The Golf Stats Log Book is an end-of-round journal designed for recording detailed statistics for 40 rounds of golf. These comprehensive, detailed statistics are organized by categories to help you assess what areas of your game you need to work on. In addition to standard stats like fairways hit, greens in regulation, and putts per GIR, many other stats give you a breakdown to help you evaluate your ball striking consistency and accuracy for different types of clubs, which types of putts you are sinking and missing, whether 3-putts are a result of poor lags or poor short putting, how you handle birdie putts compared to par putts, which areas of your short game are strongest and weakest, where you are losing strokes to penalties, and how you can improve your mental toughness to shave strokes off your score. Average your statistics after every 10 rounds and compare your 10-round stats to see how your game changes over time.

So many works of golfing history focus on the greats: the best players, the most prestigious championships, the hardest courses, and the like. But most avid golfers are average players, relishing in the joy of the sport itself. In *Golf's Iron Horse*, celebrated golf writer John Sabino chronicles the previously untold story of Ralph Kennedy, a golf amateur whose love of the game set him on par to play more courses than anyone before. A founding member of Mamaroneck, New York's prestigious Winged Foot Golf Club, Kennedy had long been an avid golfer when he met Charles Leonard Fletcher in 1919. When the Englishman told Kennedy that he had played more than 240 courses in his lifetime, Kennedy took it as a challenge and became determined to play more. In a feat that caused the New York Sun to declare him "golf's Lou Gehrig" in 1935, Kennedy succeeded in beating Fletcher's record, and then some. He played golf on more than 3,165 different courses in all forty-eight states, nine Canadian provinces, and more than a dozen different countries during his forty-three year love affair with the game. In addition to the 3,165 unique courses he played, the unrelenting Ralph also played golf a total of 8,500 times over his lifetime, the equivalent of teeing it up every day for twenty-three straight years. Lou Gehrig's seventeen years in professional baseball pales in comparison. This intriguing story includes details of the special conditions under which he was able to play the Augusta National Golf Club and the unique circumstances of his visits to Pebble Beach and the Old Course at St. Andrews. Perfect for golf aficionados, *Golf's Iron Horse* will inspire every reader to tee off at a new course.

James Dodson always felt closest to his father while they were on the links. So it seemed only appropriate when his father learned he had two months to live that they would set off on the golf journey of their dreams to play the most famous courses in the world. Final Rounds takes us to the historic courses of Royal Lytham and Royal Birkdale, to the windswept undulations of Carnoustie, where Hogan played peerlessly in '53, and the legendary St. Andrews, whose hallowed course reveals something of the eternal secret of the game's mysterious allure over pros and hackers alike. Throughout their poignant journey, the Dodsons humorously reminisce and reaffirm their love for each other, as the younger Dodson finds out what it means to have his father also be his best friend. Final Rounds is a book never to be forgotten, a book about fathers and sons, long-held secrets, and the lessons a middle-aged man can still learn from his dad about life, love, and family. Final Rounds is a tribute to a very special game and the fathers and sons who make it so.

How Champions Think

Golfers dream of playing the legendary courses of the game: St. Andrews, Augusta National, Pinehurst, Pebble Beach. And anyone who has played the royal and ancient sport is an armchair architect at heart. From alterations for their home course to visions of their very own backyard dream course, most golfers would love to test their hands at course design. What makes certain courses timeless? Unlike the venues of other popular recreational sports like tennis and racquetball, whose playing fields are bound by strict measurements that do not vary, each golf course is unique. Offering an endless topographical variety, from short to long, flat or hilly, wet or dry, every course represents a compelling blend of risks versus rewards, with decisions and challenges to test every golfer's game and mental toughness. Combining Geoff Shackelford's informative narrative with detailed illustrations by architect Gil Hanse, *Grounds for Golf* explains the fundamentals of golf course design in an understandable and entertaining style. Modern photographs, anecdotal sidebars, and witty quotations augment a course design primer that will enhance readers' enjoyment of golf's lore while introducing the fundamentals of course design. By explaining the golf course from the ground up, *Grounds for Golf* will not only help readers in their understanding of the game, but will help their games themselves.

Business Process Management and the Balanced Scorecard

In 1956, a casual bet between two millionaires eventually pitted two of the greatest golfers of the era -- Byron Nelson and Ben Hogan -- against top amateurs Harvie Ward and Ken Venturi. The year: 1956. Decades have passed since Eddie Lowery came to fame as the ten-year-old caddie to U.S. Open Champion Francis Ouimet. Now a wealthy car dealer and avid supporter of amateur golf, Lowery has just made a bet with fellow millionaire George Coleman. Lowery claims that two of his employees, amateur golfers Harvie Ward and Ken Venturi, cannot be beaten in a best-ball match, and challenges Coleman to bring any two golfers of his choice to the course at 10 a.m. the next day to settle the issue. Coleman accepts the challenge and shows up with his own power team: Ben Hogan and Byron Nelson, the game's greatest living professionals, with fourteen major championships between them. In Mark Frost's peerless hands, complete with the recollections of all the participants, the story of this immortal foursome and the game they played that day-legendarily known in golf circles as the greatest private match ever played-comes to life with powerful, emotional impact and edge-of-your-seat suspense.

Final Rounds

Every company has a personality. Does yours help or hinder your results? Does it make you fit for growth? Find out by taking the quiz that's helped 50,000 people better understand their organizations at OrgDNA.com and to learn more about Organizational DNA. Just as you can understand an individual's personality, so too can you understand a company's type—what makes it tick, what's good and bad about it. Results explains why some organizations bob and weave and roll with the punches to consistently deliver on commitments and produce great results, while others can't leave their corner of the ring without tripping on their own shoelaces. Gary Neilson and Bruce Pasternack help you identify which of the seven company types you work for—and how to keep what's good and fix what's wrong. You'll feel the shock of recognition (“That's me, that's my company”) as you find out whether your organization is:

- Passive-Aggressive (“everyone agrees, smiles, and nods, but nothing changes”): entrenched underground resistance makes getting anything done like trying to nail Jell-O to the wall
- Fits-and-Starts (“let 1,000 flowers bloom”): filled with smart people pulling in different directions
- Outgrown (“the good old days meet a brave new world”): reacts slowly to market developments, since it's too hard to run new ideas up the flagpole
- Overmanaged (“we're from corporate and we're here to help”): more reporting than working, as managers check on their subordinates' work so they can in turn report to their bosses
- Just-in-Time (“succeeding, but by the skin of our teeth”): can turn on a dime and create real breakthroughs but also tends to burn out its best and brightest
- Military Precision (“flying in formation”): executes brilliant strategies but usually does not deal well with events not in the playbook
- Resilient (“as good as it gets”): flexible, forward-looking, and fun; bounces back when it hits a bump in the road and never, ever rests on its laurels

For anyone who's ever said, “Wow, that's a great idea, but it'll never happen here” or “Whew, we pulled it off again, but I'm tired of all this sprinting,” Results provides robust, practical ideas for becoming and remaining a resilient business. Also available as an eBook From the Hardcover edition.

Golf Log Book

The perfect gift for any golfer looking to elevate their game. The best players know that golf is a game of confidence, and most important, concentration—the ability to focus and block out distraction. The goal of achieving clear thought is also at the heart of Buddhist teachings. In his highly original and groundbreaking book, noted PGA coach and Buddhist instructor, Dr. Joseph Parent, draws on this natural connection and teaches golfers how to clear their minds, achieve ultimate focus,

and play in the moment for each shot. Zen Golf presents a simple system for building “mental game mastery.” Dr Parent’s unique PAR Approach (focusing on Preparation, Action, and Response to Results) guides golfers with specific techniques for each aspect of their games. In chapters such as “How to Get From the Practice Tee to the First Tee”, “You Produce What You Fear”, and “How to Enjoy a Bad Round of Golf”, the author shares a personal teaching regimen that has helped improve the games of professionals and amateurs alike. By combining classic insights and stories from Zen tradition, Zen Golf helps eliminate the mental distractions that routinely cause poor shots and loss of concentration, allowing golfers to feel in “the zone” that professionals have learned to master. Clear, concise, and enlightening, Zen Golf shows golfers how to prepare for, execute, and equally important, respond the results of any golf shot. A different approach to golf instruction, this book shapes ancient philosophies into new teachings.
