The New Cambridge History of Islam

An accessible, transregional exploration of how Islam and Asia have shaped each other's histories, societies and cultures from the seventh century to today.

A History of Islamic Societies

Many non-Muslims have no idea that Muslims worship the same God as Christians and Jews, and that Islam preaches compassion, charity, humility, and the brotherhood of man. And the similarities don't end there. According to Islamic teaching, Muhammad founded Islam in 610 CE after the angel Gabriel appeared to him at Mecca and told him that God had entered him among the ranks of such great biblical prophets as Abraham, Moses, and Christ. Whether you live or work alongside Muslims and want to relate to them better, or you simply want to gain a better understanding of the world's second largest religion, Islam For Dummies can help you make sense of this religion and its appeal. From the Qur'an to Ramadan, this friendly guide introduces you to the origins, practices and beliefs of Islam, including: Muhammad, the man and the legend
The Five Pillars of Wisdom
The Five Essentials beliefs of Islam
The different branches of Islam and Islamic sects
The Qur'an and Islamic law
Islam throughout history and its impact around the world
Professor Malcolm Clark explores the roots of Islam, how it has developed over the centuries, and it's long and complex relationship with Christianity. He helps puts Islam in perspective as a major cultural and geopolitical force. And he provided helpful insights into, among other things: Muhammad, the Qur'an and the ethical teachings of Islam
Muslim worship, customs, and rituals surrounding birth, marriage, and death
Shi'ites, Sunnis, Sufis, Druze, and other important Muslim groups
Islam in relation to Judaism and Christianity
In these troubled times, it is

important that we try to understand the belief systems of others, for through understanding comes peace. Islam For Dummies helps you build bridges of understanding between you and your neighbors in the global village.

History of Islam (Vol 2)

America's Other Muslims: Imam W.D. Mohammed, Islamic Reform, and the Making of American Islam explores the oldest and perhaps the most important Muslim community in America, whose story has received little attention in the contemporary context. Muhammad Fraser-Rahim explores American Muslim Revivalist, Imam W.D. Mohammed (1933–2008) and his contribution to the intellectual, spiritual, and philosophical thought of American Muslims as well as the contribution of Islamic thought by indigenous American Muslims. The book details the intersection of the Africana experience and its encounter with race, religion, and Islamic reform. Fraser-Rahim spotlights the emergence of an American school of Islamic thought, which was created and established by the son of the former Nation of Islam leader. Imam W.D. Mohammed rejected his father's teachings and embraced normative Islam on his own terms while balancing classical Islam and his lived experience of Islam in the diaspora. Likewise his interpretations of Islam were not only American – they were also modern and responded to global trends in Islamic thought. His interpretations of Blackness were not only American, but also diasporic and pan-African.

The Social Origins of Islam

Islamic powers in secular countries have presented a challenge for states around the world, including Indonesia, home to the largest Muslim population as well as the third largest democracy in the world. This book explores the history of the relationships between Islam, state, and society in Indonesia with a focus on local politics in Madura. It identifies and explains factors that have shaped and characterized the development of contemporary Islam and politics in Madura and recognizes and elucidates forms and aspects of the relationships between Islam and politics; between state and society; between conflicts and accommodations; between piety, tradition and violence in that area, and the forms and characters of democratization and decentralization processes in local politics. This book shows how the area's experience in dealing with Islam and politics may illuminate the socio-political trajectory of other developing Muslim countries at present living through comparable democratic transformations. Madura was chosen because it has one of the most complex relationships between Islam and politics during the last years of the New Order and the first years of the post-New Order in Indonesia, and because it is a strong Muslim area with a history of a very strong religious as well as cultural tradition than is commonly understood and is largely ignored in literature on Islam and politics. Based on extensive sets of anthropological fieldwork and historical research, this book makes an important contribution to the analysis of Islam and politics in Indonesia and future socio-political trajectory of other developing Muslim countries experiencing comparable democratic transformations. It will be of interest to academics in the field of Religion and Politics and Southeast Asian Studies, in particular Southeast Asian politics, anthropology and history.

New Perspectives on the Nation of Islam

“Ed Husain has become one of the most vital Muslim voices in the world. The House of Islam could very well be his magnum opus.” -Reza Aslan, #1 New York Times bestselling author of *Zealot* “This should be compulsory reading.” -Peter Frankopan, author of the international bestseller *The Silk Roads Today*, Islam is to many in the West an alien force, with Muslims held in suspicion. Failure to grasp the inner workings of religion and geopolitics has haunted American foreign policy for decades and has been decisive in the new administration's controversial orders. The intricacies and shadings must be understood by the West not only to build a stronger, more harmonious relationship between the two cultures, but also for greater accuracy in predictions as to how current crises, such as the growth of ISIS, will develop and from where the next might emerge. The House of Islam addresses key questions and points of disconnection. What are the roots of the conflict between Sunni and Shi'a Muslims that is engulfing Pakistan and the Middle East? Does the Koran encourage the killing of infidels? The book thoughtfully explores the events and issues that have come from and contributed to the broadening gulf between Islam and the West, from the United States' overthrow of Iran's first democratically elected leader to the emergence of ISIS, from the declaration of a fatwa on Salman Rushdie to the attack on the offices of Charlie Hebdo. Authoritative and engaging, Ed Husain leads us clearly and carefully through the nuances of Islam and its people, taking us back to basics to contend that the Muslim world need not be a stranger to the West, nor our enemy, but our peaceable allies.

The Crucible of Islam

Why does God exist? How have the three dominant monotheistic religions—Judaism, Christianity, and Islam—shaped and altered the conception of God? How have these religions influenced each other? In this stunningly intelligent book, Karen Armstrong, one of Britain's foremost commentators on religious affairs, traces the history of how men and women have perceived and experienced God, from the time of Abraham to the present. The epic story begins with the Jews' gradual transformation of pagan idol worship in Babylon into true monotheism—a concept previously unknown in the world. Christianity and Islam both rose on the foundation of this revolutionary idea, but these religions refashioned 'the One God' to suit the social and political needs of their followers. From classical philosophy and medieval mysticism to the Reformation, Karen Armstrong performs the near miracle of distilling the intellectual history of monotheism into one superbly readable volume, destined to take its place as a classic. Praise for *History of God* “An admirable and impressive work of synthesis that will give insight and satisfaction to thousands of lay readers.”—*The Washington Post Book World* “A brilliantly lucid, splendidly readable book. [Karen] Armstrong has a dazzling ability: she can take a long and complex subject and reduce it to the fundamentals, without oversimplifying.”—*The Sunday Times (London)* “Absorbing . . . A lode of learning.”—*Time* “The most fascinating and learned study of the biggest wild goose chase in history—the quest for God. Karen Armstrong is a genius.”—A.N. Wilson, author of *Jesus: A Life*

Islam and Nazi Germany's War

New Perspectives on the Nation of Islam contributes to the ongoing dialogue about the nature and influence of the Nation of Islam (NOI), bringing fresh insights to areas that have previously been overlooked in the scholarship of Elijah Muhammad's NOI, the Imam W.D. Mohammed community and Louis Farrakhan's Resurrected NOI. Bringing together contributions that explore the formation, practices, and influence of the NOI, this volume problematizes the history of the movement, its theology, and relationships with other religious movements. Contributors offer a range of diverse perspectives, making connections between the ideology of the NOI and gender, dietary restrictions and foodways, the internationalization of the movement, and the civil rights movement. This book provides a state-of-the-art overview of current scholarship on the Nation of Islam, and will be relevant to scholars of American religion and history, Islamic studies, and African American Studies.

However, the relationship between Muslims, Christians, and Jews has not always been marked with animosity; there is also a deep and nuanced history of peace. From the court of caliphs in ancient Baghdad, where scholars engaged in spirited debate, to present-day Dubai, where members of each faith work side by side, Karabell traces the forgotten legacy of tolerance and cooperation these three monotheistic religions have enjoyed—a legacy that will be vital in any attempt to find common ground and reestablish peace.

The book tells the often deeply moving stories of individual Muslims and their lives as immigrants and citizens within the broad context of the American religious experience, showing how that experience has been integral to the evolution of American Muslim institutions and practices. This is a unique and intelligent portrayal of a diverse religious community and its relationship with America. It will serve as a strong antidote to the current politicized dichotomy between Islam and the West, which has come to dominate the study of Muslims in America and further afield.

A History of Conversion to Islam in the United States, Volume 2

This book applies philosophical and critical textual scholarship to the traditional Islamic narrative in an attempt to distinguish between its historical and interpretive elements. It allows the narrative to be preserved with due respect for its significance and distinctiveness, but in a way that frees it from the ease with which

it can slip into the hands of literalists and fundamentalists in order to serve a purpose which is at odds with its original spirit and intention. When radical Islamists use social media to try and convert young followers to a Jihadist cause, they refer often to the narrative about the Prophet, the original Islamic community (Ummah), and the holy book (Qur'an). The references usually imply that these are under threat by infidels, either non-Muslim Westerners or Muslims themselves who follow allegedly errant forms of Islam. The narrative itself is, however, never questioned; it is taken as merely factual with every word to be taken literally, including words that appear intolerant of difference and given to violence. As such, it can serve well the forms of fundamentalism that lie at the heart of radical Islamism and Jihadism. Because of a shortage of critical scholarship about Islam's central narrative, the radical Islamist understanding of it differs too little from that of mainstream Muslims. Neither tends to take sufficient account of the context of the writing, its original purpose or the many interpretive elements that have been overlain. This makes it difficult for mainstream Islamic authorities to counter effectively the radical Islamist discourse or to distinguish moderate and liberal forms of religious practice from radical breakaway forms. In turn, this causes confusion among Muslims, who know the radical Islamists are in error but find it hard to say just why, and even greater confusion and angst among non-Muslims, for whom the allegation that all of Islam is inherently violent and to be feared is clearly being heard by an increasing number. This book sets out to address this problem by applying forms of scholarship that can preserve the best of the Islamic narrative while, at the same time, illustrating just how errant is the radical Islamist understanding of it.
