Clear and Simple as the Truth

English as a Global Language

Geert Booij's popular textbook examines how words are formed, compounded, and inflected in different languages. It shows how, when, and why to use methods of morphological analysis and explains how morphology relates to syntax, phonology, and semantics. The author considers the universal characteristics of morphology and how these are reflected in the workings of mind. The revised edition has been revised and updated throughout; it has a full glossary and a new chapter on the field's most notorious problem: the status of the word. 'The Grammar of Words by Geert Booij covers a broad range of topics from structural questions to psycholinguistic issues and problems of language change. This introduction to morphology is thorough and accessible and, like other works by this renowned author, especially strong at showing the significance of empirical facts for theoretical reasoning.' Ingo Plag, University of Siegen 'A book that is fully comprehensive in its coverage as well as exemplary in its clarity, written by one of the major scholars of contemporary lexical theory.' Sergio Scalise, University of Bologna

Effective Academic Writing 1

Reverence is an ancient virtue that survives among us in half-forgotten patterns of civility and moments of inarticulate awe. Reverence gives meaning to much that we do, yet the word has almost passed out of our vocabulary. Reverence, says philosopher and classicist Paul Woodruff, begins in an understanding of human limitations. From this grows the capacity to be in awe of whatever we believe lies

outside our control -- God, truth, justice, nature, even death. It is a quality of character that is especially important in leadership and in teaching, although it figures in virtually every human relationship. It transcends religious boundaries and can be found outside religion altogether. Woodruff draws on thinking about this lost virtue in ancient Greek and Chinese traditions and applies lessons from these highly reverent cultures to today's world. The book covers reverence in a variety of contexts -- the arts, leadership, teaching, warfare, and the home -- and shows how essential a quality it is to a well-functioning society. First published by Oxford University Press in 2001, this new edition of *Reverence* is revised and expanded. It contains a foreword by Betty Sue Flowers, Distinguished Teaching Professor Emeritus at the University of Texas at Austin, a new preface, two new chapters -- one on the sacred and one on compassion -- and an epilogue focused on renewing reverence in our own lives.

Sourcework

Language is a sophisticated tool which we use to communicate in a multitude of ways. Updated and expanded in its second edition, this book introduces language and linguistics - presenting language in all its amazing complexity while systematically guiding you through the basics. The reader will emerge with an appreciation of the diversity of the world's languages, as well as a deeper understanding of the structure of human language, the ways it is used, and its broader social and cultural context. Part I is devoted to the nuts and bolts of language study - speech sounds, sound patterns, sentence structure, and meaning - and includes chapters dedicated to the functional aspects of language: discourse, prosody, pragmatics, and language contact. The fourteen language profiles included in Part II reveal the world's linguistic variety while expanding on the similarities and differences between languages. Using knowledge gained from Part I, the reader can explore how language functions when speakers use it in daily interaction. With a step-by-step approach that is reinforced with well-chosen illustrations, case studies, and study questions, readers will gain understanding and analytical skills that will only enrich their ongoing study of language and linguistics.

Understanding Intercultural Communication

Everybody Up gets students talking about the real world. Posters, videos, stories, and songs link English to other school subjects and universal values, developing global citizens with 21st century skills. Everybody Up is a seven-level course that motivates children by linking the English classroom to the wider world. Everybody Up encourages children to use language in a natural and meaningful way by connecting English to their own lives. Colorful cross-curricular lessons link English to other school subjects. Fun stories teach life lessons such as being kind and polite. Great songs, and the special Everybody Up Friends, motivate children to practice. Everybody Up gets students talking about the real world. Posters, videos, stories, and songs link English to other school subjects and universal values, developing global citizens with 21st century skills.

Grammatically Correct

A four-level American English course for secondary learners with outstanding print and digital resources and particular emphasis on meaningful communication and skills development. Through a comprehensive and innovative range of resources, Got it! uses hands-on language presentations to help students discover language intuitively and try out new structures. Through personalization and dialogue they explore meaning in a framework of issues which engage them. Competence in individual skills and awareness of progress and success are encouraged throughout. Available as an in-App purchase via the Oxford Learner's Bookshelf app.

Everybody Up

Practical English Grammar for Academic Writers is intended for international students who have to write academically in American English. Suitable for undergraduates or graduate students, it aims at enabling writers to produce grammatically correct, well-focused, well-developed writing with academic vocabulary, style, and tone. This book is compact, yet surprisingly broad in grammatical, lexical, and academic scope, making it ideal for advanced level English for academic purposes or academic transitions reading/writing classes that have to balance academic content with grammar. This book also includes an answer key, including sample paragraphs for all of the independent writing assignments, allowing for individual, autonomous study.

English Grammar For Dummies

The intersection of vocabulary, critical thinking and reading.

American English File

Grammar Sense 4 Advanced Grammar and Writing demonstrates that grammar has a very real, practical application in academic writing. It provides presentation and practice of advanced grammatical structures and guides students through skills needed for academic writing.

Fundamentals of English Grammar

A collection of three of William Golding's stories with an introduction by Craig

Raine.

The Teacher's Grammar Book

Extensive practice exercises, reference charts, tests, and games.

Great Grammar Book

In this provocative book, Andrew Bacevich warns of a dangerous dual obsession that has taken hold of Americans, conservatives, and liberals alike. It is a marriage of militarism and utopian ideology--of unprecedented military might wed to a blind faith in the universality of American values. This mindset, the author warns, invites endless war and the ever-deepening militarization of U.S. policy. It promises not to perfect but to pervert American ideals and to accelerate the hollowing out of American democracy. As it alienates others, it will leave the United States increasingly isolated. It will end in bankruptcy, moral as well as economic, and in abject failure. With *The New American Militarism*, which has been updated with a new Afterword, Bacevich examines the origins and implications of this misguided enterprise. He shows how American militarism emerged as a reaction to the Vietnam War. Various groups in American society--soldiers, politicians on the make, intellectuals, strategists, Christian evangelicals, even purveyors of pop culture--came to see the revival of military power and the celebration of military values as the antidote to all the ills besetting the country as a consequence of Vietnam and the 1960s. The upshot, acutely evident in the aftermath of 9/11, has been a revival of vast ambitions and certainty, this time married to a pronounced affinity for the sword. Bacevich urges us to restore a sense of realism and a sense of proportion to U.S. policy. He proposes, in short, to bring American purposes and American methods--especially with regard to the role of the military--back into harmony with the nation's founding ideals.

Fundamentals of Business (black and white)

Too bad Junie B. Jones wasn't picked to be the flower girl in her aunt Flo's wedding--but surely she can still find a way to get everyone's attention!

The Best Little Grammar Book Ever! Speak and Write with Confidence / Avoid Common Mistakes, Second Edition

Updated and restructured new edition of a textbook for courses in language and gender which is accessible to non-linguists.

Grammar Sense: 4: Teacher's Book with Online Practice Access Code Card

How does good writing stand out? If its purpose is to convey facts, findings, or instructions, it need be read only once for its content to be clear. If its purpose is to entertain or to provoke thought, it makes readers want to come back for more. Revised and updated, this guide covers four essential aspects of good writing: Individual words—spelling variations, hyphenation, frequently confused

homonyms, frequently misused words and phrases, irregular plurals and negatives, and uses of capitalization and type style to add special meanings Punctuation—the role of each mark in achieving clarity and affecting tone, and demonstration of how misuses can lead to ambiguity Syntax and structure—agreement of subject and verb, parallel construction, modifiers, tenses, pronouns, active versus passive voice, and more Style—advice on the less hard-and-fast areas of clarity and tone, including sentence length and order, conciseness, simplification, reading level, jargon and clichés, and subtlety Filled with self-test exercises and whimsical literary quotations, Grammatically Correct steers clear of academic stuffiness, focusing instead on practical strategies and intuitive explanations. Discussions are designed to get to the heart of a concept and provide a sufficient sense of when and how to use it, along with examples that show what ambiguities or misinterpretations might result if the rules are not followed. In cases where there is more than one acceptable way to do something, the approach is not to prescribe one over another but simply to describe the options. Readers of this book will never break the rules of language again—unintentionally.

Practical English Grammar for Academic Writers

The Grammar of Words: An Introduction to Linguistic Morphology

How Languages Work

Sourcework helps students work from outside sources and guides them through the challenging terrain of their first academic research papers. Students master all the skills necessary to support their own ideas: note-taking from readings, analyzing information, outlining structures, creating thesis statements, authoring introductions and conclusions, and writing and refining drafts. At each stage, students learn how to document evidence, integrate references, paraphrase, synthesize, and summarize.

Preschool English Learners

In 2010 the first edition of *The Best Little Grammar Book Ever!* was published. Readers, including many schools and colleges, have loved it. Why a second edition? Grammar standards do evolve and change over time, so a few things have changed in the past several years. The second part of this series will be a "little" workbook that can be used with this book (and either book can be used alone). *The Best Little Grammar Book Ever!* contains an introduction to grammar (parts of speech, phrases, clauses), common grammar issues, punctuation, capitalization, word usage, a writing lesson, a final test, a complete index, and much more.--Page [4] of cover.

Inside Reading Second Edition: Introductory: Student Book

Presents a collection of activities to help foreign students learn English.

The Oxford English Dictionary

Grammar Sense

Business Result

The Effective Academic Writing series teaches the writing modes, rhetorical devices, and language points students need for academic success. Each unit introduces a theme and writing task and then guides the student writer through the process of gathering ideas, organizing an outline, drafting, revising, and editing. Students are given the opportunity to explore their opinions, discuss their ideas, and share their experiences through written communication. Level 1 of the series introduces students to the academic paragraph

Oxford Discover: 4: Student's Book

Teaching English Grammar to Speakers of Other Languages

"Texts must be interesting enough for students to want to read them in their own language. Otherwise, how can we expect students to want to read them in English?" This is the authors' golden rule when they choose texts and topics for every level of American English File. It ensures you get material that learners will

enjoy reading and will want to talk about. Texts such as "Could you live without money?" really help to generate opinion and discussion. They create a desire to communicate. Having created the desire, American English File then helps you to develop learners' communication skills. One way it does this is with a strong focus on pronunciation. Research shows that poor pronunciation is a major contributor to breakdowns in communication (Jennifer Jenkins: The Phonology of English as an International Language). American English File integrates pronunciation into every lesson - the "little and often" approach. But that's not all. The unique English File Sounds Chart puts a picture to each sound in the phonetic alphabet, so learners find it easier to remember the sounds and, ultimately, improve their pronunciation.

Language and Gender

The Scorpion God

Five years and more than 100,000 copies after it was first published, it's hard to imagine anyone working in Web design who hasn't read Steve Krug's "instant classic" on Web usability, but people are still discovering it every day. In this second edition, Steve adds three new chapters in the same style as the original: wry and entertaining, yet loaded with insights and practical advice for novice and veteran alike. Don't be surprised if it completely changes the way you think about Web design. Three New Chapters! Usability as common courtesy -- Why people really leave Web sites Web Accessibility, CSS, and you -- Making sites usable and accessible Help! My boss wants me to _____. -- Surviving executive design whims "I thought usability was the enemy of design until I read the first edition of this book. Don't Make Me Think! showed me how to put myself in the position of the person who uses my site. After reading it over a couple of hours and putting its ideas to work for the past five years, I can say it has done more to improve my abilities as a Web designer than any other book. In this second edition, Steve Krug adds essential ammunition for those whose bosses, clients, stakeholders, and marketing managers insist on doing the wrong thing. If you design, write, program, own, or manage Web sites, you must read this book." -- Jeffrey Zeldman, author of Designing with Web Standards

Grammar Sense 3

This practical and research-based introduction to current and effective English grammar instruction gives pre-service and in-service teachers and teacher educators a strong foundation for teaching second language grammar and helps them develop their professional knowledge and skills. Written in a highly readable style for an international audience, it provides a thorough and rounded overview of the principles, strategies, techniques, and applications currently dominant in teaching L2 grammar in a range of instructional settings around the world. Chapter authors are world-class authorities in grammar and grammar teaching and learning. All chapters are based on theoretical frameworks and/or research foundations with a strong emphasis on practical applications and implications for classroom teaching, and highlight teaching methods, key concepts, and terminology associated with grammar instruction. Illuminating the options and

choices in grammar teaching from a contemporary perspective, *Teaching English Grammar to Speakers of Other Languages* is ideal as key text for students in undergraduate and graduate MA-TESOL programs and as a resource for practicing ESL/EFL teachers, teacher educators, and teaching faculty.

American Family&friends 2e 3 Workbook

Trio Reading 1

David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

Grammar Sense: 3: Student Book with Online Practice Access Code Card

Understanding Intercultural Communication provides a practical framework to help readers to understand intercultural communication and to solve intercultural problems. Each chapter exemplifies the everyday intercultural through ethnographic narratives in which people make sense of each other in home, work and study locations. Underpinned by a grammar of culture developed by the author, this book addresses key issues in intercultural communication, including: the positive contribution of people from diverse cultural backgrounds; the politics of Self and Other which promote negative stereotyping; the basis for a de-centred approach to globalisation in which periphery cultural realities can gain voice and ownership. Written by a leading researcher in the field, the new edition of this important text has been revised to invite the reader to reflect and develop their own intercultural and research strategies, and updated to include new ideas that have emerged in Holliday's own work and elsewhere. This book is a key resource for academics, students and practitioners in intercultural communication and related fields.

Don't Make Me Think

(Black & White version) *Fundamentals of Business* was created for Virginia Tech's MGT 1104 Foundations of Business through a collaboration between the Pamplin College of Business and Virginia Tech Libraries. This book is freely available at: <http://hdl.handle.net/10919/70961> It is licensed with a Creative Commons-NonCommercial ShareAlike 3.0 license.

Reverence

Everyone talks about style, but no one explains it. The authors of this book do; and in doing so, they provoke the reader to consider style, not as an elegant accessory of effective prose, but as its very heart. At a time when writing skills have virtually disappeared, what can be done? If only people learned the principles of verbal correctness, the essential rules, wouldn't good prose simply fall into place? Thomas and Turner say no. Attending to rules of grammar, sense, and sentence structure will no more lead to effective prose than knowing the mechanics of a golf swing will lead to a hole-in-one. Furthermore, ten-step programs to better writing exacerbate the problem by failing to recognize, as Thomas and Turner point out, that there are many styles with different standards. In the first half of *Clear and Simple*, the authors introduce a range of styles--reflexive, practical, plain, contemplative, romantic, prophetic, and others--contrasting them to classic style. Its principles are simple: The writer adopts the pose that the motive is truth, the purpose is presentation, the reader is an intellectual equal, and the occasion is informal. Classic style is at home in everything from business memos to personal letters, from magazine articles to university writing. The second half of the book is a tour of examples--the exquisite and the execrable--showing what has worked and what hasn't. Classic prose is found everywhere: from Thomas Jefferson to Junichirō Tanizaki, from Mark Twain to the observations of an undergraduate. Here are many fine performances in classic style, each clear and simple as the truth. Originally published in 1994. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. -- "Booklist"

The Elements of Style

This classic book is intended for use in which the practice of composition is combined with the study of literature, it gives in brief space the principal requirements of plain English style and concentrates attention on the rules of usage and principles of composition most commonly violated.

Grammar Sense 4

The Teacher's Grammar Book, Second Edition introduces the various grammars that inform writing instruction in our schools, and examines methods, strategies, and techniques that constitute best classroom practices for teaching grammar and writing. Designed for students who are preparing to become English or language arts teachers, as well as for credentialed teachers who want an easy-to-use guide to questions of methods, grammar, and teaching, this overview of basic English grammar includes the following major topics: a brief history of grammar, teaching grammar, grammar and writing, traditional grammar, transformational-generative grammar, cognitive grammar, dialects, black English, and Chicano English. New in the reorganized and fully updated Second Edition: *new chapter giving a brief history of grammar and grammar instruction; *new chapter on best practices--strategies and techniques that actually work; *expanded chapter on cognitive grammar--a topic not found in other texts of this nature; *expanded

chapter on dialects; *summary and evaluation of the minimalist program (Noam Chomsky's most recent revision of transformational-generative grammar)--a topic unique among texts of this kind; and *reduced discussion of transformational grammar.
