Bullying in the workplace makes teachers' lives a misery. It is a destructive social process which can lead to deteriorating physical and mental health, depression, even suicide. It not only destroys teachers' lives, it also damages teacher recruitment and retention, and the finances and reputations of schools. In *Crying in Cupboards*, teachers tell their stories, giving real examples of bullying behaviour and the consequences for those affected by it. The teachers' stories are at the

heart of the book and can be dipped into or read quite separately from the underpinning literature and research methods. Senior school managers and Union Officials describe strategies and tactics used in handling it, offer suggestions on what steps to take once an incident has occurred, and suggest how to positively manage acts of workplace bullying. *Crying in Cupboards* looks at reasons for bullying of teachers, who become targets, what constitutes bullying behavior in schools and what does not. It also discusses what the law can and can't do about it, including health and employment ramifications. The well-being of teachers is an important, but often neglected area, yet the education of our children depends on it. The current climate surrounding teachers' work is one of high pressure, stress and anxiety. Unfortunately it is also a climate that allows bullying behaviour to flourish. *Crying in Cupboards* is therefore an invaluable resource for anyone wishing to understand adult bullying of teachers, whether you are a teacher being bullied at work, a manager wishing to prevent or reverse bullying in your workplace, a concerned relative, school governor, politician, an academic researcher or simply interested in the struggles teachers can face in the workplace.

Othello, The Moor of Venice is a tragedy by William Shakespeare based on the short story "Moor of Venice" by Cinthio, believed to have been written in approximately 1603. The work revolves around four central characters: Othello, his wife Desdemona, his lieutenant Cassio, and his trusted advisor Iago. Attesting to its enduring popularity, the play appeared in 7 editions between 1622 and 1705.

Because of its varied themes - racism, love, jealousy and betrayal - it remains relevant to the present day and is often performed in professional and community theatres alike. The play has also been the basis for numerous operatic, film and literary adaptations.

In 2017 the world celebrated the 500 years of the Reformation of the 16th century. Martin Luther was at the centre of this jubilee. He is the father of the Protestant Church. A large section of the Afrikaans-speaking community in southern Africa (and those scattered all over the world) belong to one of the Protestant churches. There is not a single academic introduction on Luther in Afrikaans. This publication will be the first in Afrikaans on Luther. The purpose is also to introduce the well-known and unknown writings of Luther to students and lecturers. Most readers will for the first time be able to read passages from his letters, sermons and commentaries. This book will hopefully be the beginning of a southern African Luther-reception. This will be a major contribution to the South African scholarship on church history. It will be the first publication that offers biographical information as well as information on and translations of his writings. Luther has until now, not spoke Afrikaans. The book is written from a southern African perspective. The author is looking for answers on African problems and challenges from Luther. Many of Luther's writings are relevant to our situation. He (as one example) urged the authorities and parents to ensure education for all children. In this country thousands of children are not in school, or do not complete their schooling education. Although we are centuries apart, we could still learn from Luther in this regard. Specialists in church history and systematic theology, as well as ministers and students. Hopefully this book will become prescribed literature at faculties of theology and seminars. The universal-accepted methodologies in the writing of church history are followed. One of the unique features of this book is the translations into Afrikaans of all quotations from Medieval German and Latin. This has never been done previously.

The Heart of a Teacher is a celebration of thanks to the teachers of the world. The Heart of a Teacher is filled with inspirational stories and poems that reflect the hearts of teachers and their commitment to making a difference in each life they touch. Mac Anderson explains why he chose to publish this book: "Part of my intention in publishing our gift book for educators, Heart of a Teacher, was to honor

the teachers who had made a difference in my life. Ms. Bridges, who taught me in the 4th grade, was amazing! She made learning so much fun and made all of us feel as though we could do anything we wanted to do. Years later, I still remember the impact she made on me as a young child."
