New Pig in Town

In this funny, uncannily wise portrait of the dynamics of a sixth-grade class and of the greatness that sometimes comes in unlikely packages, Dwight, a loser, talks to his classmates via an origami finger puppet of Yoda. If that weren't strange enough, the puppet is uncannily wise and prescient. Origami Yoda predicts the date of a pop quiz, guesses who stole the classroom Shakespeare bust, and saves a classmate from popularity-crushing embarrassment with some well-timed advice. Dwight's classmate Tommy wonders how Yoda can be so smart when Dwight himself is so clueless. With contributions from his puzzled classmates, Tommy assembles this first case file in the blockbuster bestselling Origami Yoda series, written by Tom Angleberger, author of *Star Wars: Return of the Jedi: Beware the Power of the Dark Side*, and hailed by *School Library Journal* as "honest, funny, and immensely entertaining." Little Black Crow

A hilarious read-aloud favorite about some foolish farm animals who decide to trade roles—and discover just how hard it is to do someone else's job. From award-winning author Lester Laminack and celebrated illustrator Henry Cole. "Good farm fun." —Kirkus Reviews The Tuckers' farm is a peaceful place where everyone has a job and no one complains. That is, until a hapless peacock falls off the back of a passing truck and stirs things up. Soon, customers are flocking to the farm to see what all the fuss is about. But the hens don't like the newcomer getting attention while they do all the hard work. When a wise old hound sees the problem, he helps orchestrate a job swap. What follows is the riotous tale of three hens who get in way over their feathered heads, and one very distressed peacock who just can't figure out how to lay an egg. Lester Laminack has created a comical look at envy, finding your strength, and what happens when we underestimate the value of others' work. Henry Cole's delightful illustrations heighten the story's humor and will have readers of all ages laughing out loud. Teacher's Guide available! Moose!

"In the extensive literature about the Battle of Midway, the role of American submarines has not received adequate attention. In *The Search for the Japanese Fleet: USS Nautilus and the Battle of Midway*, David W. Jourdan, one of the world's experts in undersea exploration, has reconstructed the critical part subs played in the action that many chroniclers of World War II consider to be the turning point of the war in the Pacific. In the direct line of fire was one of the oldest submarines in the navy, USS Nautilus. On their first war patrol, Lieutenant Commander William Brockman and his ninety-three-man crew wondered what would war be like, and as events unfolded, their actions during an eight-hour period early in that voyage would rank among the most important contributions of a submarine to the most decisive engagement in U.S. Navy history. Fifty-seven years later, Jourdan's team of deep sea explorers set out to discover the history of the famous Battle of Midway and find the ships the allied fleet sank. Key to the mystery was the Nautilus and her underwater exploits. Relying on logs, diaries, chronologies, manuals, sound recordings, and interviews with veterans of the battle, including men who spent most of the day of June 4th in the submarine conning tower, the story breathes new life into the history of the epic engagement. Woven into the tale of World War II is the modern drama of deep sea discovery as explorers deploy technological marvels to the seafloor, over three miles down, to reveal the relics of history and commemorate fallen heroes." --Publisher description.
