### Mosaics, Focusing on Essays

In *The Red Tent* Anita Diamant brings the fascinating biblical character of Dinah to vivid life. Her name is Dinah. In the Bible her fate is merely hinted at in a brief and violent detour within the verses of the Book of Genesis that recount the life of Jacob and his infamous dozen sons. Anita Diamant's *The Red Tent* is an extraordinary and engrossing tale of ancient womanhood and family honour. Told in Dinah's voice, it opens with the story of her mothers - the four wives of Jacob - each of whom embodies unique feminine traits, and concludes with Dinah's own startling and unforgettable story of betrayal, grief and love. Deeply affecting and intimate, *The Red Tent* combines outstandingly rich storytelling with an original insight into women's society in a fascinating period of early history and such is its warmth and candour, it is guaranteed to win the hearts and minds of women across the world. 'I genuinely fell into this rich and colourful world and Dinah and Leah have stayed with me as ancestors and sisters brought to life by Anita Diamant's imaginative novel' - Maureen Lipman. Adapted as a TV mini series starring Rebecca Ferguson and Minnie Driver.

### **Hitler and the Holocaust**

Newbery Honor Book! A gorgeously written, hopeful middle grade novel in verse about a young girl who must leave Syria to move to the United States, perfect for fans of Jason Reynolds and Aisha Saeed. Jude never thought she'd be leaving her beloved older brother and father behind, all the way across the ocean in Syria. But when things in her hometown start becoming volatile, Jude and her mother are sent to live in Cincinnati with relatives. At first, everything in America seems too

fast and too loud. The American movies that Jude has always loved haven't quite prepared her for starting school in the US—and her new label of "Middle Eastern," an identity she's never known before. But this life also brings unexpected surprises—there are new friends, a whole new family, and a school musical that Jude might just try out for. Maybe America, too, is a place where Jude can be seen as she really is. This lyrical, life-affirming story is about losing and finding home and, most importantly, finding yourself.

### **Macroeconomics**

Hitler and the Holocaust is the product of a lifetime's work by one of the world's foremost authorities on the history of anti-Semitism and modern Jewry. Robert S. Wistrich begins by reckoning with Europe's long history of violence against the Jews, and how that tradition manifested itself in Germany and Austria in the early twentieth century. He looks at the forces that shaped Hitler's belief in a "Jewish menace" that must be eradicated, and the process by which, once Hitler gained power, the Nazi regime tightened the noose around Germany's Jews. He deals with many crucial questions, such as when Hitler's plans for mass genocide were finalized, the relationship between the Holocaust and the larger war, and the mechanism of authority by which power--and guilt--flowed out from the Nazi inner circle to "ordinary Germans," and other Europeans. He explains the infernal workings of the death machine, the nature of Jewish and other resistance, and the sad story of collaboration and indifference across Europe and America, and in the Church. Finally, Wistrich discusses the abiding legacy of the Nazi genocide, and the lessons that must be drawn from it. A work of commanding authority and insight, Hitler and the Holocaust is an indelible contribution to the literature of history.

## **The Latinos of Asia**

Is race only about the color of your skin? In *The Latinos of Asia*, Anthony Christian Ocampo shows that what "color" you are depends largely on your social context. Filipino Americans, for example, helped establish the Asian American movement and are classified by the U.S. Census as Asian. But the legacy of Spanish colonialism in the Philippines means that they share many cultural characteristics with Latinos, such as last names, religion, and language. Thus, Filipinos' "color"—their sense of connection with other racial groups—changes depending on their social context. The Filipino story demonstrates how immigration is changing the way people negotiate race, particularly in cities like Los Angeles where Latinos and Asians now constitute a collective majority. Amplifying their voices, Ocampo illustrates how second-generation Filipino Americans' racial identities change depending on the communities they grow up in, the schools they attend, and the people they befriend. Ultimately, *The Latinos of Asia* offers a window into both the racial consciousness of everyday people and the changing racial landscape of American society.

"The Definitive Ray Bradbury Book" "I volunteered for the Moorpark College newsroom assignment. The speech changed my life just listening to Bradbury speak. I thought he was the greatest orator I had ever heard and thought to myself, "If he can

write as well as he can talk, I'll read everything he's written and seek out magazines to sell an article about him." Back then (1968), I had started my freelance writing career and was always looking for new ideas. That first Bradbury speech changed my life and his advice gave me my life's philosophy: 'Follow your loves! Don't listen to anyone else—even your own spouse. However, if you have the love of a good spouse and several good friends, you'll be successful. If you don't yet know what you want to do in life, go out and find your loves and you'll have a happy life.'" You'll find this biography may be more of a self-help book and "the definitive Ray Bradbury" revealed like no other book has yet done. Whether you are a science fiction fan, student, attorney, architect, writer, priest, or just a person trying to find your mission on planet Earth, there is a piece of the jigsaw puzzle to your life awaiting you in this book. If you are going on a trip or simply want something to read for a weekend, this book is designed as a quick, entertaining read for all people. And you need not know anything about science fiction to enjoy reading the study of this genius and American icon. Enjoy! -Gene Beley, author

### **The Diary of Anne Frank**

Zanzibar has had the most turbulent postcolonial history of any part of the United Republic of Tanzania, yet few sources have emerged that explain the reasons why. The current political impasse in the islands is a contest primarily over the question of whether to accept and sustain the Zanzibari Revolution of 1964. Defenders of the revolution speak the language of African nationalism and aspire to unify the majority of Zanzibar through the politics of race. Their opponents claim, instead, that the revolution undermined the islands' cosmopolitan cultural heritage and espouse the language of human rights. *Race, Revolution, and the Struggle for Human Rights in Zanzibar*, edited with an introduction by G. Thomas Burgess, will provide scholars and teachers with highly readable first-person narratives in which two African postindependence leaders describe their public and personal achievements, conflicts, failures, and tragedies. They will give students and scholars unique access to life, culture, and politics of Zanzibar.

### **The Working Writer**

*A Wrinkle in Time* is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret

work for the government on the tesseract problem.

### **The Uses of Argument**

INSTANT NEW YORK TIMES BESTSELLER From award-winning actress and political activist America Ferrera comes a vibrant and varied collection of first-person accounts from prominent figures about the experience of growing up between cultures. America Ferrera has always felt wholly American, and yet, her identity is inextricably linked to her parents' homeland and Honduran culture. Speaking Spanish at home, having Saturday-morning-salsa-dance-parties in the kitchen, and eating tamales alongside apple pie at Christmas never seemed at odds with her American identity. Still, she yearned to see that identity reflected in the larger American narrative. Now, in *American Like Me*, America invites thirty-one of her friends, peers, and heroes to share their stories about life between cultures. We know them as actors, comedians, athletes, politicians, artists, and writers. However, they are also immigrants, children or grandchildren of immigrants, indigenous people, or people who otherwise grew up with deep and personal connections to more than one culture. Each of them struggled to establish a sense of self, find belonging, and feel seen. And they call themselves American enthusiastically, reluctantly, or not at all. Ranging from the heartfelt to the hilarious, their stories shine a light on a quintessentially American experience and will appeal to anyone with a complicated relationship to family, culture, and growing up.
