## **Bulletin of the Institute of Historical Research**

In the era of globalization and liberalization, the world is enjoying high growth as well as suffering from the ill-effects of unequal distribution of its economic outcomes. The activities of anti-government demonstrations in China and across the world via the Occupy Wall Street Movement highlight that inequality has become an international phenomenon. It is apparent in both poor countries under authoritarianism and rich countries governed by a democratic regime. Thus, inequality has become not only a hurdle to development but also a threat to social and political stability. The spread of the Jasmine Revolution across parts of North Africa and the Arab Spring are illustrative of what can happen under certain circumstances. This book confirms the inconsistencies between high growth and increasing inequality via a series of case studies across 11 countries, numerous regions, and OECD members. Many of the case studies draw upon original household surveys. Our findings indicate the seriousness of income inequality, explore factors that have caused the inequality and analyze their economic and social consequences. The book raises, and deals with, three key questions: (1) Can high growth reduce inequality gradually? (2) Can government intervention be effective in equalizing income distribution? (3) Is the income disparity an engine for, or an obstacle of, high growth?

## **The British National Bibliography**

## **Housing**

### **A Concise History of Cornwall**

### **Resident Involvement and Community Action**

### **Growth with Inequality**

### **House of Commons - Committee of Public Accounts: The Duchy of Cornwall - HC 475**

Issue for Mar. 1981 contains index for Jan.-Mar. 1981 in microfiche form.

### **Town & Country Planning**

Contains reports on archives and on the problems and methods of historical research; summaries of unpublished historical theses produced at the institute; addenda and corrigenda to the Dictionary of national biography, the New English dictionary, and other standard collections; the migrations of historical manuscripts; etc., etc.

### **The Architects' Journal**

### **Parliamentary Debates (Hansard).**

Involving service users in both day-to-day and long-term strategic planning is known to empower clients and result in improved services, yet there is a lack of practical guidance on how this can be achieved. Drawing on original research, this book offers imaginative and effective strategies for consulting with service users who have been historically difficult to engage with, including homeless people, care leavers, ex-offenders, travellers, women escaping domestic violence and black and minority ethnic groups. The authors explore traditional consultation methods such as meetings and questionnaires, as well as informal and creative activities such as writing, art, photography and video work as ways of gathering clients' views. They make practical suggestions as to how organizational structures and individual attitudes can be changed to overcome the barriers to successful consultation. Including many real-life examples of good practice, the book is a step-by-step guide to creating a complete service user involvement strategy and also contains exercises for managers to use with their teams. It is an essential resource for social workers, housing officers and other professionals working with disadvantaged and marginalised groups in supported housing.

Contractor's Guide**

**The Parliamentary Debates (Hansard).**

Cornwall, though administratively part of England, has

long celebrated its cultural differences. The historic homeland of the Cornish people, as well as one of the six historical Celtic nations, Cornwall is one of Britain's most popular tourist destinations—and one of its least understood. This compelling introductory volume traces the complexity produced by Cornwall's unique history as a nation, region, and county all wrapped into one. Covering its evolution from independent British kingdom to culturally distinct medieval province to prominent industrial region, Cornwall is ideal reading material for anyone interested in British history, the Cornish community, and the changing field of Celtic studies.

### **Hedge Fund Market Wizards**

### **Planning**

Fascinating insights into the hedge fund traders who consistently outperform the markets, in their own words From bestselling author, investment expert, and Wall Street theoretician Jack Schwager comes a behind-the-scenes look at the world of hedge funds, from fifteen traders who've consistently beaten the markets. Exploring what makes a great trader a great trader, Hedge Fund Market Wizards breaks new ground, giving readers rare insight into the trading philosophy and successful methods employed by

some of the most profitable individuals in the hedge fund business. Presents exclusive interviews with fifteen of the most successful hedge fund traders and what they've learned over the course of their careers Includes interviews with Jamie Mai, Joel Greenblatt, Michael Platt, Ray Dalio, Colm O'Shea, Ed Thorp, and many more Explains forty key lessons for traders Joins Stock Market Wizards, New Market Wizards, and Market Wizards as the fourth installment of investment guru Jack Schwager's acclaimed bestselling series of interviews with stock market experts A candid assessment of each trader's successes and failures, in their own words, the book shows readers what they can learn from each, and also outlines forty essential lessons—from finding a trading method that fits an investor's personality to learning to appreciate the value of diversification—that investment professionals everywhere can apply in their own careers. Bringing together the wisdom of the true masters of the markets, Hedge Fund Market Wizards is a collection of timeless insights into what it takes to trade in the hedge fund world.

### **Environment & Planning A.**

The global increase in the number of slums calls for policies which improve the conditions of the urban poor, sustainably. This volume provides an extensive overview of current housing policies in Asia, Africa and Latin America and presents the facts and trends of recent housing policies. The chapters provide ideas and tools for pro-poor interventions with respect to

the provision of land for housing, building materials, labour, participation and finance. The book looks at the role of the various stakeholders involved in such interventions, including national and local governments, private sector organisations, NGOs and Community-based Organisations.

### **Nations and Cities**

### **Serials in the British Library**

This book, first published in 1983, provided the first thorough and informative introduction to the theory, practice and politics of rural settlement planning. It surveys the conceptual and ideological leanings of those who have developed, implemented and revised rural settlement practice, and gives detailed analysis of planning documentation to assess the extent to which policies have been successfully implemented. Paul Cloke assesses the shortfalls of rural planning and resource management and suggests methods by which a sustainable rural future might be attained. This reissue provides essential background and a comprehensive handbook for those with an interest in rural settlement planning.

### **The Planner**

This book has been written to meet the needs of those who work with property or property-related matters, but without any formal training, and describes how those in the property industry go about

their work. The principal theme in the book is realty or landed property, including buildings. Other types of property are touched upon but only in the context of real estate. The book is intended to be an introduction for those whose involvement in property requires them to understand or have insights into the ways in which property functions and processes are carried out. It will also help in understanding common expressions and jargon.

### **The Estates Gazette**

The Duchy of Cornwall (the Duchy) delivered a good financial performance in 2012-13, increasing its total income and also its net revenue after taking account of costs. However, the Treasury is not doing enough to scrutinise the Duchy's financial strategy or transactions-it does not independently verify information offered by the Duchy, and details of its approvals for the Duchy's land transactions over £500,000 are not published. The Duchy has a Crown Exemption from tax, but there is no clear understanding of any consequences for its competitors, which are subject to corporation and

capital gains tax. The transparency of The Prince of Wales's tax payments is limited by reporting only a combined amount for income tax and VAT. The Duchy's charter rules that each future Duke of Cornwall will be the eldest son and heir of the Monarch, which is out of line with the Succession to the Crown Act 2013.
