With warm humor and well-seasoned experience, J. Allen Boone reenters the wonderful world of unspoken communication between humans and animals. He was an explorer into the realm of the unexpected who felt that by underestimating the mental and spiritual qualities of by animals, we miss out on the oneness and wholeness of life. This book salutes the Divinity within all living creatures. In his encounter with "Just Joe," his monkey-companion, Boone struggles to become the pupil, with "Just Joe" a teacher whose wisdom is not measured in words, but in his ability to vibrate with life's unity. These thoughtful tales demonstrate how the author spoke silently with all forms of life, and how he grew to understand their silent replies. Boone never looked down on animals as "lesser creatures; " rather, he looked across at them as companions in the

grand adventure of life. Everything that lives has something of value to share with us - whenever we are ready for the experience.
