And Then There Were None

Miles discusses his life and music from playing trumpet in high school to the new instruments and sounds from the Caribbean.

Psychometric Testing

We survived The Beast from 20,000 Fathoms. Then came THEM!, It Came From Beneath the Sea, and The Deadly Mantis. They were merely practice runs. Now prepare for ATTACK! of the B-Movie Monsters: Night of the Gigantis Rampaging Rodents! Terrifying Tentacles! Bone-Crushing Claws! Scientific experiments gone dreadfully wrong!

Jubilee

The middle classes of Indonesia's provincial towns are not particularly rich yet nationally influential. This book examines them ethnographically. Rather than a market-friendly, liberal middle class, it finds a conservative petty bourgeoisie just out of poverty and skilled at politics. Please note that Sylvia Tidey's article (pp. 89-110) will only be available in the print edition of this book (9789004263000).

Attack! of the B-Movie Monsters

Stand by for action, we're about to launch into a world where anything can happen! Discover the iconic comic strips that captured the thrill and excitement of Gerry Anderson's cult 21st century TV series. With original comic artwork from Thunderbirds, Stingray, Captain Scarlet, Joe 90, Zero X, Fireball XL5, Lady Penelope, Angels and Marina, this exciting collection is perfect for Gerry Anderson Supermarionation fans everywhere.

The Idea Factory

Ten people find themselves stranded in the lonely house on Indian Island when their supposed hosts send word that they have been detained. A mysterious voice, afterwards discovered to come from a gramophone record, indicts each one of them -- the eight guests and the two servants -- of murder. It transpires that no-one has met their hosts and that they have evidently been decoyed to the island. First one and then another dies; each death according to the rhyme of "Ten little Indians," and with each death one of the little china figurines on the mantelpiece is found broken. The tension grows as they realize that the killer is, in fact, one of themselves. Eventually only two little Indians are left; the real killer appears (his death having been feigned) and the remaining two are able to outwit him--Publisher's description.

The Dorama Encyclopedia

Screen World, volume 34, features outstanding films and performers as the Academy Awards' Best Picture "Gandhi" with Best Actor Ben Kingsley, "Sophie's Choice" with Best Actress Meryl Streep, "Tootsie" with Dustin Hoffman and Jessica Lange, Steven Spielberg's "E.T. : the Extraterrestrial", "My Favorite Year" with Peter O'Toole, "The Verdict" with Paul Newman, "Missing" with Jack Lemmon, "Rocky III" with Sylvester Stallone, "Victor/Victoria" with Julia Andrews, "Diner" and notable foreign films such as "The Road Warrior" with Mel Gibson. Also has pictorial and statistical record of the 1982 movie season.

The Pioneers

The complete laser disc catalog; movies, music and special interest including karaoke and animation.

Sight and Sound Film Review Volume

We organize things. We organize information, information about things, and information about information. Organizing is a fundamental issue in many professional fields, but these fields have only limited agreement in how they approach problems of organizing and in what they seek as their solutions. The Discipline of Organizing synthesizes insights from library science, information science, computer science, cognitive science, systems analysis, business, and other disciplines to create an Organizing System for understanding organizing. This framework is robust and forward-looking, enabling effective sharing of insights and design patterns between disciplines that weren't possible before. The 4th edition of this award-winning and widely adopted text adds content to bridge between the foundations of organizing systems and the new statistical and computational techniques of data science because at its core, data science is about how resources are described and organized. The 4th edition reframes descriptive statistics as organizing techniques, expands the treatment of classification to include computational methods, and incorporates many new examples of data-driven resource selection, organization, maintenance, and personalization. The Informatics edition contains all the new content related to data science, but omits the discipline-specific content about library science, museums, and document archives.

Laser Video Guide

“this happened on December 30, 2003. That may seem a while ago but it won’t when it happens to you . . .” In this dramatic adaptation of her award-winning, bestselling memoir (which Michiko Kakutani in The New York Times called “an indelible portrait of loss and grief . . . a haunting portrait of a four-decade-long marriage), Joan Didion transforms the story of the sudden and unexpected loss of her husband and their only daughter into a stunning and powerful one-woman play. The first theatrical production of The Year of Magical Thinking opened at the Booth Theatre on March 29, 2007, starring Vanessa Redgrave and directed by David Hare. From the Trade Paperback edition.

VideoHound's Golden Movie Retriever

Hurrah! The deadly Daleks are back! Yes, those loveable tinpot tyrants have another plan to invade our world. Maybe this time because they want to drill to the Earth’s core. Or maybe because they just feel like it. And when those pesky pepperpots are in town, there is one thing you can be sure of. There will be non-stop high octane mayhem in store. And plenty of exterminations! But never fear. The Doctor is on hand to sort them out. Defender of the Earth, saviour of us all. With his beautiful assistant, Evelyn Smythe, by his side, he will fight once again to uphold the beliefs of the English Empire. All hail the glorious English Empire!

The Structuring of Organizations

When a supertanker crashes off the shores of San Francisco, the multinational oil company releases an untested virus designed to break up the oil, but the wind carries the virus onto the mainland, where it destroys everything made of petroleum, gas in cars, plastic, nylon, and more. Reissue.

Vampirella must stop the blood-red Queen of Hearts.

Executive Functions and the Frontal Lobes

Which is more dangerous, a gun or a swimming pool? What do schoolteachers and sumo wrestlers have in common? How much do parents really matter? These may not sound like typical questions for an economist to ask. But Steven D. Levitt is not a typical economist. He studies the riddles of everyday life--from cheating and crime to parenting and sports--and reaches conclusions that turn conventional wisdom on its head. Freakonomics is a groundbreaking collaboration between Levitt and Stephen J. Dubner, an award-winning author and journalist. They set out to explore the inner workings of a crack gang, the truth about real estate agents, the secrets of the Ku Klux Klan, and much more. Through forceful storytelling and wry insight, they show that economics is, at root, the study of incentives--how people get what they want or need, especially when other people want or need the same thing.

Final Accounting

This book offers an examination of the strengths and limitations psychometric testing, with coverage of diverse methods of test development and application. It explores a variety of topics related to the field, including test construction, use and applications in human resources and training, assessment and verification of training courses, and consulting and includes applications for clinical psychology, performance psychology, and sport and exercise psychology across a range of professions (research, teaching, coaching, consulting, and advising).

Presentation Zen

This volume has as its primary aim the examination of issues concerning executive function and frontal lobe development. While many texts have addressed these issues, this is the first to do so within a specifically developmental framework. This area of cognitive function has received increasing attention over the past decade, and it is now established that the frontal lobes, and associated executive functions, are critical for efficient functioning in daily life. It is also clear, and of particular relevance to this text, that these functions develop gradually through childhood, and then deteriorate during old age. These developmental trajectories, and the impact of any interruption to them, are the focus of this volume.

Time Out Film Guide

The #1 New York Times bestseller by Pulitzer Prize-winning historian David McCullough rediscovers an important chapter in the American story that's "as resonant today as ever" (The Wall Street Journal)—the settling of the Northwest Territory by courageous pioneers who overcame incredible hardships to build a community based on ideals that would define our country. As part of the Treaty of Paris, in which Great Britain recognized the new United States of America, Britain ceded the land that comprised the immense Northwest Territory, a wilderness empire northwest of the Ohio River containing the future states of Ohio, Indiana, Illinois, Michigan, and Wisconsin. A Massachusetts minister named Manasseh Cutler was instrumental in opening this vast territory to veterans of the Revolutionary War and their families for settlement. Included in the Northwest Ordinance were three remarkable conditions: freedom of religion, free universal education, and most importantly, the prohibition of slavery. In 1788 the first band of pioneers set out from New England for the Northwest Territory under the leadership of Revolutionary War veteran General Rufus Putnam. They settled in what is now Marietta on the banks of the Ohio River. McCullough tells the story through five major characters: Cutler and Putnam; Cutler's son Ephraim; and two other men, one a carpenter turned architect, and the other a physician who became a prominent pioneer in American science. "With clarity and incisiveness, [McCullough] details the experience of a brave and broad-minded band of people who crossed raging rivers, chopped down forests, plowed miles of land, suffered incalculable hardships, and braved a lonely frontier to forge a new American ideal" (The Providence Journal). Drawn in great part from a rare and all-but-unknown collection of diaries and letters by the key figures, *The Pioneers* is a uniquely American story of people whose ambition and courage led them to remarkable

accomplishments. "A tale of uplift" (The New York Times Book Review), this is a quintessentially American story, written with David McCullough's signature narrative energy.

Thunderbirds Agents' Technical Manual - 50th Anniversary Edition

"I'm BroganLieutenant Brogan. For fifteen years I worked for the NYPDNow I'm a Space Cop."After 15 years as a New York street cop, Lt. Chuck Brogan is appointed commanding officer of Space Police Precinct 44, an intergalactic police corps fighting organised crime on alien worlds. But in the famous "Mr Big's Secret Hideout" nightclub, V. Lann and E. Vile are plotting the demise of the President. Brogan and his team only have a limited time to foil the terrorists' plot and save the President's life.In the mid-1980's Gerry Anderson - the man behind cult classics like Fireball XL5, Thunderbirds, Space:1999 - came up with a concept for an exciting new television series. Together with long-time collaborator Tony Barwick, Gerry wrote and shot the pilot story for Space Police. Once the pilot was complete it would take nearly 10 years to secure the funding to make the series which was eventually renamed Space Precinct. Now, for the first time, the original screenplay of this untransmitted pilot film is available for Gerry Anderson fans worldwide to enjoy!

The 50 Greatest Cartoons

Deeply connected to Japanese anime, manga, music, and film is . . . Japanese TV. This encyclopedic survey of the next cultural tsunami to hit America has over one thousand entries—including production data, synopses, and commentaries—on everything from rubber-monster shows to samurai drama, from crime to horror, unlocking an entire culture's pop history as never before. Over one hundred fifty of these shows have been broadcast on American TV, and more will follow, perhaps even such oddball fare as a Japanese "The Practice" and "Geisha Detective." Indexed, with resources for fans, couch potatoes, and researchers. Jonathan Clements is contributing editor to Newtype USA Magazine and coauthor of The Anime Encyclopedia. Motoko Tamamuro is an art historian and contributor to

Manga Max.

Space Police

Reports on a new generation of Internet controls that establish a new normative terrain in which surveillance and censorship are routine. Internet filtering, censorship of Web content, and online surveillance are increasing in scale, scope, and sophistication around the world, in democratic countries as well as in authoritarian states. The first generation of Internet controls consisted largely of building firewalls at key Internet gateways; China's famous "Great Firewall of China" is one of the first national Internet filtering systems. Today the new tools for Internet controls that are emerging go beyond mere denial of information. These new techniques, which aim to normalize (or even legalize) Internet control, include targeted viruses and the strategically timed deployment of distributed denial-of-service (DDoS) attacks, surveillance at key points of the Internet's infrastructure, take-down notices, stringent terms of usage policies, and national information shaping strategies. Access Controlled reports on this new normative terrain. The book, a project from the OpenNet Initiative (ONI), a collaboration of the Citizen Lab at the University of Toronto's Munk Centre for International Studies, Harvard's Berkman Center for Internet and Society, and the SecDev Group, offers six substantial chapters that analyze Internet control in both Western and Eastern Europe and a section of shorter regional reports and country profiles drawn from material gathered by the ONI around the world through a combination of technical interrogation and field research methods.

In Search of Middle Indonesia

Suspended high above a dying Earth at Space Station Delta, the light ship Altares readies to launch for mankind's first intergalactic mission to the stars. Neighbouring Alpha Centauri is the destination for the crew of five, whose aim is to inspire hope for an overcrowded and desperate planet. But almost from the moment the launch, the crew finds itself in mortal jeopardy. Based on the classic Gerry Anderson (Thunderbirds, Space: 1999) made-for-TV movie - The Day After Tomorrow (also known as Into Infinity)

THE ULTIMATE SPYFACES THE DEADLIEST THREAT. Crammed with explosive action and gripping twists, this heart-pumping thriller from bestseller Andy McDermott is perfect for fans of JASON BOURNE and JACK REACHER. Adam Gray is the ultimate spy. As the lead agent of the US government's top-secret Persona project, he is its most valuable weapon. Experimental technology enables him to take on the personality - and memories - of anyone; be it a Russian arms dealer, a high-stakes gambler or a nuclear scientist. Whatever secrets they know, he knows. But the

most dangerous secrets of all are his own. When Adam hunts a terrorist plotting to murder millions, he realises that, although he can delve into the minds of others, his own memories are a mystery. Hidden in his past is the key to a deadly conspiracy - and its masterminds will stop at nothing to conceal their crimes Why readers are raving about THE PERSONA PROTOCOL: 'Watch out Jason Bourne, I think you've met your match in Adam Gray' *****Goodreads reviewer 'Loved it from start to finish' *****Goodreads reviewer 'A great read' *****Goodreads reviewer

Sight and Sound

Full Length, Black Comedy / Casting: 4m, 2f, extras / Scenery: 2 int. Wealthy, overbearing Madame Rosepettle with her stuttering, awkward son Jonathan at her heels, arrives at a posh hotel with a man-eating tropical plant, pirahna fish and coffin in tow. Rosalie, a voluptuous babysitter from the couple next door "who never come home" attempts to seduce Jonathan and proves a formidable opponent to Madame herself.

The Discipline of Organizing: Informatics Edition

Highlights achievements of Bell Labs as a leading innovator, exploring the role of its highly educated employees in developing new technologies while considering the qualities of companies where innovation and development are most successful.

Gerry Anderson's the Day After Tomorrow

Final Accounting exposes the slow deterioration of values that led not only to Enron but also to the earlier financial scandals of other Andersen clients, including Sunbeam and Waste Management, and illustrates the practices that paved the way for the accounting fiascos at WorldCom and other major companies."

The Complete Book of Garry Anderson's UFO

For 50 years, producer Gerry Anderson has entertained television viewers with his own unique style of programs, presenting futuristic action-adventure stories in a variety of visual media ranging from Supermarionation puppetry and live action combined with state-of-the-art model effects to animatronics, stop-motion, and CGI animation. In this revised volume, Chris Bentley details all of Gerry Anderson's productions, including not only such cult television series such as Thunderbirds, UFO, and Space:1999, but also his feature films and unseen pilot episodes. The book also includes story synopses, production dates, broadcast details, full cast and crew lists, script changes, missing scenes, continuity errors and miscellaneous trivia from over 500 television episodes. This new edition also includes more than 60 color photographs as well as behind-the-scenes information from Gerry Anderson's 2005 series, Captain Scarlet.

Oh Dad, Poor Dad, Mamma's Hung You in the Closet and I'm Feelin' So Sad

This new edition of the Haynes Thunderbirds Manual, published to celebrate the 50th anniversary of the first airing of the original Supermarionation series, in September 1965, is an inventive, informative and entertaining guide to the world's foremost rescue organisation. Updated to feature an additional seven cutaways of vehicles featured in rescue missions, along with detailed diagrams, colour illustrations and photographs, it provides the ultimate insight into the secrets of the fabulous International Rescue team, including in-depth examinations of the Thunderbirds craft and other vehicles. Intended for International Rescue field agents, this Haynes Manual includes an introduction by Jeff Tracy and operational procedures for agents' missions.

Ill Wind

Access Controlled

The guide also includes the cinema centenary and Time Out readers' Top One Hundred polls.

Time Out Film Guide

Signs, Cures, & Witchery

Screen World

The Persona Protocol

How do organizations structure themselves? A synthesis of the empirical literature in the field, supported by numerous examples and illustrations, provides images that produce a theory. The author introduces five basic configurations of structure - the simple structure, the machine bureaucracy, the professional bureaucracy, the divisionalized form, and the adhocracy. This book reveals that structure seems to be at the root of many questions about organizations and why they function as they do.

Vampirella Magazine #49

Flying the Line

Freakonomics

FOREWORD BY GUY KAWASAKI Presentation designer and internationally acclaimed communications expert Garr Reynolds, creator of the most popular Web site on presentation design and delivery on the Net — presentationzen.com — shares his experience in a provocative mix of illumination, inspiration, education, and guidance that will change the way you think about making presentations with PowerPoint or Keynote. Presentation Zen challenges the conventional wisdom of making "slide presentations" in today's world and encourages you to think differently and more creatively about the preparation, design, and delivery of your presentations. Garr shares lessons and perspectives that draw upon practical advice from the fields of communication and business. Combining solid principles of design with the tenets of Zen simplicity, this book will help you along the path to simpler, more effective presentations.

Say Nothing

The various occult practices, symbols, and beliefs of the German immigrants that settled in the Appalachian frontier are described in this study that draws a larger picture of the German influence on Appalachia.
