### **The Holy Spirit**

A Dynamic Reading of the Holy Spirit in Revelation attempts to read the book of Revelation in a new way as a narrative, embracing literary elements such as plot, point of view, narrative voice, character, and story structure to help readers discover its meanings by tracing the story anew. Lee's unique narrative perspective offers readers a bird's-eye view to experience four levels of the story: heaven, earth, abyss, and the lake of fire. Lee develops a theological account of John's pneumatology and surely extends Christian pneumatology, a doctrine inseparable from the life of the church. Readers will come away with a greater understanding of the role of the Holy Spirit, which will enable them to enjoy a deeper fellowship with the Holy Spirit more intimately than ever before. Lee portrays the book of Revelation as a mission-oriented book that tells how the kingdom of God will be built in this world through spiritual warfare, rather than as a book of eschatology. Lee's book will serve as a spiritual wake-up call to the modern church and the people of God in its accurate portrayal of the Holy Spirit and vivid description of spiritual warfare.

### **Take Me To Truth: Undoing The Ego**

Conversations on theological interpretation of Scripture suggest the significance of pneumatic hermeneutics in reading biblical texts. Despite the affirmation of divine guidance in reading Scripture and a few representative voices that recognize the role of the Holy Spirit, there is a substantial gap in the theological interpretation project regarding the role of the Spirit in biblical reading. This dissertation aims to fill this gap by exploring the Spirit's interpretive work from the vantage point of theological interpretation. It argues that Pentecostal tradition has a remarkable contribution to the dialogue concerning the Spirit's role. In order to put the Pentecostal hermeneutics in a wider theological framework and intensify the issue in a larger ecumenical context, the dissertation discusses Eastern Orthodox, Roman Catholic, and Protestant approaches on the Spirit and Scripture. The

analysis of these major streams of Christian tradition provides a setting to examine Pentecostal hermeneutical practices and reflections on the Spirit's role in biblical interpretation. Taking the Pentecostal hermeneutical insights that involve a three-way dialogue between the Spirit, Scripture, and community into account, the dissertation extends the trialectic interpretive approach by insisting that Christian community is an expression of the Spirit's work through which the interpretive role of the Spirit is mediated. By offering a theological basis for understanding the Spirit's interpretive role in light of pneumatic experiences of Christian community, the dissertation points a way forward to integrate the Spirit's role in theological interpretation of Scripture.

"The following pages represent the gist of a series of sermons given on successive Sunday evenings to the congregation of the church of which I am pastor. The fact that these were originally spoken messages accounts for their racy style and for the personal references which occur in them occasionally. Had I been writing the messages I should have exercised greater care in the composition. The subject is, however, so vitally important that I feel sure the reader will pardon the offhand style of the language. The truth is always good even when the vehicle in which it rides is homely and plain."

### **True Devotion to the Holy Spirit**

The record is clear that Baptists, historically, have prioritized conversion, Jesus, and God. Equally clear is that Baptists have never known what to do with the Holy Spirit. In *Baptists and the Holy Spirit*, Baptist historian C. Douglas Weaver traces the way Baptists have engaged--and, at times, embraced--the Holiness, Pentecostal, and charismatic movements. Chronicling the interactions between Baptists and these Spirit-filled movements reveals the historical context for the development of Baptists' theology of the Spirit. *Baptists and the Holy Spirit* provides the first in-depth interpretation of Baptist involvement with the Holiness, Pentecostal, and charismatic movements that have found a prominent place in America's religious landscape. Weaver reads these traditions through the nuanced lens of Baptist identity, as well as the frames of gender, race, and class. He shows that, while most Baptists reacted against all three Spirit-focused groups, each movement flourished among a Baptist minority who were attracted by the post-conversion experience of the "baptism of the Holy Spirit." Weaver also explores the overlap between Baptist and Pentecostal efforts to restore and embody the practices and experiences of the New Testament church. The diversity of Baptists--Southern Baptist, American Baptist, African American Baptist--leads to an equally diverse understanding of the Spirit. Even those who strongly opposed charismatic expressions of the Spirit still acknowledged a connection between the Holy Spirit and a holy life. If, historically, Baptists were suspicious of Roman Catholics' ecclesial hierarchy, then Baptists were equally wary of free church pneumatology. However, as Weaver shows, Baptist interactions with the Holiness, Pentecostal, and charismatic movements and their vibrant experience with the Spirit were key in shaping Baptist identity and theology.

## **The Pauline Metaphors of the Holy Spirit**

In recent decades, two seemingly unconnected issues have become prominent in the Christian world. In theological circles, hermeneutics, the theory of interpretations, at a popular level, a renewed interest in the person and work of the Holy Spirit. In his fascinating new study, Paul Brown connects the two. He notes how little scholarly work has been done on the Holy Spirit., pointing out the few cursory references to the Holy Spirit's role in interpreting in most current hermeneutical studies. He works through the New Testament, considering each reference to the Holy Spirit thoroughly and shows that any study of hermeneutics must include serious consideration of the work of the Holy Spirit in assisting us to understand the work of the Holy Spirit.

Jonathan Edwards's treatise Religious Affections is widely considered the most important and accurate analysis of religious experience ever written. Unfortunately, many well-intentioned readers sit down with Religious Affections, only to give up in frustration over Edwards's lofty style and complex argumentation. For this reason Sam Storms, one of evangelicalism's experts on Edwards, has attempted to bridge the gap between how Edwards said what he did in the eighteenth century and how he might say it today. In Signs of the Spirit he articulates the substance of Edwards's arguments in a more understandable way. The point is not to "dumb down" Jonathan Edwards but to make his work accessible to a wider audience. This volume serves those both in and outside the academic realm as valuable preparation for, or as a companion guide to, a reading of Edwards's Religious Affections.

The Holy Spirit's ministry of illumination is a commonly misunderstood doctrine, both pragmatically and theologically. As a result, this divine activity is often neglected, but it should be recognized that it is indispensable for the hermeneutical endeavor. This distinctive work seeks to take an apparently abstract concept and make it concrete by establishing proper categories and definitions for the doctrine of illumination while reemphasizing the cooperation of Word and Spirit. In doing so, this book treats issues such as the relationship between illumination and other hermeneutical doctrines, the accessibility of the Spirit's illumination when interpreting the Scriptures, and the question of unregenerate biblical interpretation. Accordingly, Illumination and Interpretation presents a biblical-theological evaluation of the Spirit's work of illumination for the transformative purpose of understanding how to appropriate this vital hermeneutical doctrine into one's faith and practice.

### **Understanding the Holy Spirit**

In the Pauline literature of the New Testament, the characteristics of the Spirit and Christian life are described through the use of metaphor. An interpreter of Paul must understand his metaphors in order to arrive at a complete understanding of the Pauline pneumatological perspective. Thus, *The Pauline Metaphors of the Holy Spirit* examines how the Pauline Spirit metaphors express the intangible Spirit's tangible presence in the life of the Christian. Rhetoricians prior to and contemporary with Paul discussed the appropriate usage of metaphor. Aristotle's thoughts provided the foundation from which these rhetoricians framed their arguments. In this context, *The Pauline Metaphors* surveys the use of metaphor in the Greco-Roman world during the NT period and also studies modern approaches to metaphor. The modern linguistic theories of substitution, comparison, and verbal opposition are offered as representative examples, as well as the conceptual theories of interaction, cognitive-linguistic, and the approach of Zoltán Kövecses. In examining these metaphors, it is important to understand their systematic and coherent attributes. These can be divided into structural, orientational, and ontological characteristics, which are rooted in the conceptual approach of metaphor asserted by George Lakoff and Mark Johnson. This book evaluates these characteristics against each of the Pauline Spirit-metaphors.
