophy of life. From Eastern philosophies (Daoism, Confucianism, and Buddhism) and classical Western philosophies (such as Aristotelianism and Stoicism), to the four major religions, as well as contemporary philosophies (such as existentialism and effective altruism), each contributor offers a lively, personal account of how they find meaning in the practice of their chosen philosophical tradition. Together, the pieces in *How to Live a Good Life* provide not only a beginner's guide to choosing a life philosophy but also a timely portrait of what it means to live an examined life in the twenty-first century.

Meditation as a Way of Life

As much as any country, England bore the brunt of Germany's aggression in World War II, and was ravaged in many ways at the war's end. Celebrated historian David Kynaston has written an utterly original, and compellingly readable, account of the following six years, during which the country rebuilt itself. Kynaston's great genius is to chronicle the country's

experience from bottom to top: coursing through through the book, therefore, is an astonishing variety of ordinary, contemporary voices, eloquently and passionately evincing the country's remarkable spirit. Judy Haines, a Chingford housewife, gamely endures the tribulations of rationing; Mary King, a retired schoolteacher in Birmingham, observes how well-fed the Queen looks during a royal visit; Henry St. John, a persnickety civil servant in Bristol, is oblivious to anyone's troubles but his own. Together they present a portrait of an indomitable people and Kynaston skillfully links their stories to bigger events thought the country. Their stories also jostle alongside those of more well-known figures like celebrated journalist-to-be John Arlott (making his first radio broadcast), Glenda Jackson, and Doris Lessing, newly arrived from Africa and struck by the leveling poverty of post-war Britain. Kynaston deftly weaves into his story a sophisticated narrative of how the 1945 Labour government shaped the political, economic, and social landscape for the next three decades.

Living Against Austerity

“About the subtlest, most sane-making book on contemporary spirituality that I’ve read in years. It’s also the funniest.”—Joanna Macy, author of *Active Hope* Deciding that her life was insufficiently grounded in real-world experience, Mary Rose O’Reilley, a Quaker reared as a Catholic, embarked on a year of tending sheep. In this decidedly down-to-earth, often-hilarious book, O’Reilley describes her work in an agricultural barn and her extended visit to a Buddhist monastery in France, where she studied with Thich Nhat Hanh. She seeks, in both barn and monastery, a spirituality based not in “climbing out of the body” but rather in existing fully in the world. “O’Reilley has obviously mastered the craft of writing. Her rich, allusive prose draws on Catholicism, Quakerism, Buddhism, monastic tradition, Shakespeare and the Bible. Her short vignettes are luminous with faith matters, yet full of the earthy details of animal husbandry, resulting in a style that’s a cross between Kathleen Norris and James Herriot.”—Publishers Weekly “This enjoyable book offers lingering pleasure.”—Library Journal

Austerity Business

The story of four modern American Catholics who made literature out of their search for God In the mid-twentieth century four American Catholics came to believe that the best way to explore the questions of religious faith was to write about them-in works that readers of all kinds could admire. *The Life You Save May Be Your Own* is their story-a vivid and enthralling account of great writers and their power over us. Thomas Merton was a Trappist monk in Kentucky; Dorothy Day the founder of the Catholic Worker in New York; Flannery O'Connor a "Christ-haunted" literary prodigy in Georgia; Walker Percy a doctor in New Orleans who quit medicine to write fiction and philosophy. A friend came up with a name for them-the School of the Holy Ghost-and for three decades they exchanged letters, ardently read one another's books, and grappled with what one of them called a "predicament shared in common." A pilgrimage is a journey taken in light of a story; and in

The Life You Save May Be Your Own Paul Elie tells these writers' story as a pilgrimage from the God-obsessed literary past of Dante and Dostoevsky out into the thrilling chaos of postwar American life. It is a story of how the Catholic faith, in their vision of things, took on forms the faithful could not have anticipated. And it is a story about the ways we look to great books and writers to help us make sense of our experience, about the power of literature to change-to save-our lives.

Austerity

This collection of essays begins with an examination of the changing theories of luxury and austerity since classical times and other papers apply the theme to the history of Ireland and Britain. These papers were read before the 23rd Irish Conference of Historians in Maynooth, 1997.

Live the Life You Want for Less

There is a broad consensus that the impact of austerity measures on people in the United Kingdom will vary from place to place. However, what is less clear is that some people in some local authorities will be hit hardest. The pace in which cuts have been wielded by the coalition government has allowed local authorities little scope to maneuver and devise a good strategy for dealing with the huge loss of revenue in their local budgets. This book seeks to analyze how cutbacks pose severe challenges to local authorities in the United Kingdom, even threatening their ability to provide adequate delivery of benefits and public services to their constituents.

A Son of Austerity

This book contains Book of Her Foundations and Minor Works. Includes general and biblical index. In 1573, while staying in Salamanca to assist her nuns in the task of establishing one of her seventeen monasteries, Teresa began composing the

story of their foundation. The Book of Her Foundations comprises the major portion of Volume Three. This book not only tells the story of the establishment of her monasteries but, characteristic of Teresa, digresses into counsels on prayer, love, melancholy, virtuous living and dying, plus other teachings of the Mother Foundress. This book also has an excellent introduction, chronology, and map of Teresa's foundations and journeys. Five of her brief works, including her poetry, complete ICS Publications' third volume of her Collected Works. Includes general and biblical index.

Child Health Policy in an Age of Fiscal Austerity

Austerity is at the center of political debates today. Its defenders praise it as a panacea that will prepare the ground for future growth and stability. Critics insist it will precipitate a vicious cycle of economic decline, possibly leading to political collapse. But the notion that abstinence from consumption brings benefits to states, societies, or individuals is hardly new. This book puts the debates of our own day in perspective by exploring the long history of austerity—a popular idea that lives on despite a track record of dismal failure. Florian Schui shows that arguments in favor of austerity were—and are today—mainly based on moral and political considerations, rather than on economic analysis. Unexpectedly, it is the critics of austerity who have framed their arguments in the language of economics. Schui finds that austerity has failed intellectually and in economic terms every time it has been attempted. He examines thinkers who have influenced our ideas about abstinence from Aristotle through such modern economic thinkers as Smith, Marx, Veblen, Weber, Hayek, and Keynes, as well as the motives behind specific twentieth-century austerity efforts. The persistence of the concept cannot be explained from an economic perspective, Schui concludes, but only from the persuasive appeal of the moral and political ideas linked to it./div

V.K. Krishna Menon Remembered

"This is indeed true: if the saints and blessed collected here share one overarching characteristic it is to have put their love of God to work for their fellow men and women as they saw fit - through austerity of life, contemplative prayer, or myriad embodiments of what we would now call social work. They are holy examples to us because they lived and died for others, for us."--BOOK JACKET.

Benedictine Monachism

This is a book in search of an alternative to the discredited investor-owned banks that have brought the rich countries into crisis and the world economy into a long period of austerity. It finds customer-owned banks & credit unions, co-operative banks, building societies & have hardly been affected by the crisis and continue to operate according to their organisational

DNA: low-risk, close to the customer, underpinned by real savings, and still lending to SMEs to protect jobs and local economies. They are big business in some countries with over 40% of the market but networked in smaller, democratic societies whose origins go back to 1850s Germany. The book explores their history and current situation, measures the impact of the banking crisis, makes a systematic study of their advantages, compares them to alternatives (savings banks and micro-finance institutions), and investigates their supervision and governance structures. It provides hard evidence for the superiority of customer-owned banks. Finance in an Age of Austerity will appeal to public policy analysts and political commentators, academics and students interested in current issues concerning banking regulation, supervision and governance. Social commentators and campaigners concerned with providing an ethical alternative to 'casino capitalism' and social economists wanting to develop a critique of the investor-owned banking system will also find this book invaluable. It will be essential reading for banking specialists interested in broadening their understanding of a hidden sector that, since the crisis, has become much more significant.

Luxury and Austerity

Will austerity never end? This timely and insightful book argues that austerity seeks to set the terms of political and economic life for the foreseeable future, extending techniques of exclusion to ever-greater sections of the population.

Entrepreneurship and Innovation During Austerity

Lucy Tobin, Personal Finance Editor at the London Evening Standard, shares the secrets to living a high life on a low budget. Bursting with original ideas for saving, spending, stretching and making money, this book is an entertaining and unbeatable guide to living the life you want for less and having fun while you're doing it. Do you want to eat out at the best restaurants without denting the wallet? Looking for ways to make your money go further? Need some more cash but not sure how to earn it? Live the Life you Want for Less has the answers. It's all in an AUSPERITY lifestyle.

Everyday Life in Austerity

This book is about the impact of austerity in and on everyday life, based on a two-year ethnography with families and

communities in 'Argleton', Greater Manchester, UK. Focused on family, friends and intimate relations, and their intersections, the book develops a relational approach to everyday austerity. It reveals how austerity is a deeply personal and social condition, with impacts that spread across and between everyday relationships, spaces and temporal perspectives. It demonstrates how austerity is lived and felt on the ground, with distinctly uneven socio-economic consequences. Furthermore, everyday relationships are subject to change and continuity in times of austerity. Austerity also has lasting impacts on personal and shared experiences, both in terms of day-to-day practices and the lifecourses people imagine themselves living.

Class Inequality in Austerity Britain

When the Coalition Government came to power in 2010 it claimed it would deliver not just austerity, as necessary as that apparently was, but also fairness. This volume subjects this pledge to critical interrogation by exposing the interests behind the policy programme pursued and their damaging effects on class inequalities. Situated within a recognition of the longer-term rise of neoliberal politics, reflections on the status of sociology as a source of critique and current debates over the relationship between the cultural and economic dimensions of social class, the contributors cover an impressively wide range of relevant topics, from education, family policy and community to crime and consumption, shedding new light on the experience of domination in the early 21st Century.

Publisher Description

Butler's Lives of the Saints

A serious call to a devout and holy life, adapted to the state and condition of all orders of Christians

Winner of the 2015 Benjamin Franklin Silver Award! Among primers on meditation, this book is exceptional in how it guides readers who treasure inner growth and are looking for reliable direction on how to achieve it in an authentic and sustainable way. The author, a student of the Indian yogi Paramahansa Yogananda, distills the teachings of many other spiritual traditions and religions, including Christianity, into an interfaith perspective that will appeal to all seekers of the divine. Specific elements include the foundations of spiritual practice; the benefits of energy-building exercises, affirmations, and healthy lifestyle regimens; instructions in mantra practice and inner-sound meditation; techniques for effective prayer; and guidelines to measure inner practice. The book's accessible narrative and universal themes make it enjoyable to read and life enhancing to apply.

Living My Life (Two Volumes in One)

Radical thinker and writer Emma Goldman presents her life story and memories in *Living My Life*, first published in 1931. Originally two volumes, it is published here as a combined edition. From her arrival in New York as a 20-year-old seamstress, when she immediately launched into a life of activism and public agitation, she recalls her childhood in Lithuania, her immigration to the U.S. as a teenager, and her wild adventures as an independent and intelligent woman. An important and influential figure in such far-flung geopolitical events as the Russian Revolution and the Spanish Civil War, Goldman is one of the most storied people of the 20th century. And her story, in her own inimitable words, is one of the great biographies, and one of the great personal histories of a turbulent era. Anarchist and feminist EMMA GOLDMAN (1869-1940) is one of the towering figures in global radicalism of the late 19th and early 20th centuries. Born in Lithuania, she emigrated to the United States as a teenager, was deported in 1919 for her criticism of the U.S. military draft in World War I, and died in Toronto after a globetrotting life. An early advocate of birth control, women's rights, and workers' unions, she was an important and influential figure in such far-flung geopolitical events as the Russian Revolution and the Spanish

Civil War. Among her many books are *My Disillusionment in Russia* (1925) and *Living My Life* (1931).

Finance in an Age of Austerity

Work-Life Balance in Times of Recession, Austerity and Beyond

For the last five years, Britain has been under the hammer of 'Austerity'. In its name, wages have been frozen, benefits have been slashed and public spending squeezed. The pain of a financial crisis caused by bankers and speculators has been borne by ordinary people all over the country – and by the poor and disabled most of all.

The Good Life

Without a uniform dietary code, Christians around the world used food in strikingly different ways, developing widely divergent practices that spread, nurtured, and strengthened their religious beliefs and communities. Featuring never-before published essays, this anthology follows the intersection of food and faith from the fourteenth to the twenty-first century, charting the complex relationship among religious eating habits and politics, culture, and social structure. Theoretically rich and full of engaging portraits, essays consider the rise of food buying and consumerism in the fourteenth century, the Reformation ideology of fasting and its resulting sanctions against sumptuous eating, the gender and racial politics of sacramental food production in colonial America, and the struggle to define "enlightened" Lenten dietary restrictions in early modern France. Essays on the nineteenth century explore the religious implications of wheat growing and breadmaking among New Zealand's Maori population and the revival of the Agape meal, or love feast, among American brethren in Christ Church. Twentieth-century topics include the metaphysical significance of vegetarianism, the function of diet in Greek Orthodoxy, American Christian weight loss programs, and the practice of silent eating rituals among English Benedictine monks. Two introductory essays detail the key themes tying these essays together and survey food's role in developing and disseminating the teachings of Christianity, not to mention providing a tangible experience of faith.
