Lucado Treasury of Bedtime Prayers

The New York Times bestselling, darkly funny memoir of a young New Yorker's daring dual life—advertising art director by day, glitter-dripping drag queen and nightclub beauty-pageant hopeful by night—was a smash literary debut for Josh Kilmer-Purcell, now known for his popular Planet Green television series The Fabulous Beekman Boys. His story begins here—before the homemade goat milk soaps and hand-gathered honeys, before his memoir of the city mouse's move to the country, The Bucolic Plague—in I Am Not Myself These Days, with “plenty of dishy anecdotes and moments of tragi-camp delight” (Washington Post).

Recent studies have tended to seek explanations for the peculiarities of Romano-British architecture in local tradition, but this book shows how Britain embraced and elaborated Hellenistic ideas and spatial forms. Roman houses were built to sustain power, and Roman architecture gained currency in Britain because of its relevance to new political structures erected in the wake of conquest.

THE NIGHT IS WATCHING

"This selection of twenty of Texas' proudest architectural achievements is a tiny sampling of the state's rich, but little-heralded, architectural heritage. The visual presentation of these buildings in Richard Payne's insightful photographs is evidence enough to any student of Texas culture that there are deep and meaningful tracks of our civilization in the state's built environment. . . . In the stones of the Alamo and the steel and glass of our downtown skyscrapers lie the silent embodiment of who we are and where we have been." —from the Introduction Texas architecture has never been, nor is it likely to be in the future, an easily digested whole. This collection, drawn from the 1983 Texas Society of Architects' exhibit "Creating Tomorrow's Heritage," provides a look at twenty of the most interesting responses to the challenges posed by Texas history and geography. It reveals that what Texas architecture lacks in cohesiveness, it more than compensates for in vitality. Variations in circumstance and background, coupled with the kind of freedom which heterogeneity breeds, have produced a lively climate for architectural development in Texas—a place where, in the absence of pat answers, intriguing questions have been raised. The same freedom which has produced a dearth of cohesion has encouraged exploration and invention. The same disparities which have made tidy categorization of historical movements or periods difficult have led to some evocative hybrids—new and telling syntheses which are genuinely of their place. Of interest to anyone who has strolled the Paseo del Rio in San Antonio or admired the dramatically lit State Capitol at night, Landmarks of Texas Architecture is a book to be looked at and enjoyed, a place to start in creating one's own list of architectural favorites. Part of the growing interest in Texas history and culture, Landmarks adds to our understanding of the forces which shaped the Texas of yesterday and will build the Texas of tomorrow.

William Eggleston is synonymous with color photography--or so we think. But the man who almost single-handedly established color photography in the art world with his 1976 Museum of Modern Art exhibition, "William Eggleston's Guide, started out as a black-and-white photographer. It was in the early 1960s that Eggleston first took to the camera, after discovering the work of Walker Evans and Henri Cartier-Bresson, and it was their black-and-white aesthetic that opened his lens. "Precolor presents Eggleston's never-before published black-and-white work, a roadmap for his later hyper-saturated color oeuvre. Eggleston's passion for everyday life, for the uncanny beauty of the mundane, is already evident in his black-and-white photographs. Whether it's a stack of metal chairs, a man at a pay phone, a child perched on a tree, or a teenager on a street corner--Eggleston captures them all with an off-hand elegance, casually endowing the most seemingly insignificant glimpses of life with substance and urgency.

IraqiGirl: Diary of a Teenage Girl in Iraq

Through an innovative and interdisciplinary approach that combines critical sociolinguistic ethnography, multi-modality, reflexivity, and discourse analysis, this groundbreaking book reveals the multiple (and sometimes simultaneous) ways in which individuals engage and invest in representations of languages and identities. This timely work is the first to consider the significance of multilingualism and its relationship to citizenship as well as the development of linguistic repertoires as an essential component of language education in a globalized world. While examining the discourses and interconnections between multilingualism, globalization, and identity, the author draws upon a unique case study of the experiences, voices, trajectories, and journeys of Canadian youth of Italian origin from diverse social, geographical, and linguistic backgrounds, participating in university French language courses as well as training to become teachers of French in the urban, multicultural and global landscape of Toronto, Canada. In doing so, Byrd Clark skilfully illustrates the multidimensional ways that youth invest in language learning and socially construe their multiple identities within diverse contexts while weaving in and out of particularistic and universalistic identifications. This invaluable resource will not only shed light on how and why people engage in learning languages and for which languages they choose to invest, but will offer readers a deeper understanding of the complex interrelationships between multilingualism, identity, and citizenship. It will appeal to researchers in a variety of fields, including applied linguistics, sociolinguistics, language acquisition and linguistic anthropology.

I feel that I have been sleeping all my life and I have woken up and opened my eyes to the world. A beautiful world! But impossible to live in. These are the words of fifteen-year-old Hadiya, blogging from the city of Mosul, Iraq, to let the world know what life is really like as the military occupation of her country unfolds. In many ways, her life is familiar. She worries about exams and enjoys watching Friends during the rare hours that the electricity in her neighborhood is running. But the horrors of war surround her everywhere—weeklong curfews, relatives killed, and friends whose families are forced to flee their homes. With black humor and unflinching honesty, Hadiya shares the painful stories of lives changed forever. “Let’s go back,” she writes, “to my un-normal life.” With her intimate reflections on family, friendship, and community, IraqiGirl also allows us to witness the determination of one girl not only to survive, but to create, amidst the devastation of war, a future worth living for. “Hadiya's authentically teenage voice, emotional struggles and concerns make her story all the more resonant.” —Publishers Weekly “Despite all the news coverage about the war in Iraq, very little is reported about how it affects the daily lives of ordinary citizens. A highschooler in the city of Mosul fills in the gap with this compilation of her blog posts about living under U.S. occupation. She writes in English because she wants to reach Americans, and in stark specifics, she records the terrifying dangers of car bombs on her street and American warplanes overhead, as well as her everyday struggles to concentrate on homework when there is no water and electricity at home. Her tone is balanced: she does not hate Americans, and although she never supported Saddam Hussein, she wonders why he was executed. Readers will appreciate the details about family, friends, school, and reading Harry Potter, as well as the ever-present big issues for which there are no simple answers.” —Hazel Rochman, Booklist “IraqiGirl has poured reflections of her daily life into her blog, reaching all over the cyber-world from her home in northern Iraq. She writes about the universals of teen life—school, family, TV, food, Harry Potter—but always against the background of sudden explosions, outbursts of gunfire, carbombs, death.... [A]n important addition to multicultural literature.” —Elsa Marston, author of Santa Claus in Baghdad and Other Stories About Teens in the Arab World “A book as relevant to adults as teenagers and children. Hadiya’s clear, simple language conveys the feelings of a teenager, offering a glimpse into the daily life of a professional middle-class Iraqi family in an ancient-modern city subjected to a brutal occupation.” —Haifa Zangana, author of City of Widows: An Iraqi Woman's Account of War and Resistance

7 Secrets to Power Praying

Practitioners often say: 'We need to do something differently but are not sure what to do or how to do it' and 'Scientists explain complexity but don't tell you what to do in practical terms'. This book has been written to offer solutions for these practitioners - to provide an Approach for 'putting complexity to work'. Practice is, de facto, determined by changing contexts. In a specific instance, what needs doing will depend on the circumstances, and cannot be bounded or decided in advance. But when most auditors, donors or managers demand tangible, target-driven results within a fixed time frame, how can practitioners convince them that working with the open principles of complexity will lead to more successful and sustainable solutions? This book is not 'yet another' complexity book. What it offers is an in-depth, systematic, Framework that practitioners can use to focus on the

dynamic phenomena already active in their working context, to be able to shape and influence these phenomena 'on the fly'. The authors present six case studies, including the UK Fuel Crisis (2000) and the 2010 Gulf of Mexico Oil Spill. Their Approach reveals a clear understanding of the stresses and strains that were felt throughout the crises and how these might have been handled differently had an appreciation of the underlying complexity been part of standard practice. Drawn from their own experiences and those of other practitioners, and to bridge the gap between theory, experience and practice, the authors have produced a clear and erudite 'bible' for realising the inherent benefits of 'putting complexity to work'.

Oscar Wilde makes a triumphant return to sleuthing in the fifth novel in the critically acclaimed historical murder mystery series based on real events, featuring Wilde as the detective aided by his friend Arthur Conan Doyle, and written by a premier British biographer. Oscar Wilde and the Vatican Murders opens in 1892, as an exhausted Arthur Conan Doyle retires to a spa in Germany with a suitcase full of fan mail. But his rest cure does not go as planned. The first person he encounters is Oscar Wilde, and the two friends make a series of

macabre discoveries among the letters—a finger; a lock of hair; and, finally, an entire severed hand. The trail leads the intrepid duo to Rome, and to a case that involves miracles as well as murder. Pope Pius IX has just died—these are uncertain times in the Eternal City. To uncover the mystery and discover why the creator of Sherlock Holmes has been summoned in this way, Wilde and Conan Doyle must penetrate the innermost circle of the Catholic Church and expose the deadly secrets of the six men closest to the pope. In Gyles Brandreth's captivating and richly atmospheric novel, Wilde's skills as a detective are put to the test in his most compelling case yet.
