Prodigious Birds Brian Blanchflower The Third Gift Love at Cooper's Creek

Prodigious Birds

Shaw Daily flees corporate life to find solace in the rural Blue Ridge Mountains, but escapism eludes her when her attentions are captured by small town beauty Kate Elkins.

Brian Blanchflower

Prodigious Birds brings together the entire field of moa-related research, some 150 years of enquiry. The moa was a large flightless bird, hunted into extinction by the Maori tribes of New Zealand before the arrival of Europeans. Atholl Anderson brings an historical perspective to the development of moa research and its formative debates, analytical methods and results, reviewing evidence from palaeontology, biology, archaeology, ethnography and history.

The Third Gift

The first two gifts from their leaders made the Jubas a strong and beautiful people, but the third gift was the best of all.
