Blackjack

NEW Second Edition, Published September 14, 2016If there's anything more fun than playing Blackjack, it's winning at Blackjack. In this book you'll learn multiple effective Blackjack strategies that you can take to the casino, and hopefully take to the bank. This is not a book about card counting. It instead focuses on identifying all potential scenarios on a hand-by-hand basis. And while learning to simply play the odds won't totally eclipse the house's advantage, it will bring you within less than a percentage point of being on par with the house. You'll win a lot more often and on some days you may even win big! Oh and if you're already at the casino, in your hotel room just itching to go downstairs and start, not to worry. I've kept this book intentionally short and straightforward, so you can read through it fairly quickly and in one sitting. You'll be at the tables in no time. So if you're ready to put some strategy behind your luck, let's get started! Note: if you're still new to blackjack, I highly recommend first reading my book "How to Play Blackjack" which is a great intro book for beginners: www.amazon.com/dp/B00R1TIWQM/
