Ons almal weet Suid-Afrika het probleme; ons lees daarvan in die koerante, ons sien dit in die strate en 'n magdom mense ondervind dit in hulle daaglikse lewens. Gelukkig kan die gebruik van innovasie en wetenskap 'n groot hoeveelheid van

hierdie probleme oplos. In Innovasie bekyk ons van die uitvindings - deur Suid-Afrikaners in Suid-Afrika ontwikkel - as oplossing vir knelpunte in die gesondheids-, energie-, omgewings- en nywerheidsarene. Sommige van hierdie uitvindings kan lewens red; ander, soos 'n unieke manier om titaan te veredel, kan 'n nuwe era in die nywerheidsindustrie van Suid-Afrika beteken.
