2013 Laura Ingalls Wilder Award Rosa's mother is singing again, for the first time since Papa died in an accident in the mills. But instead of filling their cramped tenement apartment with Italian lullabies, Mamma is out on the streets singing union songs, and Rosa is terrified that her mother and older sister, Anna, are endangering their lives by marching against the corrupt mill owners. After all, didn't Miss Finch tell the class that the strikers are nothing but rabble-rousers—an uneducated, violent mob? Suppose Mamma and Anna are jailed or, worse, killed? What will happen to Rosa and little Ricci? When Rosa is sent to Vermont with other children to live with strangers until the strike is over, she fears she will never see her family again. Then, on the train, a boy begs her to pretend that he is her brother. Alone and far from home, she agrees to protect him . . . even though she suspects that he is hiding some terrible secret. From a beloved, award-winning author, here is a moving story based on real events surrounding an infamous 1912 strike.

A CHOICE Outstanding Academic Title 2012! Critical Curriculum Studies offers a novel framework for thinking about how curriculum relates to students' understanding of the world around them. Wayne Au brings together curriculum theory, critical educational studies, and feminist standpoint theory with practical examples of teaching for social justice to argue for a transformative curriculum that challenges existing inequity in social, educational, and economic relations. Making use of the work of important scholars such as Freire, Vygotsky, Hartsock, Harding, and others, Critical Curriculum Studies, argues that we must understand the relationship between the curriculum and the types of consciousness we carry out into the world.

Hybridity, Collaboration, and Resistance

This book provides a comprehensive and interdisciplinary examination of dual language education for Latina/o English language learners (ELLs) in the United States, with a particular focus on the state of Texas and the U.S.-Mexico border. The book is broken into three parts. Part I examines how Latina/o ELLs have been historically underserved in public schools and how this has contributed to numerous educational inequities. Part II examines bilingualism, biliteracy, and dual language education as an effective model for addressing the inequities identified in Part I. Part III examines research on dual language education in a large urban school district, a high-performing elementary school that serves a high proportion of

ELLs along the Texas-Mexico border, and best practices for principals and teachers. This volume explores the potential and realities of dual language education from a historical and social justice lens. Most importantly, the book shows how successful programs and schools need to address and align many related aspects in order to best serve emergent bilingual Latino/as: from preparing teachers and administrators, to understanding assessment and the impacts of financial inequities on bilingual learners. "Young readers are on a journey toward efficient processing of any texts they might like to attempt, and it is important every step of the way that they have successful experiences in reading independently those texts that are available at each point in time. In a literacy-rich classroom with a multitext approach, readers have the opportunity to hear written texts read aloud through interactive read-aloud, and so they build a rich treasure chest of known stories and nonfiction books that they can share as a classroom community" --
