Often overlooked by the staunchest Porsche enthusiasts, the 914 nevertheless continues to grow in popularity among club racers, entry-level collectors, and those who simply want a fun and relatively cheap sports car. This book covers 914 restorations and modifications, whether the goal is a restored stocker, modified street car, or a club racer. A history of the model traces the evolution of the Volkswagen-Porsche collaboration through the mid-1970s, while explaining what to look for when buying a 914 and what to do with it once purchased. Chapters are devoted to repair and restoration and modifications of body and trim, interiors, lighting and electrical, suspension, brakes, engines, fuel systems, transmission, wheels and tires, and detailing for concours participation.

Veronica establishes a religious empire that is ruling over what's left of the world. She creates other beings like herself, which she adopts as children. After training them and teaching them how to utilize their powers and become superior beings capable of healing everything and solving any and every conflict, problems arise. Michal begins using her subtle powers of mind-control to deceive Veronica's children into rebelling against her. Now there are beings just as powerful as Veronica trying to destroy everything. They know her every thought, they can see the future, and they have all the powers that Veronica has. Plus, she loves them more than anything. How does she stop a creature just as powerful as herself without hurting them and proving that this mind-controller was responsible. A more sinister plot unfolds. The Bleeders in Africa are getting stronger and strogner and forming an alliance, besides all of this, the man in charge of running the country, Caophe, who is all the books, has developed a bad sex and drug addiction. Besides all of this, Michal has an even bigger chip she is about to play. She is manipulating Veronica's children to resurrect an even more powerful project. Sherman's first project. Michal revives Project Rain and is mind-controlling him. Everything is being blamed on Veronica and her religious empire. Michal corrupts Religious history and conspiracies to make it look like Veronica is an evil dictator while in secret controlling everyone to do evil. One last thing I forgot to mention. Project Rain's power is the control over the reality of life and death. Whatever he touches, whatever he looks at or breathes on or advances toward, dies. Veronica must face death itself and somehow save the lives of her wicked children.

The Commercial Motor

Details the history of the AC company, which can be traced back to 1904, and the cars themselves, including the pre-war Ace and Aceca as well as the legendary Cobra.

A true story of one of the epic adventures of desert exploration. In 1939 Dr. Cecil Madigan led his party of nine men and nineteen camels into the trackless and waterless Simpson Desert on an exciting mission never before attempted. This is a great Australian story of enterprise, scientific investigation, determination and human courage.

Crossing the Dead Heart

Miniature vintage and classic caravans – otherwise known as `tinies` and `teardrops` – have become hugely popular in recent years, due to their dinkiness and versatility. The good use of compact spaces and the appeal of quality design have always caught Don and Marilyn Jessen's imagination, and their travels have connected them with a wide variety of people at the forefront of the `tinies` and `teardrops` movement. This book pulls together a collection of these small but perfectly formed mobile spaces from across Australia and New Zealand.
