Outline History of the Fine Arts

Most of his young life, Morgan Wentworth has dreamed of becoming a principal dancer in a prestigious corps de ballet. After years studying the art in Milan, Morgan comes home to New York City to apprentice with the Manhattan Ballet Company only to be hit by the unexpected death of his older brother, Jake. The grieving dancer learns his life is threatened by a dangerous rival motorcycle gang and that pierced, tattooed, HOT biker Zeke Ivers has been assigned by Jake's MC to guard him. Saddled with the constant presence of the infuriating man, Morgan juggles the demands of an exhausting dance schedule as well as his new responsibilities as CEO of his family's multi-million-dollar company. He never expects to develop an attraction for the straight, obnoxious biker, but that's exactly what happens. Estranged from an abusive family, Zeke Ivers has lived at the Hedonists' club house and worked on cars since he was a teen. When fellow club member Jake Wentworth and a rival club president's girl are killed on Jake's bike, the Hedonists' president delegates the protection of Jake's little brother, Morgan, to Zeke. Zeke would do anything for the club that pulled him off the streets, but Morgan's a ballet dancer, for Christ's sake, as well as annoying as hell. Still, Zeke finds himself inexplicably drawn to the young man. The more attracted Zeke becomes to Morgan, the more the biker is forced to examine his sexuality and decide whether two people from opposite sides of the tracks could possibly have a future together, or if Zeke should do what is fast becoming too painful to consider: let Morgan go.

A Shade of Vampire 10

Emotional Intelligence was an international phenomenon, appearing on the New York Times bestseller list for over a year and selling more than five million copies worldwide. Now, once again, Daniel Goleman has written a groundbreaking synthesis of the latest findings in biology and brain science, revealing that we are “wired to connect” and the surprisingly deep impact of our relationships on every aspect of our lives. Far more than we are consciously aware, our daily encounters with parents, spouses, bosses, and even strangers shape our brains and affect cells throughout our bodies—down to the level of our genes—for good or ill. In Social Intelligence, Daniel Goleman explores an emerging new science with startling implications for our interpersonal world. Its most fundamental discovery: we are designed for sociability, constantly engaged in a “neural ballet” that connects us brain to brain with those around us. Our reactions to others, and theirs to us, have a far-reaching biological impact, sending out cascades of hormones that regulate everything from our hearts to our immune systems, making good relationships act like vitamins—and bad relationships like poisons. We can “catch” other people’s emotions the way we catch a cold, and the consequences of isolation or relentless social stress can be life-shortening. Goleman explains the surprising accuracy of first impressions, the basis of charisma and emotional power, the complexity of sexual attraction, and how we detect lies. He describes the “dark side” of social intelligence, from narcissism to Machiavellianism and psychopathy. He also reveals our astonishing capacity for “mindsight,” as well as the tragedy of those, like autistic children, whose mindsight is impaired. Is there a way to raise our children to be happy? What is the basis of a nourishing marriage? How can business leaders and teachers inspire the best in those they lead and teach? How can groups divided by prejudice and hatred come to live together in peace? The answers to these questions may not be as elusive as we once thought. And Goleman delivers his most heartening news with powerful conviction: we humans have a built-in bias toward empathy, cooperation, and altruism—provided we develop the social intelligence to nurture these

capacities in ourselves and others.

El predominio o monopolio teórico de la idea de comunicación quizá haya desplazado en la consideración del hecho literario la visión de éste como forma de conocimiento, de invención o hallazgo de la realidad. Reorientada hacia la naturaleza última del acto creador, la poesía aparece en los antípodas de los procesos masivos de comunicación y de la cristalización impositiva de las ideologías o las ortodoxias. Desde esa consideración de lo poético se abordan en la primera parte de LAS PALABRAS DE LA TRIBU algunos problemas típicos del contexto cultural contemporáneo, como el enfrentamiento entre ideología y literatura o entre el discurso institucional y la palabra poética. En otras secciones del presente libro se examina el desarrollo de la tradición española del medio siglo y la significación de ciertas figuras centrales de la poesía europea. José Ángel Valente nació en 1929. Siguió estudios en las Universidades de Santiago de Compostela y Madrid, donde se licenció en Filología Románica. Enseñó algunos años en el Departamento de Español de la Universidad de Oxford, de la que recibió el grado de Master of Arts. Reside desde 1958 en Ginebra. Ha publicado hasta la fecha varios libros de poesía, entre los que figuran los siguientes: A MODO DE ESPERANZA (Premio Adonais. 1954), POEMAS A LAZARO (Premio de la Crítica, 1960), LA

MEMORIA Y LOS SIGNOS (1966) Y EL INOCENTE (1970).

The Ballerino and the Biker

Ambrose Young was beautiful. The kind of beautiful that graced the covers of romance novels, and Fern Taylor would know. She'd been reading them since she was thirteen. But maybe because he was so beautiful he was never someone Fern thought she could have until he wasn't beautiful anymore. Making Faces is the story of a small town where five young men go off to war, and only one comes back. It is the story of loss. Collective loss, individual loss, loss of beauty, loss of life, loss of identity. It is the tale of one girl's love for a broken boy, and a wounded warrior's love for an unremarkable girl. This is a story of friendship that overcomes heartache, heroism that defies the common definitions, and a modern tale of Beauty and the Beast, where we discover that there is a little beauty and a little beast in all of us.
