### **Roaring Recitals**

This text provides a snapshot of issues reflecting the changing nature of translation studies at the beginning of a new millennium. Resulting from discussions between translation theorists from all over the world, topics covered include: the nature of translation; English as a "lingua franca"; public service translation and interpreting; assessment; and audio-visual translation. The first part of the work covers a discussion stimulated by Peter Newmark's paper, and the second part allows invited colleagues to develop his topics.

### **Sheet of Snow**

Novel by V.P. Koirala, Nepali litterateur.

### **In the Kingdom of Men**

The last thirty years of intellectual and artistic creativity in the 20th century have been marked by gender issues. Translation practice, translation theory and translation criticism have also been powerfully affected by the focus on gender. As a result of feminist praxis and criticism and the simultaneous emphasis on culture in translation studies, translation has become an important site for the exploration of the cultural impact of gender and the gender-specific influence of culture. With the dismantling of 'universal' meaning and the struggle for women's visibility in feminist work, and with the interest in translation as a visible factor in cultural exchange, the linking of gender and translation has created fertile ground for explorations of influence in writing, rewriting and reading. Translation and Gender places recent work in translation against the background of the women's movement and its critique of 'patriarchal' language. It explains translation practices derived from experimental feminist writing, the development of openly interventionist translation strategies, the initiative to retranslate fundamental texts such as the Bible, translating as a way of recuperating writings 'lost' in patriarchy, and translation history as a means of focusing on women translators of the past.

### **I Can See You**

Prior to Nepal's constitutional reforms in 1990, poets and fiction writers were often

jailed and censored for speaking out. Nevertheless, they developed ways to discuss social and political issues in their creative works and to express the lives of Nepal's diverse peoples. Nepali authors in *Secret Places* include Shailendra Sakar, Majul, Peter J. Karthak, Kesang Tseten, and Manu Brajaki. The volume also contains an informative interview with Mohan Koirala, one of Nepal's most respected poets, and Samrat's essay *A Kingdom Orphaned* about the effects of the massacre of the royal family on the country and its people.

## **Hitler and the Jews**

Despite his grand 'secular' statements in Parliament that bordered on the Nehruvian, Atal Bihari Vajpayee has often taken brief excursions into the hardline camp. In 1983, he made an incendiary speech during the Assam elections in which the presence of 'Bangladeshi foreigners' in the state was a big issue. Even the BJP had disowned Vajpayee's speech, which possibly inspired the massacre of over 2000 people, mostly Muslims, in Nellie in Assam. Vajpayee, one of the shrewdest politicians of India, is known for negotiating multiple contradictions: from militant nationalism to his secret family life; his stint as a communist; his indulgence in food; influence of Gandhi and Nehru; Narendra Modi and Gujarat issues; foreign policies; and his attempt to project himself as a moderate face, if not liberal, among others. Exploring crucial milestones of Vajpayee's career and his traits as a seasoned politician, the book looks at his relationship with leaders of his party and the love-hate association with RSS and its feeder organizations. Thoroughly researched, supported by hard facts and accompanied by inside stories and anecdotes, insightful interviews and archival photographs, *The Untold Vajpayee* would open a window to the life and times of a poet politician.

While it is often said that a person with a negative attitude cannot be helped, it is also true that a person with a positive attitude cannot be stopped. Life is an obstacle course in which we can often become our own biggest obstacle, but a positive attitude can be transformational. In one sense, this book is a road map for a life journey in achieving more. It offers direction and can help you make positive decisions in a noisy and cluttered environment. Success is neither a miracle nor a mystery. It is the natural outcome of consistently applying certain principles on an ongoing basis. Success does not depend upon special skills, formal education or superior intelligence. Success is a matter of understanding and acting upon

principles that have been in existence for centuries. These principles may be simple in themselves but none of them will work unless they are put into firm and decisive action. This book effectively teaches not only the principles of success but also how to avoid expensive and demoralising mistakes. The principles themselves are universal, cutting across country, culture and religion. Diligently practising them will help you develop confidence and allow your life to become more meaningful and rewarding. Applying these principles may require a lot of self-discipline and commitment but, once learned and applied, the results can be rewarding and gratifying. If you want to be successful and happy, then become a student and study the life of successful people in depth; if you want to become wealthy, then study the principles of acquiring wealth. Learning to make a living and learning to live are two different things. This book helps you design a more meaningful life, by making positive choices and avoiding the most common pitfalls. Acquiring facts is knowledge; interpreting facts is understanding; and the proper application of facts is wisdom. This book by Shiv Khera is designed to help you create an action plan to optimize your potential - in other words, to achieve more.
