Barry Gifford has been writing gritty, American tales for the past forty years. His novels, stories, poetry, and films have helped shape the American neo-noir genre. The New York Times Book Review says that he "can sum up in a few words the cruelty, horror, and crushing banality that shape an entire life." Andrei Codrescu calls Gifford "a great comic realist," while Pedro Almodóvar likens him to the

surrealist filmmaker Luis Buñuel, and Jonathan Lethem describes his style as “William Faulkner by way of B-movie film noir, porn paperbacks, and Sun Records rockabilly.” In *The Roy Stories* Gifford brings his signature style to a collection of tales following the character of Roy, who has made appearances in a number of Gifford’s previous story collections. Roy lives a mystical kind of life, skinning crocodiles in Southern Florida at age nine in the 1940s and playing in the back alleys of Chicago in the 1950s. This deep-feeling boy observes every detail in his surroundings with a sense of dark humor and an openness that will clutch readers tightly by the heart and lead them on a historical journey.

Revised and updated with new information, this Jane Adams award winner is an in-depth examination of the Emmett Till murder case, a catalyst of the Civil Rights Movement. The kidnapping and violent murder of fourteen-year-old Emmett Till in 1955 was and is a uniquely American tragedy. Till, a black teenager from Chicago, was visiting family in a small town in Mississippi, when he allegedly whistled at a white woman. Three days later, his brutally beaten body was found floating in the Tallahatchie River. In clear, vivid detail Chris Crowe investigates the before-and-aftermath of Till's murder, as well as the dramatic trial and speedy acquittal of his white murderers, situating both in the context of the nascent Civil Rights Movement. Newly reissued with a new chapter of additional material--including

This “superbly researched and engaging” (The Wall Street Journal) true story about five boys who were kidnapped in the North and smuggled into slavery in the Deep South—and their daring attempt to escape and bring their captors to justice belongs “alongside the work of Harriet Beecher Stowe, Edward P. Jones, and Toni Morrison” (Jane Kamensky, Professor of American History at Harvard University). Philadelphia, 1825: five young, free black boys fall into the clutches of the most fearsome gang of kidnappers and slavers in the United States. Lured onto a small ship with the promise of food and pay, they are instead met with blindfolds, ropes, and knives. Over four long months, their kidnappers drive them overland into the Cotton Kingdom to be sold as slaves. Determined to resist, the boys form a tight brotherhood as they struggle to free themselves and find their way home. Their ordeal—an odyssey that takes them from the Philadelphia waterfront to the marshes of Mississippi and then onward still—shines a glaring spotlight on the Reverse Underground Railroad, a black market network of human traffickers and slave traders who stole away thousands of legally free African Americans from their families in order to fuel slavery’s rapid expansion in the decades before the Civil War. “Rigorously researched, heartfelt, and dramatically concise, Bell’s investigation illuminates the role slavery played in the systemic inequalities that still confront Black Americans” (Booklist).

How the ancient world's greatest general fell in love with its greatest queen and sired its greatest empire In his new book, military historian Stephen Dando-Collins turns to one of the most celebrated chapters of ancient Roman history—Julius Caesar's sojourn in Egypt and his love affair with 21-year-old Queen Cleopatra. He shows how Caesar's force of less than 4,000 Romans, led by the 900 battle-tested veterans of the Sixth Legion, was able to kidnap the Egyptian royal family, keep a 70,000-man Egyptian army at bay, and ultimately help crush the Egyptian rebels and consolidate Caesar's rule over the Roman world. Filled with vivid battle scenes as well as intriguing details about Caesar and Cleopatra's liaison, this latest installment in Dando-Collins's chronicles of the Roman legions is a rare treat for ancient history buffs Stephen Dando-Collins is the author of two previous military histories of Rome, *Caesar's Legion* (paper: 0-471-68613-1; cloth: 0-471-09570-2) and *Nero's Killing Machine* (0-471-67501-6)

This is the story of how a small SOE unit led by Patrick Leigh Fermor kidnapped a German general on the Nazi-occupied island of Crete in 1944. For thirty-two days, they were chased across the mountains as they headed for the coast and a rendezvous with a Royal Navy launch waiting to spirit the general to Cairo. Rick Stroud, whose Phantom Army of Alamein won plaudits for its meticulous research and its lightness of touch in the telling, brings these same gifts to bear in this new project. From the adrenalin rush of the kidnapping, to the help provided by the Cretan partisans and people, he explains the overall context of Crete's role in World War II and reveals the devastating consequences of this mission for them all. There have been other accounts, but *Kidnap in Crete* is the first book to draw on all the sources, notably those in Crete as well as SOE files and the accounts, letters, and private papers of its operatives in London and Edinburgh.
