## Scootermania

From its origins the Italian battlefields of the Second World War, to movie roles as Audrey Hepburn's transport in Roman Holiday and Sting's stylish companion in Quadrophenia and on through the current vintage revival, the classic Italian motor

scooter is an enduring design classic from the 20th century. Scootermania celebrates the superbly simple vehicles that are so symbolic of freedom, style and the modern world. Originating in the 1940s in Milan and Pontedera, Tuscany, the scooter became an enduring transport choice for young people and urban environments. Early chapters look at scooter racing and long-distance attempts, and their role as an anti-tank weapon in the French army. There is engaging coverage of place of scooters in popular culture from films, music and fashion including the way that a host of disparate groups has made the bikes their own - from the British Mods of the 1960s and 1980s to their role in American and Japanese fashion and in their Italian homeland. The evolution and design of classic models as the Vespa 150 GS and the Lambretta Li 150 Series 3 are covered while scooter stars such as Enrico Piaggio and Georges Monneret are celebrated in their own words. The book also includes a number of specially photographed features on modern scooter designers, collectors and artists.

### **The Economist**

This book is the first comprehensive post-war history of one of Europe's most vibrant cities throughout an extraordinary period of social, cultural and economic change. The capital of Italy's economic miracle of the 1950s and 60s, Milan was a magnet for immigrants, as industry, design and culture created a heady mix

of wealth, innovation and conflict. By the 1980s, heavy industry had all but disappeared and the city had reinvented itself as the world capital of fashion and a dynamic post-industrial metropolis. Meanwhile, the urban landscape was darkened by the bleak estates of the peripheries and the corruption scandals that exploded in what became known as 'Tangentopoli', or Bribesville. This fascinating book traces Milan's 'biography' through its buildings, design, fashion, cinema, families, immigrants and television. The city emerges as a potent economic power-house and laboratory for change, where art and culture converge in a modern but problematic urban space. Anyone interested in Italian history, urban studies or the future of Europe's cities will find this book an essential read.

### **Hellbent for Paradise**

294 pages, 130 black & white illustrations, size 5.5 x 8.5 inches. In 1963, Temple Press UK published a revised and expanded 4th UK edition of 'Tuning for Speed' and, in 1965, they published a reprint of that 1963 edition. Both the 1963 and the 1965 publications are identical in content and contain 294 pages, a significant increase from the previous 208 page 1960 printing. With a total of 294 pages, the revised and expanded 4th UK edition is the most comprehensive of all of the 'Tuning for Speed' editions ever published. Earlier editions only stretched to 208 pages and later editions shrunk to 260 pages (or less) as what was thought to be 'dated information' was deleted from the contents. This

'dated information' is considered valuable today by those enthusiasts interested in vintage motorcycle tuning and modification. Consequently, this makes the revised 4th UK publication the most complete and desirable edition. Therefore, it is our pleasure to offer this reprint of the Floyd Clymer 'Revised 4th UK Edition or Second American Edition of 'Tuning for Speed' to motorcycle enthusiasts worldwide. 'Tuning for Speed' was originally published in 1948 and continuously reprinted and updated in order to keep pace with the constantly evolving range of British motorcycles and engines. While the primary focus of this publication is on 1965 and prior British motorcycles, the theory and engineering it contains is still applicable to the current crop of high revving imports. 'Tuning for Speed' is considered by many knowledgeable motorcycle enthusiasts to be one of the best books ever written on how to improve, modify and fine tune a motorcycle engine and it is often referred to as one of the 'top 10' classic motorcycle books. The Floyd Clymer association with this publication dates back to the early 1960's when he purchased the United States Publishing rights for 'Tuning for Speed' from Temple Press in the UK and, in 1967, Clymer published the 1st American edition of that title. However, by 1967, the Clymer publication had been preceded by 8 printings of the UK edition and was incorrectly identified by Clymer as a 9th edition. In fact, the 1967 Clymer publication is actually a reprint of the less desirable 208 page 1960 UK edition. However, in 1963, the 4th UK edition was revised and expanded to 294 pages (with a second identical re-print in 1965). Therefore, this 2nd American edition of the Floyd Clymer publication of

'Tuning for Speed' includes all of that valuable 'dated information' that was deleted from the later editions and is identical in all respects to the 294 page 1963/1965 revised and expanded 4th UK edition - with the exception that 7 pages of UK-based advertising to the rear of the book are not included in the Clymer publication.

## **Your Next Five Moves**

What does Doing the Impossible really mean? This book is for those who have a desire to achieve greatness and are ready to take the steps to turn that desire into a reality. At one point or another in this book, you will experience several different reactions -

excitement, curiosity, joy, laughter, or even tears - but the ultimate goal is to encourage and challenge you to make a decision to do the impossible. That may have a totally different meaning to you than it did to Steve Jobs, Thomas Edison, or any of the other role models we will look at; but whatever Doing the Impossible means to you, the goal of this book is to help you realize that you have the capacity to do what the critics think is impossible. - Patrick Bet-David, Introduction to Doing the Impossible. Doing the Impossible is a roadmap for those who want to do something big with their lives. The book goes over 25 steps that the reader should take to re-create themselves, identify their cause, and make history. Patrick Bet-David shares his own impossible crusade and gives key principles for anyone looking to do the same.

### **Revolutionary Ride**

In 2011, at the height of tension between the British and Iranian governments, travel writer Lois Pryce found a note left on her motorcycle outside the Iranian Embassy in London: I wish that you will visit Iran so you will see for yourself about my country. WE ARE NOT TERRORISTS!!! Please come to my city, Shiraz. It is very famous as the friendliest city in Iran, it is the city of poetry and gardens and wine!!! Your Persian friend, Habib Intrigued, Lois decides to ignore the official warnings against travel (and the warnings of her friends and family) and sets off alone on a 3,000 mile ride from Tabriz to Shiraz, to try to uncover the heart of this most complex and

incongruous country. Along the way, she meets carpet sellers and drug addicts, war veterans and housewives, doctors and teachers - people living ordinary lives under the rule of an extraordinarily strict Islamic government. Revolutionary Ride is the story of a people and a country. Religious and hedonistic, practical and poetic, modern and rooted in tradition - and with a wild sense of humour and appreciation of beauty despite the comparative lack of freedom - this is real contemporary Iran.

In October 1942, with the sanction of the army, Vladimir Peniakoff (nicknamed Popski) formed his own elite fighting force. A bestseller when it was first published in 1950, **POPSKI'S PRIVATE ARMY** is a classic account of the war in the desert, and later in Italy, as seen through the eyes of a maverick soldier, hailed as the Second World War's answer to T.E. Lawrence.

Urban Wildscapes is one of the first edited collections of writings about urban 'wilderness' landscapes. Evolved, rather than designed or planned, these derelict, abandoned and marginal spaces are frequently overgrown with vegetation and host to a wide range of human activities. They include former industrial sites, landfill, allotments, cemeteries, woods, infrastructural corridors, vacant lots and a whole array of urban wastelands at a variety of different scales. Frequently maligned in the media, these landscapes have recently been re-evaluated and this collection assembles these fresh perspectives in one volume. Combining theory with illustrated examples and case studies, the book demonstrates that urban wildscapes have far greater significance, meaning and utility than is commonly thought, and that an appreciation of their particular qualities can inform a far more sustainable approach to the

planning, design and management of the wider urban landscape. The wildscapes under investigation in this book are found in diverse locations throughout the UK, Europe, China and the US. They vary in scale from small sites to entire cities or regions, and from discrete locations to the imaginary wildscapes of children's literature. Many different themes are addressed including the natural history of wildscapes, their significance as a location for all kinds of playful activity, the wildscape as 'commons' and the implications for landscape architectural practice, ranging from planting interventions in wildscapes to the design of the urban public realm on wildscape principles.

In 1952, BSA wanted to publicise their new 500cc Star Twin. So what better way than to set the bike a nearly impossible task? They took three standard bikes and, under Auto-Cycle Union observation, rode them to Austria, and entered the 1952 International Six Days Trial. After winning three golds the same bikes then rode to Norway, where they undertook a speed test knocking up over 80mph whilst on low gearing - and all this in just over three weeks and mostly in unrelenting rain! This dramatic and compelling story of the 'golden age' of British bikes is told by Norman Vanhouse, one of the three riders involved.

When Chris Zane bought his bicycle shop at age 16, his business struggled until he discovered the secret that catapulted his store into one of the largest in the

country. His secret? Provide unbelievable, over the top, excessively generous customer service. Chris Zane isn't a management consultant or professor preaching a theory of customer service; he's a hands-on entrepreneur whose customer service approach has yielded enormous success. Zane has become a business celebrity, including being featured in the most recent round of American Express television ads. Featured in the New York Times and in Associated Press articles and bestowed numerous awards for its unique business practices and outstanding customer relations, Zane's Cycles has produced ideas thought by many to be pie-in-the-sky. But these counterintuitive concepts have proven to be hard-headed and effective. For example, Zane's offers a trade-in program for families who can turn in bicycles their kids have outgrown for a 100 percent credit toward new ones. Initially thought impossibly generous, this program has proven to be good business. Experience and a clear understanding of the lifetime value of a customer makes this program, and many others Zane's implements, work. In Reinventing the Wheel, commonly overlooked elements that make a business exceptional are revealed. Zane produces a case study unlike any other—one that shows the importance of investing in customers and employees and how businesses are really selling experiences, not products. His philosophies and tried-and-true methods of guerilla marketing will show entrepreneurs and business owners how to knock out the competition while thriving in any kind of economy and doing good for the community along the way.
