How to Repair Your Car

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Living the RV Life

Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert, George Sand, Robyn Davidson, and Sara Wheeler.

The Railway Magazine

What do Henry Ford, Thomas Edison, Mae West, Howard Hughes, John Madden, the Partridge Family, Ken Kesey, The Who, and Barbie have in common? Each had a home on wheels—be it an old converted school bus, a massive RV cruiser, or elegant house car. These celebrity motorhomes are only the frosting on the cake in Douglas Keister's entertaining and informative new book *Mobile Mansions*.

The Best of Grand Teton National Park

Riding High is packed with untold episodes from the Jupiter journey of Ted Simon's book *Jupiter's Travels*: his confrontations with a murderous military in Chile, his farcical arrest in India, bizarre customs in Thailand and Malaysia, his hilarious entanglements with a bottle of bad Dubonnet in Ecuador, and many more. Simon contrasts them with the touching and turbulent events that followed his return to domesticity, and explains what became of him in 'life after travel.'

Surprised at Being Alive

When falling in love, every couple hopes for 'happily ever after,' yet few achieve it. Only a small percentage of couples on their twentieth or fiftieth anniversary use the word 'romantic' to describe their relationships. Even with true love and good intentions, it takes more to keep the spark alive. This book provides the spark. Zalmanek draws from clients' stories, her workshops, and her own thirty-year marriage to illustrate these habits. Exercises help couples discover their Romance Profile and plan adventures. The habits include: 1. Build a Foundation for Adventures 2. Follow Your Own Romantic Bliss 3. Do Something Outrageous 4. Accommodate Your Beloved's Surprise Tolerance 5. Transform the Ordinary into the Extraordinary 6. Invite People to Help 7. Make an Adventure of Presenting Your Gift 8. Prolong Special Occasions 9. Practice Your Own Romantic Traditions 10. Enjoy the Bumps on The Road to Adventure 11. Cherish Intimacy 12. Make Romance a Way of Life Other experts have written about the work it takes to make relationships successful. Zalmanek shows how

romance makes them fun.

Intelligent Vehicle Technologies

From Motorbooks, the leader in automotive publishing for over 4 decades, comes the most practical car care guide ever produced to help the average car owner maintain and repair his or her vehicle - How to Repair Your Car. In this easy-to-follow guide, author Paul Brand, a nationally known automotive expert, takes you through the steps of auto maintenance and repair—simple steps that could add years to a car's life and save a driver thousands of dollars in repairs. This is also the

only car maintenance and repair guide on the market to contain 50 do-it-yourself projects in full-color, step-by-step instructions that are easy to follow and understand. Focusing on post-1985 cars (with occasional explanations about earlier models), Brand introduces readers to the rudiments of automotive systems—from electrical, fuel, and cooling to drivetrain, suspension, tires, brakes, and exhaust—and discusses problems that arise in each system. The book includes practical advice for readers with only a passing knowledge of cars, as well as the basics of caring for a car's exterior and interior. How to Repair Your Car is a must-have for any car owner who wants to extend the life of his or her car, learn how to perform car maintenance or repair instead of paying a mechanic, diagnose simple noises and knocks, as well as learn tips for knowing exactly what they're paying for when their car goes to the shop.

The Art of the Spark

Sometimes you do everything right, but it just isn't your day. A part fails and your helicopter comes apart in flight, or, another aircraft runs into you and the pieces of both fall to the ground below, or the enemy gunner pulls the trigger at just the right moment and his rounds find your aircraft in exactly the right spot to take it out of the sky. Whichever way it happens, it wasn't your day. Which is why, after 24 years and over 5,000 flight hours with four armed services, Major Robert Curtis was so surprised at being alive when he passed his retirement physical. Starting with enlisting in the Army to fly helicopters during Vietnam, and continuing on through service with the National Guard, Marine Corps and Royal Navy, he flew eight different helicopters—from the wooden-bladed OH-13E, through the Chinook, SeaKnight and SeaKing, in war and peace around the world. During that time over 50 of his friends died in crashes, both in combat and in accidents, but somehow his skill, and not an inconsiderable amount of luck and superstition, saw him through. His flying career began with a misbegotten strategy for beating the draft by enlisting. With the Vietnam War raging full blast in 1968 the draft was inevitable, so he wanted to at least get some small measure of control of his future. Although he had no thought of flying when he walked into the recruiting office, he walked out signed up to be a helicopter pilot. What he did not know was that 43% of all the aircraft sent to Vietnam were destroyed in combat or accidents. Soon he was in the thick of the war, flying Chinooks with the 101st Airborne. After Vietnam he left the Army, but kept flying in the National Guard while going to college. He was accepted at two law schools, but flying is addictive, so he instead enlisted in the USMC to fly some more. Over the next 17 years he would fly around the world off US and British ships from Egypt to Norway and all points in between. His engaging story will be a delight to all aviation enthusiasts.

Automotive Electrical Manual

As a leading Confederate general, Braxton Bragg (1817–1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South's military

failures but also as the chief whipping boy of the Confederacy. The strongly negative opinions of Bragg's contemporaries have continued to color assessments of the general's military career and character by generations of historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army--including Bragg's superiors, his fellow generals, and his subordinates--reveal how the general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history.
