The Riddle of the Tsangpo Gorges

THIS EDITION HAS BEEN REPLACED BY A NEWER EDITION
From about 1880 to World War I, sweeping changes in technology and culture created new modes of understanding and experiencing time and space. Stephen Kern writes about the onrush of technics that reshaped life concretely--telephone, electric lighting, steamship, skyscraper, bicycle, cinema, plane, x-ray, machine gun--and the cultural innovations that shattered older forms of art and thought--the stream-of-consciousness novel, psychoanalysis, Cubism, simultaneous poetry, relativity, and the introduction of world standard time. Kern interprets this generation's revolutionized sense of past, present, and future, and of form, distance, and direction. This overview includes such figures as Proust, Joyce, Mann, Wells, Gertrude Stein, Strindberg, Freud, Husserl, Apollinaire, Conrad, Picasso, and Einstein, as well as diverse sources of popular culture drawn from journals, newspapers, and magazines. It also treats new developments in personal and social relations including scientific management, assembly lines, urbanism, imperialism, and trench warfare. While exploring transformed spatial-temporal dimensions, the book focuses on the way new sensibilities subverted traditional values. Kern identifies a broad leveling of cultural hierarchies such as the Cubist breakdown of the conventional distinction between the prominent subject and the framing background, and he argues that these levelings parallel the challenge to aristocratic society, the rise of democracy, and the death of God. This entire reworking of time and

space is shown finally to have influenced the conduct of diplomacy during the crisis of July 1914 and to have structured the Cubist war that followed.

As voters articulate their judgments of the parties and leaders in their fifth democratic election, Election 2014 South Africa: The Campaigns, Results & Future Prospects provides a platform for in-depth discussion and analysis of party campaigns, voting patterns, and election results of the 2014 general elections. Following the tradition of previous volumes that cover South Africa's national and provincial elections since 1994, this book draws on the expertise of renowned authors to cover important aspects of the election, including the major political party campaigns, the media's coverage of the campaigns, the latest trends in political participation and party fortunes, gender dynamics, the black middle class, as well as insights into the voter and public opinion on the eve of the election. Readers are presented with more than a mere study of a single election; they are also presented with a contemporary understanding of electoral politics and democracy in South Africa over two democratic decades and reflections on how elections strengthen the quality and prospects for democracy.

Ultimate Plant Book

This “boys will be boys” novel is the best military comedy since Richard Hooker's MASH. Too many stories have been written about pilots. They fly the planes, drop the bombs and get the girls. All the glory goes to them. But in those stories, who do you think fixes the planes enabling the pilots to fly? The answer is, Crew Chiefs! Crew Chiefs work hard but they also have a bad reputation for playing and partying hard. They like to have fun, nothing gets by them, and everything and everybody is fair game. Follow Kyle Mansfield and his fellow C-5 Crew Chiefs as they take you behind the scenes to one of the Air Force's busiest flightlines. Join the wild and at times unbelievable adventures of the boys while they work, drink, fight, chase women and laugh their way through life both on and off the flightline. Remember the movie Stripes starring Bill Murray? In the movie there was a scene where all the soldiers were sitting around and introducing themselves to each other. When it came around to Bill Murray he said, “Chicks dig me, because I rarely wear underwear and when I do it's usually something unusual. But now I know why I have always lost women to guys like you. I mean, it's not just the uniform. It's the stories that you tell. So much fun and imagination.” This book tells many such stories.
