The Essentials of GCSE OCR Science for Specification B

These new resources have been written to match the 2016 OCR GCSE Gateway Science (9-1) specifications. Built-in assessment and differentiation supports students of all abilities and makes progress tracking easy. Maths skills and practical skills are developed throughout with ramped practice questions and differentiated learning outcomes.

OCR(B) AS Chemistry (Salters) Student Unit Guide: Unit F332 Chemistry of Natural Resources

Written by examiners and practising teachers, each book in this series contains activities and useful features intended to aid understanding. Knowledge is tested throughout, with progress checks at the end of every chapter and practice questions at the end of each section.

GCSE Chemistry Higher for OCR B

This series builds on the Nelson Science and Nelson Balanced Science series. It was developed for those studying for a Double or Triple Award at GCSE. It includes coverage of all the major GCSE science specifications, a range of case studies and other materials to further develop ideas and evidence in science and a range of questions including actual examination questions.

Biology, Chemistry, Physics

COLOURED EDITION! Tired of writing your own revision notes? Unsure what to put in and what to leave out? Use professional ones! These condensed revision notes (flashcards) are designed to facilitate memorization. They have been created by a very experienced, professional Chemistry tutor. Dr C. Boes has successfully taught over sixty A-level students in the last ten years. Many of these have achieved excellent grades in their exams and went on to study medicine. These notes contain all the necessary exam knowledge in a short, easy to memorize form. Each page covers the key facts, such as definitions or equations, of a single topic, without the distraction of unnecessary information. Knowing them by heart makes it easy to get top grades. Tried, tested and proven by past tuition students, they are an effective and successful tool to ace your exams. They have been adapted to the new OCR A Chemistry A-level Year 1 & AS syllabus (from Sept 15). This book is organized in chapters according to the syllabus and allows natural progression in sync with your school work. Created with great care, it includes important information specific to exam questions. This small book will save you hours of painstaking note writing. It is less messy than loose paper sheets and easy to carry around. Memorize on the bus or while you wait. Try it now!

Gcse Biology Stugy Guide

These new resources have been written to match the 2016 OCR GCSE Gateway Science (9-1) specifications. Built-in assessment and differentiation supports students of all abilities and makes progress tracking easy. Maths skills and practical skills are developed throughout with ramped practice questions and differentiated learning outcomes.

A-level Chemistry Condensed Revision Notes Aqa Year 1 & As 2015

Written by the University of York project team for Salters Advanced Chemistry, this Student Book supports and extends students through the new linear course while delivering the breadth, depth, and skills needed to succeed in the new A Levels and beyond. It develops true subject knowledge while also developing essential exam skills. The fourth edition combines the Chemical Storyline and Chemical Ideas into a single, integrated volume for the first time, providing ideal support for the new specification.

Chemical Storylines

OCR Gateway Chemistry for GCSE Combined Science

Twenty First Century Science: GCSE Biology Teacher Handbook

This guide covers all the exam-assessed content on the OCR Gateway Chemistry specification. It is designed to help students get the most out of their revision. Information is broken down into manageable chunks and higher tier material is clearly differentiated on the page.

OCR Gateway Science

Explore, create, evaluate: help your students to develop an understanding of the iterative design process and to be critical and innovative designers, while developing the knowledge and skills they need for the 2017 OCR GCSE D&T specification. Confidently navigate both the core and in-depth principles of design and technology, including less familiar materials and system components, to ensure your students have the knowledge and understanding they need. · Builds a toolkit of knowledge, understanding and design development skills for the chosen materials or systems, with dedicated chapters covering each of the main categories of materials · Develops mathematical and scientific skills with practice questions that apply this learning in context · Supports the Non-Exam Assessment with guidance on how to approach the Iterative Design Challenge, which includes imaginative and creative examples of student projects to inspire and engage · Helps students to prepare for the written assessment with practice questions covering both the 'core' and 'in-depth' content

GCSE Information and Communication Technology for OCR Specification B

This Success Revision Guide offers accessible content to help students manage their revision and prepare for the exam efficiently. The content is broken into manageable sections and advice is offered to help build students' confidence. Exam tips and techniques are provided to support students throughout the revision process.

GCSE Chemistry Foundation for OCR B.

GCSE OCR Additional Science Higher Success Workbook

The Chemical Storylines book is the heart of the course. It conveys the purpose and drama of chemistry by presenting it attractively in the context of its practical applications, its history and its present research frontiers.

GCSE OCR Additional Science Foundation Success Workbook

These new resources have been written to match the 2016 OCR GCSE Gateway Science (9-1) specifications. Built-in assessment and differentiation supports students of all abilities and makes progress tracking easy. Maths skills and practical skills are developed throughout with ramped practice questions and differentiated learning outcomes.

OCR GCSE (9-1) Drama

This is an all-in-one revision guide and exam practice workbook for Key Stage 4. Written by experienced test markers, it shows how each student can follow their level, test their knowledge, check their answers and improve.

OCR Gateway GCSE Biology Student Book

This text engages every student and stimulates their interest in science. It provides a simple and clear approach to all resources available, with all the help and support you need to teach the new specifications with ease and make the transition as smooth as possible.

Chemistry

This Success Revision Guide offers accessible content to help students manage their revision and prepare for the exam efficiently. The content is broken into manageable sections and advice is offered to help build students' confidence. Exam

tips and techniques are provided to support students throughout the revision process.

OCR Gateway GCSE Physics Student Book

Written by examiners and practising teachers, this work offers study and homework support throughout GCSE. It is useful as a reference source, a lesson back-up and as a revision guide.

OCR Gateway Gcse Chemistry

OCR Gateway GCSE Biology

Student Unit Guides are perfect for revision. Each guide is written by an examiner and explains the unit requirements, summarises the relevant unit content and includes a series of specimen questions and answers. There are three sections to each guide: Introduction - includes advice on how to use the guide, an explanation of the skills being tested by the assessment objectives, an outline of the unit or module and, depending on the unit, suggestions for how to revise effectively and prepare for the examination questions. Content Guidance - provides an examiner's overview of the module's key terms and concepts and identifies opportunities to exhibit the skills required by the unit. It is designed to help students to structure their revision and make them aware of the concepts they need to understand the exam and how they might analyse and evaluate topics. Question and Answers - sample questions and with graded answers which have been carefully written to reflect the style of the unit. All responses are accompanied by commentaries which highlight their respective strengths and weaknesses, giving students an insight into the mind of the examiner.
