The Secret Society of Moses

The origin of temples and sacred sites, and how they were founded upon Earth's geomagnetic hotspots by an ancient global race of gods, who created a vast, interconnected network of power places to alter human consciousness. Features the seven principles of energy architecture behind the world's most powerful temples.

Babylon's Banksters (Large Print 16pt)

Every conclusion arrived at as a result of study of the fragments of information available in respect to money and its creators in the world of the Ancient Civilizations, indicates the existence of a far reaching conspiracy in respect to monetary issuance influencing the progression of man's history in the earliest times of which written record exists. It is also outstandingly clear that it was parent to that acknowledged and most obvious conspiracy such as exists today. Hence was able to develop that conspiracy against mankind most exemplified by a continuous propaganda of hate against all authority: in pre-antiquity and antiquity against the many city gods, and in relatively modern times against the kings that rose out of the ruins of that which had been Rome. As those controlling totally the economic life of a state through monetary creation and emission, must have felt that kings and gods were more of a nuisance than anything else, the instigators of this conspiracy in whatever place and era, obviously were those who first did the business of bankers; the controllers of values, and consequently the economic life of the states wherever the precious metal standard was used.

Hidden Finance, Rogue Networks, and Secret Sorcery

The much-anticipated sequel to Joseph P. Farrell's "Babylon's Banksters." The banksters have moved from Mesopotamia to Venice

Agents of Babylon

Pursuing his investigations of WWII machinations, secret international agreements, breakaway civilizations and hidden wars in Antarctica, author and researcher Joseph P. Farrell examines the continuing mystery of Rudolf Hess, his sudden flight to Scotland, his supposed imprisonment at Spandau Prison in Berlin and how his flight affected affairs in Europe, Israel, Antarctica and elsewhere. Farrell looks at Hess' mission to make peace with Britain and get rid of Hitler—even a plot to fly Hitler to Britain for capture! How much did Göring and Hitler know of Rudolf Hess' subversive plot, and what happened to Hess? Why was a doppelganger put in Spandau Prison and then "suicided"? Did the British use an early form of mind control on Hess' double? John Foster Dulles of the OSS and CIA suspected as much. Farrell also uncovers the strange death of Admiral Richard Byrd's son in 1988, about the same time of the death of Hess. What was Hess' connection to Antarctica? It is Farrell at his best—uncovering the special operations and still-secret activities of WWII and the breakaway civilization.

The Giza Death Star

Reader-friendly introduction to energy breakthroughs, their politics and implications.

Anxiety Happens

Prolific author Joseph P. Farrell, who commands a growing and devoted audience on Coast to Coast AM, Erskine Overnight, and other programs, initiates his Feral House association with *The Philosopher's Stone*, in which he demonstrates the connections of modern physics and ancient alchemy by investigating monatomic gold, the work of Russian astrophysicist Nikolai Kozyrev, and the fuel for the mysterious Nazi "Bell" device, Serum 525. Farrell's previous books investigated the scientific and astronomical implications of ancient monuments and the secret space operations of the Nazis who were brought into NASA to continue their highly classified research as a result of "Operation Paperclip." The author is now working with best-selling authors Richard C. Hoagland and Mike Bara on a book about secret American space programs. Chapters within *The Philosopher's Stone* include: The alchemical view of the physical medium Transmutations and time David Hudson's Monatomic Gold The Platinum Group Metals and High Spin State Atoms An Alchemical Examination of the Soviet Red Mercury Legend The Physics of Rotation: Dr. Nikolai Kozyrev H-Bombs and Torsion Physics The Greater German Alchemical Reich Nazis, Lasers, and Isotope Enrichment The Bell and Serum 525

Covert Wars and the Clash of Civilizations

"In the cozy den of the large but modest house in Omaha where he has lived since he started on his first billion, Warren Buffett watched the horrors of Hurricane Katrina unfold on television in early September 2005. . . . On the fourth day, he beheld in disbelief the paralysis of local, state, and federal authorities unable to commence basic operations of rescue and sustenance, not just in New Orleans, but in towns and villages all along the Gulf Coast. . . He knew exactly what he had to do. . ." So begins the vivid fictional account by political activist and bestselling author Ralph Nader that answers the question, "What if?" What if a cadre of

superrich individuals tried to become a driving force in America to organize and institutionalize the interests of the citizens of this troubled nation? What if some of America's most powerful individuals decided it was time to fix our government and return the power to the people? What if they focused their power on unionizing Wal-Mart? What if a national political party were formed with the sole purpose of advancing clean elections? What if these seventeen superrich individuals decided to galvanize a movement for alternative forms of energy that will effectively clean up the environment? What if together they took on corporate goliaths and Congress to provide the necessities of life and advance the solutions so long left on the shelf by an avaricious oligarchy? What could happen? This extraordinary story, written by the author who knows the most about citizen action, returns us to the literature of American social movements—to Edward Bellamy, to Upton Sinclair, to John Steinbeck, to Stephen Crane—reminding us in the process that changing the body politic of America starts with imagination.

The Cosmic War

Frankenstein was first released in 1818 anonymously. The credit for Mary Wollstonecraft Shelley's authorship first occurred in 1823 when a French edition was published. A year earlier, Mary's revolutionary husband, the influential poet, dramatist, novelist, and essayist Percy Bysshe Shelley, died. The same year Frankenstein, or, The Modern Prometheus (its full title) was first published, so was another work by Mary's husband that shares use of the word Prometheus. The drama Prometheus Unbound was indeed credited to Percy Shelley. The secret admission of many experts in English literature is that Mary Wollstonecraft Shelley did not write a good portion of Frankenstein. In Shelley Unbound, Oxford scholar Scott D. de Hart examines the critical information about Percy Shelley's scientific avocations, his disputes against church and state, and his connection to the illegal and infamous anti-Catholic organization, the Illuminati. Scott D. de Hart's fascinating investigation into Frankenstein and the lives of Mary Wollstonecraft and Percy Shelley results in an inconvenient truth regarding what we have long believed to be a great early example of the feminist canon. Scott D. de Hart was born and raised in Southern California. He graduated from Oxford University with a PhD specializing in nineteenth-century English literature and legal controversies.

Time and Money

Jamie Gillis, portrayed in Boogie Nights by Burt Reynolds, created "reality porn." These are transcripts of his films.

Shelley Unbound

Pursuing his investigations of high financial fraud, international banking, hidden systems of finance, black budgets and breakaway civilizations, author and researcher Joseph P. Farrell investigates the theory that there were not two levels to the 9/11 event, but three. He says that the twin towers were downed by the force of an exotic energy weapon, one similar to the Tesla energy weapon suggested by Dr. Judy Wood, and ties together the tangled web of missing money, secret technology and involvement of portions of the Saudi royal family. Farrell

unravels the many layers behind the 9-11 attack, layers that include the Deutschebank, the Bush family, the German industrialist Carl Duisberg, Saudi Arabian princes and the energy weapons developed by Nikola Tesla before WWII. It is Farrell at his best—uncovering the massive financial fraud, special operations and hidden technology of the breakaway civilization.

Thrice Great Hermetica and the Janus Age

In a fascinating, unique and alternative history, author of The Philosophers' Stone Joseph P. Farrell outlines the consistent pattern and strategy of bankers in ancient and modern times, and their desire to suppress the public development of alternative physics and energy technologies. He unravels how financiers usurped the money creating power of the state to substitute a facsimile of money-as-debt. Here, Farrell peels back the layers of deception to reveal the possible deep physics that the 'banksters' have used in their financial policies.

Transhumanism

Farrell examines how the Nazi survivors in South America are using advanced technology to create secret space programs to control the planet Earth. He explains how their use of UFOs has helped create a vast, and almost complete hidden, system of finance within the world which is funding covert operations both on this planet and off. From engineering earthquakes to 9/11, these technologies have had profound repercussions for the world.

Genes, Giants, Monsters, and Men

Here the hidden agenda behind Common Core standards and Federal government surveillance programs aimed at children are revealed.

Nazi International

An underground sensation, Secret and Suppressed confronts the reader with disquieting revelations on mind control, secret societies, media disinformation, cults and elite cabals.

The Divine Blueprint

Can the planets predict economic conditions? In *Time and Money*, best-selling author Robert Gover links the planets to major economic turning points in US history, going back to Columbus. Using planetary patterns that coincide with past economic hard times and social upheavals, Gover reveals why the 2000-teens are going to be the most horrendous decade in US history.

Financial Vipers of Venice

A radical reexamination of Western history that suggests the descendants of Moses were the architects of the rise of the Roman Church and the ancestors of European aristocracy • Answers the inexplicable disappearance of all mention of Moses's descendants from the Bible • Reveals the key role played by Josephus Flavius in shaping early Christianity • Explains the connection of this secret priesthood to modern secret societies like the Freemasons After the book of Exodus, Moses's two sons and numerous descendants all vanish from the Bible. Flavio Barbiero's investigation of this strange absence and his study of the centuries-long power struggle between the priestly families fighting for control of the Temple of Jerusalem starts with the rebellion against Rome--and the emergence of Josephus Flavius, one of Moses's descendants, on the world stage. In AD 70 when the Temple in Jerusalem was destroyed by Titus Flavius and thousands of Jewish priests were exterminated, Josephus, now bearing his sponsor's last name, followed Titus Flavius to Rome with at least 250 relatives and friends. Here they were made Roman citizens but then subsequently disappeared from recorded history. Barbiero's careful study of early Christianity shows, however, that these surviving members of Moses's high-priest lineage succeeded in taking control of the nascent Roman Church and masterminded its extraordinary success. Using a wide range of evidence drawn from fields as disparate as archaeology, heraldry, and genetics, Barbiero shows how these descendants of Moses used the cult of Mithras to eventually seize control of the secular Roman authority as well. He then follows, step by step, the spread of the members of this secret priestly elite into what was to become the aristocracy of medieval Europe and how their influence continues to be felt in modern secret societies like Freemasonry.

Grid of the Gods

The ultimate question is no longer "who am I" or "why am I here." These questions were answered in the earliest civilizations by philosophers and priests. Today we live in an age of such rapid advances in technology and science that the ultimate question must be rephrased: what shall we be? This book investigates what may become of human civilization, who is setting the agenda for a trans-humanistic civilization, and why . The modern Victor Frankenstein holds a high political office, carries diplomatic immunity, and is most likely funded by the largest corporations

worldwide. His method is ancient: alchemy. His fraternities are well known and their secrets are well kept, but his goal of times past and present is the same; he dares to become as god, genetically manipulating the seeds of the earth, the beasts on the fields, and to claim legal ownership over humanity by re-creating it in his own image. This is no fairy tale, science fiction, or conspiracy theory ... it simply is! Transhumanism, a Grimoire of Alchemical Agendas by Dr.'s. Joseph P. Farrell and Scott D. de Hart lifts the veil from the macabre transhumanistic monster being assembled and exposes the hidden history and agenda that has set humanity on a collision course for the Apocalypse. Joseph P. Farrell is the author of the best-selling Genes, Giants, Monsters, and Men: The Surviving Elites of the Cosmic War and Their Hidden Agenda.

Roswell and the Reich

The same occult group of people who have ruled over humanity for thousands of years continue to do so to this day. The New World Order is the one world government of Bible prophecy. There is truth in many of the rumors called conspiracy theories and I've connected the dots on many. Please read the outstanding reviews on Amazon US and Amazon UK

The Third Way

In his #1 New York Times bestseller Agents of the Apocalypse, noted prophecy expert Dr. David Jeremiah explored the book of Revelation through the lens of its major players. Now, in the much-anticipated follow-up, Agents of Babylon, Dr. Jeremiah examines prophecy through the eyes of the characters in the book of Daniel, explains what the prophecies mean, and helps us understand how these prophetic visions and dreams apply to our lives today. Written in the same highly engaging half dramatization, half Bible teaching format as Agents of the Apocalypse, Agents of Babylon is not only an in-depth exploration of the characters and prophecies contained in the book of Daniel but also a dramatic retelling of Scripture that is sure to bring ancient prophecy to light like never before.

Economics After the Crisis

Pursuing his investigations of high financial fraud, international banking, hidden systems of finance, black budgets and breakaway civilizations, author and researcher Joseph P. Farrell continues his examination of the post-war Nazi International, an "extra-territorial state" without borders or capitals, a network of terrorists, drug runners, and people in the very heights of financial power willing to commit financial fraud in amounts totaling trillions of dollars. Breakaway civilizations, black budgets, secret technology, occult rituals, international terrorism, giant corporate cartels, patent law and the hijacking of nature: it's all in this book where Farrell explores what he calls 'the business model' of the post-war Axis elite. It is Farrell at his best—uncovering the gargantuan financial fraud and hidden technology of the breakaway civilization.

Covert Wars and Breakaway Civilizations

Oxford-educated historian Joseph P. Farrell delivers the sequel to his best-selling *Cover Wars and Breakaway Civilization*, part of his book series on suppressed technology, Nazi survival, secret finance and postwar hidden conflicts. His customary meticulous research and sharp analysis blow the lid off of a worldwide web of nefarious financial and technological control that very few people even suspect exists. Farrell continues to delve into the creation of a breakaway civilization by the Nazis in South America and other parts of the world. He elaborates on the advanced technology that they took with them at the "end" of World War II and shows how the breakaway civilization has created a huge system of hidden finance with the involvement various banks and financial institutions around the world. He continues to look into the secret space programs used by the breakaway civilization and the clash of civilizations—a virtual secret war going on around us—and the current space secrecy that involves UFOs, suppressed technologies and the hidden oligarchs who control planet earth for their own gain and profit. Farrell includes plenty of astounding accounts, documents and speculation on the amazing alternative history of hidden conflicts, secret super-finance and technology.

Babylon's Banksters

Part conspiracy theory, part popular science, *Genes, Giants, Monsters and Men* explores the possibility that the history of the human race is not as simple as has been taught in textbooks. Farrell considers how the religious stories that have often been the core basis for mankind's understanding of where it belongs in the history of creation may actually reveal a planet occupied with tyrannical giants and an elite race bent on genetic mutation.

The Philosopher's Stone

In this latest installment of his remarkable series of books of alternative science and history, Joseph P. Farrell outlines the consistent pattern and strategy of bankers in ancient and modern times, and their desire to suppress the public development of alternative physics and energy technologies, usurp the money creating and issuing power of the state, and substitute a facsimile of money-as-debt. Here, Farrell peels back the layers of deception to reveal the possible deep physics that the "banksters" have used to aid them in their financial policies. Feral House also published Farrell's *Philosopher's Stone: Alchemy and the Secret Research for Exotic Matter*.

Genes, Giants, Monsters, and Men

The author offers a hidden history that draws connections between Venice, international banking, the Templars, the "Council of Ten," Venetian voyages to the New World, and the Fourth Crusade.

Financial Vipers of Venice

Already well-known for his bestselling series of exposés on secret Nazi technology and the survival of the Third Reich after the end of World War II, Oxford-

educated historian and physicist Joseph P. Farrell here delves ever deeper into the activities of this nefarious group. In his previous works, Farrell has clearly demonstrated that the Nazis were clandestinely developing new and amazing technologies toward the end of WWII, and that the key scientists involved in these experiments were exported to the Allied countries at the end of the conflict, mainly the United States, in a move called Operation Paperclip. NASA director and developer of the Saturn V rocket that sent Americans to the moon, Werner von Braun, was one of these scientists. Farrell has traced the links between ongoing Reich activities and the newly-formed CIA and other defense/ military/ industrial establishments. Now, Farrell has meticulously reviewed the best-known Roswell research from UFO-ET advocates and skeptics alike, as well as some little-known source material, and comes to a radically different scenario of what happened in Roswell, New Mexico in July 1947, and why the US military has continued to cover it up to this day. Farrell presents a fascinating case sure to disturb both ET believers and disbelievers, namely, that what crashed may have been representative of an independent postwar Nazi power—an extraterritorial Reich monitoring its old enemy, America, and the continuing development of the very technologies confiscated from Germany at the end of the War.

Babylon's Banksters

This is physicist Joseph Farrell's amazing book on the secrets of the Great Pyramid of Giza. Among the topics discussed in detail in this fantastic book are: An Archaeology of Mass Destruction, Thoth and Theories; The Machine Hypothesis; Pythagoras, Plato, Planck, and the Pyramid; The Weapon Hypothesis; Encoded Harmonics of the Planck Units in the Great Pyramid; The Grand Gallery and its Crystals: Gravito-acoustic Resonators; The Other Two Large Pyramids, the 'Causeways', and the 'Temples'. Also: A Phase Conjugate Howitzer Evidence of the Use of Weapons of Mass Destruction in Ancient Times; High Frequency Direct Current 'Impulse' Technology; How the Giza Death Star worked. This book takes off where Christopher Dunn's 'The Giza Power Plant' left off. It is a rollicking ride into the world of fantastic science and an even more fantastic past that is just beginning to be imagined!

Our Occulted History

The modern-day financial crisis and scam is nothing really new reveals master researcher Joseph P. Farrell In Babylon, s Banksters. Banking has been tinkered with and controlled for the past thousand years of human history. See how a seductively simple formula devised by a large and powerful Chinese family led to the "credit default swaps" bust. Read how astrology and a fascination for gemstones played into the banking operations of the super-rich. What are the long-term goals of the most powerful international cabals? In this latest installment of his remarkable series of books of alternative science and history, Joseph P. Farrell outlines the consistent pattern and strategy of bankers in ancient and modern times, their desire to usurp the money creating and issuing power of the state, substituting a facsimile of money-as-debt. Here, Farrell peels back the layers of deception to reveal the possible deep physics that the "banksters" have used to aid them in their financial policies.

Rotten to the (Common) Core

Economics After the Crisis is an introductory economics textbook, covering key topics in micro and macro economics. However, this book differs from other introductory economics textbooks in the perspective it takes, and it incorporates issues that are presently underserved by existing textbooks on the market. This book offers an introduction to economics that takes into account criticisms of the orthodox approach, and which acknowledges the role that this largely Western approach has played in the current global financial and economic crisis. A key feature of the book is its global approach: it offers examples from countries all over the world, including from developing and emerging economies. The chapters discuss all major economic topics, including individuals and households; the behaviour of consumers; the behaviour of firms; markets; the role of the state; public goods and commons; labour markets; capital markets; the macroeconomic flow; economic growth; international trade; nature and environmental externalities; poverty and wellbeing. Throughout, the book presents theoretical perspectives in which social structures, relatedness, uncertainty, and social norms provide key economic explanations, contrasting these with the idealized worldview of neoclassical economics. Economics After the Crisis is designed for a one-semester introductory course in economics, primarily at undergraduate but also at postgraduate level, and is suitable for students from a range of disciplines. It will be of particular relevance to those students with an interest in developing economies. <https://www.coursera.org/learn/economicsfromapluralistperspective>

The Babylonian Woe

"Perhaps Hermeticism has fascinated so many people precisely because it has made it possible to produce many analogies and relationships to various traditions: to Platonism in its many varieties, to Stoicism, to Gnostic ideas, and even to certain Aristotelian doctrines. The Gnostic, the esoteric, the Platonist, or the deist has each been able to find something familiar in the writings. One just had to have a penchant for remote antiquity, for the idea of a Golden Age, in order for Hermeticism, with its aura of an ancient Egyptian revelation, to have enjoyed such outstanding success."—from the Introduction Hermes Trismegistus, "thrice-great Hermes," emerged from the amalgamation of the wisdom gods Hermes and Thoth and is one of the most enigmatic figures of intellectual history. Since antiquity, the legendary "wise Egyptian" has been considered the creator of several mystical and magical writings on such topics as alchemy, astrology, medicine, and the transcendence of God. Philosophers of the Renaissance celebrated Hermes Trismegistus as the founder of philosophy, Freemasons called him their forefather, and Enlightenment thinkers championed religious tolerance in his name. To this day, Hermes Trismegistus is one of the central figures of the occult—his name is synonymous with the esoteric. In this scholarly yet accessible introduction to the history of Hermeticism and its mythical founder, Florian Ebeling provides a concise overview of the Corpus Hermeticum and other writings attributed to Hermes. He traces the impact of Christian and Muslim versions of the figure in medieval Europe, the power of Hermeticism and Paracelsian belief in Renaissance thought, the relationship to Pietism and to Freemasonry in early modern Europe, and the relationship to esotericism and semiotics in the modern world.

The Secret History of Hermes Trismegistus

Hitler's Secret Backers

Bestselling author Jim Marrs steps once again to the cutting-edge of research into conspiracies and hidden truths. In *Our Occulted History*, Marrs goes beyond the revelations of his classic *Alien Agenda* and illustrates how human civilization may have originated with non-humans who visited earth eons ago and may still be here today. *Our Occulted History: Do the Global Elite Conceal Ancient Aliens?* is an extensive survey that includes a mass of well-documented scientific and historical texts and sources. It will change the way you view the origins of mankind and the current state of society. No subject is too controversial for Marrs, an award-winning journalist whose other investigative works include *Crossfire: The Plot That Killed Kennedy*, the basis for the Oliver Stone film *JFK*; *Rule by Secrecy*; and *The Trillion-Dollar Conspiracy*.

Hess and the Penguins

The book you are about to read is one of the most extraordinary historical documents of the 20th century. Where did Hitler get the funds and the backing to achieve power in 1933 Germany? Did these funds come only from prominent German bankers and industrialists or did funds also come from American bankers and industrialists?

"Only the Super-Rich Can Save Us!"

Evidence shows the New Testament texts were not written by simple, non-royal subjects, but instead were created by extremely well-educated, royal Romans. In *Piso Christ*, author Roman Piso, with Jay Gallus, presents a new perspective to show that the creation of Christianity has different origins than previously taught. Through this collection of essays and articles, Piso shows that only a few individuals invented and built the Christian religion, and these same individuals authored the New Testament of the Christian Bible. *Piso Christ* addresses the issues of how these few people wielded that much power and how they were able to succeed. In this new book, Piso contends that the royalty wanted to protect their centuries-old institution of slavery upon which the empire functioned, lived, fed, and gained wealth. The royal people understood that knowledge was power and, therefore, did what they could to keep the masses ignorant and superstitious. Through research, *Piso Christ* shows that the god concept did not originate in what is represented in the Bible. It demonstrates how millions of people are being misled into accepting the concept of a god and how they live in fear of an unnatural belief.

Breakthrough Power

Consider the possibility that the history of the human race is not as simple as what has been taught in classroom textbooks. Consider the possibility that the

evolutionary scientific explanation for mankind has ignored critical facts that are buried deep within the fossils and mankind's DNA. Consider the possibility that the religious stories that have often been the core basis for mankind's understanding of where it belongs in the history of creation may actually reveal a planet occupied with tyrannical giants and an elite highly intelligent race bent on genetic mutation. As horrifying as such possibilities are, *Genes, Giants, Monsters, and Men* sets forth a plausible theory revealing a hidden history of mankind and a possible reason that it has remained veiled for hundreds of thousands of years. With his well-documented style and breathtaking conclusions, Dr. Joseph P. Farrell pulls back the veil and takes the reader on an odyssey behind the mysterious history and myths of the human race. Joseph P. Farrell is a recognized scholar whose credentials include a PhD in philosophy from the University of Oxford. His literary contribution is a veritable resumé unto itself covering such fields as Nazi Germany, sacred literature, physics, finances, the Giza pyramids, and music theory. A renowned researcher with an eye to assimilate a tremendous amount of background material, Farrell is able to condense the best scholastic research in publication and draw insightful new conclusions on complex and controversial subjects.

Piso Christ

There is ample evidence across our solar system of cataclysmic and catastrophic destruction events. The asteroid belt, for example, may be the remains of an exploded planet! The known planets are scarred from incredible impacts, and teeter in their orbits due to causes heretofore inadequately explained. Rejecting the naturalist and materialist assumptions of catastrophism forwarded by other researchers, Farrell asserts that it is time to take the ancient myths of a Cosmic War in the heavens seriously. Incorporating extraterrestrial artifacts, cutting-edge ideas in contemporary physics, and the texts of ancient myths into his argument, Farrell maintains that an ancient interplanetary war was fought in our own solar system with weapons of extraordinary power and sophistication. In doing so, he offers a solution to an enigma that has long mystified researchers, disclosing a cause of that ancient war, the means by which it was waged, and the real nature of the secret technology behind the ancient "Tablets of Destinies." It is all here, folks! The history of the Exploded Planet hypothesis, and what mechanism can actually explode a planet. The role of plasma cosmology, plasma physics (even plasma paleophysics) and scalar physics. The ancient texts telling of such destructions: from Sumeria (Tiamat's destruction by Marduk), Egypt (Edfu and the Mars connections), Greece (Saturn's role in the War of the Titans) and the ancient Americas.

The Secret Life of a Satanist

Physicist and Oxford educated historian Joseph P. Farrell continues his best-selling series of exposés on secret Nazi technology, Nazi survival, and post-war Nazi manipulation of various manufacturing technologies, economies and whole countries. Beginning with pre-War corporate partnerships in the USA, including the Bush family, he moves on to the surrender of Nazi Germany, and evacuation plans of the Germans. He then covers the vast, and still-little-known recreation of Nazi Germany in South America with help of Juan Peron, I.G. Farben and Martin Bormann. Farrell then covers Nazi Germany's Penetration of the Muslim World

including Wilhelm Voss and Otto Skorzeny in Gamel Abdul Nasser's Egypt before moving onto the development and control of New Energy Technologies including the Bariloche Fusion Project, Dr. Philo Farnsworth's Plasmator, and the Work of Dr. Nikolai Kozyrev. Finally, Farrell discusses the Nazi desire to control space, and examines their connection with NASA, the esoteric meaning of NASA Mission Patches, plus final chapters on: Alchemy, Esotericism, The SS and the Unified Field Theory Craze; 1943-1945: Strange Events from the end of World War II and other "Postwar Shenanigans." This book is literally packed with information.
