Ghost Stories

The book contains stories about human values in our

lives that we have cherished over centuries, and which continue to enrich our lives even today. In the advanced technological age, they retain their importance and balance our personalities. They make society stable and give meaning to our lives. They have particular significance for the growing generation that shapes the world of tomorrow. The stories are fictional, but they relate to life as we live and face every day. They are about love and hatred, compassion and jealousy, self-interest and concern for others – the different facets of life that people experience in the world of emotions. They also talk of the human dilemma between idealism and practical life, of courage in adversity and realisation of dreams and aspirations and the need to reaffirm our faith in the goodness of man and divine justice. They concern especially the young and adolescent mind that is impressionable in the critical age and forms our ethical side of life that helps us avoid the pitfalls of emotional crisis in later life.

Everybody Pays

A “necessary and brilliant” (NPR) exploration of our cultural fascination with true crime told through four “enthraling” (The New York Times Book Review) narratives of obsession. In *Savage Appetites*, Rachel Monroe links four criminal roles—Detective, Victim, Defender, and Killer—to four true stories about women driven by obsession. From a frustrated and brilliant heiress crafting crime-scene dollhouses to a young woman who became part of a Manson victim’s family, from a landscape architect in love with a convicted murderer to a Columbine fangirl who planned her own mass shooting, these women are alternately mesmerizing, horrifying, and sympathetic. A revealing study of women’s complicated relationship with true crime and the fear and desire it can inspire, together these stories provide a window into why many women are drawn to crime narratives—even as they also recoil from them. Monroe uses these four cases to trace the history of American crime through the growth of forensic science, the evolving role of victims, the Satanic Panic, the rise of online detectives, and the long shadow of the Columbine shooting. Combining personal narrative, reportage, and a sociological examination of violence and media in the 20th and 21st centuries, *Savage Appetites* is a “corrective to the genre it interrogates” (The New Statesman), scrupulously exploring empathy, justice, and the persistent appeal of crime.

MacDonald to women of mystery

Previously published in the anthology *Cat O'Nine Tales*, this is the story of a star athlete who has a fateful run-in with a three-hundred pound woman. One of the author's own personal favorites, *In the Eye of the Beholder* is Jeffrey Archer at his best—witty, suspenseful, sad, surprising, and unforgettable.

To Cut a Long Story Short

Who says crime doesn't pay? The perpetrators of a botched kidnap make their getaway in this hilarious sequel to *The Big O*. Karen and Ray are on their way to the Greek islands to rendezvous with Madge and split the fat bag of cash they conned from her ex-husband Rossi when they kidnapped, well, Madge. But they've reckoned without Stephanie Doyle, the cop who can't decide if she wants to arrest Madge, shoot Rossi, or ride off into the sunset with Ray. And then there's Melody, the wannabe movie director, who's pinning all her hopes on Sleeps, the narcoleptic getaway driver who just wants to go back inside and do some soft time. A European road-trip screwball noir, *Crime Always Pays* features cops and robbers, losers and hoppers, villains, saints – and a homicidal Siberian wolf called Anna. The Greek islands will never be the same again.

The Picture of Dorian Gray

Mutiny on the Bounty

Six master assassins—each a legend in the dark corners of international espionage—band together to steal a fortune from the middle of a war zone. But the mission goes tragically wrong, and they retreat into the shadows. Now THE ASSASSINS are back. Former military spy Judd Ryder is walking to his D.C. home when he spots a man coming out of his row house, who looks like Ryder and is wearing his clothes. As Ryder slows to follow, the imposter is killed in a hit-and-run that's no accident. Was the man the intended victim, or was it Ryder himself? Soon Ryder learns that the key to the mysterious events of the past and to his double's murder is an infamous Cold War assassin, the Carnivore. Two of the last people to see the Carnivore were Ryder and CIA trainee Eva Blake, and someone is using them to lure him out. From Washington D.C. to Marrakech and Baghdad, the assassins wage a final battle—this time against one another—fighting for their reputations and Saddam Hussein's long-missing billion-dollar fortune. In the end, only one can be left standing. Caught in the crossfire, Judd and Eva go on the run while desperately unraveling the tangled past and battling not only for their lives, but for their destinies.

A hit man defies the confines of a life sentence to avenge his sister's batterer. An immaculately dressed man hires a street gang to extract his daughter from a Central American prison, for reasons as mysterious as they are deadly. A two-bit graffiti artist with a taste for Nazi-ganda finds himself face-to-face with three punks out to make a mark of their own—literally—with a tattoo needle. From neo-noir master Andrew Vachss comes *Everybody Pays*, 38 white-knuckle rides into a netherworld of pederasts and prostitutes, stick-up kids and fall guys—where private codes of crime and punishment pulsate beneath a surface system of law and order, and our moral compass spins frighteningly out of control. Here is the street-grit prose that has earned Vachss comparisons to Chandler, Cain, and Hammett--and the ingenious plot twists that transform the double-cross into an expression of retribution, the dark deed into a thing of beauty.

The man who revolutionized the way we think about baseball now examines our cultural obsession with murder—delivering a unique, engrossing, brilliant history of tabloid crime in America. Celebrated writer and contrarian Bill James has voraciously read true crime throughout his life and has been interested in

writing a book on the topic for decades. Now, with *Popular Crime*, James takes readers on an epic journey from Lizzie Borden to the Lindbergh baby, from the Black Dahlia to O. J. Simpson, explaining how crimes have been committed, investigated, prosecuted and written about, and how that has profoundly influenced our culture over the last few centuries— even if we haven't always taken notice. Exploring such phenomena as serial murder, the fluctuation of crime rates, the value of evidence, radicalism and crime, prison reform and the hidden ways in which crimes have shaped, or reflected, our society, James chronicles murder and misdeeds from the 1600s to the present day. James pays particular attention to crimes that were sensations during their time but have faded into obscurity, as well as still-famous cases, some that have never been solved, including the Lindbergh kidnapping, the Boston Strangler and JonBenet Ramsey. Satisfyingly sprawling and tremendously entertaining, *Popular Crime* is a professed amateur's powerful examination of the incredible impact crime stories have on our society, culture and history.

"When we are happy, we are always good," says Lord Henry, "but when we are good, we are not always happy." Lord Henry's lazy, clever words lead the young Dorian Grey into a world where it is better to be beautiful than to be good; a world where anything can be forgiven - even murder - if it can make people laugh at a dinner party.

The Golden Age of Big Little Books

No professional is an island. Despite their capacity to monopolize and erect entry barriers in terms of either formal credentials or membership of certain organizations, professionalism is inextricably bound up with collective accomplishments on a day-to-day basis and the capacity to share all the resources that constitute the professional domain of expertise. Knowledge Sharing in Professions looks at professionalism as a form of systematic and institutionalized knowledge sharing. It analyses professionalism through the everyday practices in professional communities and the organizations where they work. Three empirical studies, of pharmaceutical clinical trials researchers, management consultants, and architects, are presented, serving to illustrate the relational nature of these and other professions, and how members of professional communities are constantly exchanging data, information, and know-how in their everyday work. Alexander Styhre seeks to understand the role of professions and other forms of experts in

contemporary society on the basis of complementary perspectives, that is to say, the communal and collegial nature of professional work. This book represents a valuable contribution both to the sociological literature on professions and the business orientated literature on knowledge management and should promote further new research on professionalism.

In this stunning debut collection, Curtis Dawkins, an MFA graduate and convicted murderer serving life

without parole, takes us inside the worlds of prison and prisoners with stories that dazzle with their humor and insight, even as they describe a harsh and barren existence. In Curtis Dawkins's first short story collection, he offers a window into prison life through the eyes of his narrators and their cellmates. Dawkins reveals the idiosyncrasies, tedium, and desperation of long-term incarceration—he describes men who struggle to keep their souls alive despite the challenges they face. In "A Human Number," a man spends his days collect-calling strangers just to hear the sounds of the outside world. In "573543," an inmate recalls his descent into addiction as his prison softball team gears up for an annual tournament against another unit. In "Leche Quemada," an inmate is released and finds freedom more complex and baffling than he expected. Dawkins's stories are funny and sad, filled with unforgettable detail—the barter system based on calligraphy-ink tattoos, handmade cards, and cigarettes; a single dandelion smuggled in from the rec yard; candy made from powdered milk, water, sugar, and hot sauce. His characters are nuanced and sympathetic, despite their obvious flaws. The Graybar Hotel tells moving, human stories about men enduring impossible circumstances. Dawkins takes readers beyond the cells into characters' pasts and memories and desires, into the unusual bonds that form during incarceration and the strained relationships with family members on the outside. He's an extraordinary writer with a knack for metaphor, and this is a powerful compilation of stories that gives voice to the experience of perhaps the most overlooked members of our society.

Oxford Bookworms offer students at all levels the opportunity to extend their reading and appreciation of English. There are six stages, taking students from elementary to advanced level. At the lower stages, many of the texts have been specially written for the series, to provide elementary and lower-intermediate students with an introduction to real reading in English. At the higher stages, most of the books have been adapted from works originally published for native speakers.

WHAT IS THE STORY GRID? The Story Grid is a tool developed by editor Shawn Coyne to analyze stories and provide helpful editorial comments. It's like a CT Scan that takes a photo of the global story and tells the editor or writer what is working, what is not, and what must be done to make what works better and fix

what's not. The Story Grid breaks down the component parts of stories to identify the problems. And finding the problems in a story is almost as difficult as the writing of the story itself (maybe even more difficult). The Story Grid is a tool with many applications: 1. It will tell a writer if a Story ?works? or ?doesn't work. 2. It pinpoints story problems but does not emotionally abuse the writer, revealing exactly where a Story (not the person creating the Story'the Story) has failed. 3. It will tell the writer the specific work necessary to fix that Story's problems. 4. It is a tool to re-envision and resuscitate a seemingly irredeemable pile of paper stuck in an attic drawer. 5. It is a tool that can inspire an original creation.
