The Last Day's Spiritual Survival Guide

"The most shocking fiction I have read in years. What is shocking about it is both the idea and the sheer imaginative brilliance with which Mr. Shute brings it off."
THE SAN FRANCISCO CHRONICLE They are the last generation, the innocent victims of an accidental war, living out their last days, making do with what they have, hoping for a miracle. As the deadly rain moves ever closer, the world as we know it winds toward an inevitable end.

God is Calling You to Thrive! Turbulent times are all around us, and Bible prophecies foretold centuries ago read like today's news headlines. Should we run for the nearest cave? Face reports boldly but blindly? Resign ourselves to trouble ahead? No! God has always had a survival plan to equip believers for the end times. In Last-Days Survival Guide, author and seasoned student of the Greek Rick Renner delivers rock-solid advice for sailing through turbulent seasons with victory. Rick shares how to supernaturally navigate stormy seas of the last days with the power and insight of the Word of God and the Spirit of God. You'll be strengthened and encouraged as you learn to not only survive but thrive!

The Rookie's Guide to Getting Published

This is the shocking story about the hidden cause of Terrorism. Few seem to be aware of the bloody manifestation moving toward their lives today on main street. The locales are strange, as are the characters in the Nether world around them. The story is high in suspense and action. ANYTHING CAN HAPPEN TO ANYONE ANYWHERE AT ANY TIME. This defining statement of the Age of Terror was put out on the wind in 1990. It has gone around the world, and even into commercials. This book is the amplification of it.

Why the Last Days Matter

There appears to be a distance between the person one presents and the real person hidden beneath the veneer. Many more people from all walks of life have surrendered to their image to achieve recognition, to make ends meet, or to live the quiet life away from all the hullabaloo. One cannot escape one's fate no matter how hard one tries. So perhaps the impossible is possible, "just be yourself." Many laugh behind their breath at this supposition. However, does winning a game or holding onto fractured relationships make your world a flawed yet wholesome endeavor that you can rest your hat on? These are questions we all ask ourselves in our own private lives away from the hardened world around us. Since we only have now, perhaps it is time to feel the disparate sorrows and pitfalls we have created and to walk out into the world anew without all those pent-up preconceived notions that we cannot seem to shed. After all, our egos are as fractured and sullen as everyone around us. It's a new day. Who knows what today will bring? I too fall within this conundrum. My stories reach into what I have seen and experienced throughout my life. I cannot make sense of what the game of life has offered me. Even in America, things are quite bleak when I cannot seem to muster the effort to confront them just because I need to survive like everybody else. It is hard for all of us. So let us drop the supposition that "just go along to get along" is our calling card in this world. After all, it is only a world that we have accepted as the best of all possible worlds (Voltaire). I refuse to accept this as my path. Path? Is not this world a pathless land? My sixteen stories from my new book, *New to the Game*, run over the same conflicts and escapism that many have held

onto over the generations, and yet some daring persons see their own masked reality, feel its searing anguish, and let it fall to touch and feel new worlds—worlds they had no idea existed until they have had enough of their own biased and contrived ideals.

The End of Days Survival Guide

This annotated reference provides information on the copyright status of over 20,000 features, short films, television programs, and documentaries. The United States copyright system allows a film to fall into the public domain if a renewal is not filed in the twenty-eighth year after its release. Such public domain films may be used by anyone for free, but finding out which films are or are not still under copyright can be expensive and tedious. This guide alleviates that expense and drudgery by including all motion pictures registered for copyright in the 1950s, as well as 500 that were received after 1959. The book also includes an overview of the copyright system and sample certificates. All renewals of copyrights are noted, allowing readers to clearly see which items are or are not in the public domain.

The Last Kids on Earth

It is coming. There is no defense, no weapon. There is nothing they can do. In a

time before written words, the secrets of the ancients and the traditions of prehistory were recorded in other ways. In this startling novel, an island community and their trusted leaders are pledged to protect that legacy as their idyllic world falls apart. But how will it all be remembered when the distortions of history begin? Myth and archaeological evidence are the backbone for a narrative explanation of the end of a civilization in a sensitive and fascinating look at a very ancient world.

Bringing Heaven to Earth Because He Has Returned

The book is a new interpretation of the weekly torah reading. It is written from a world view deeply committed to Judaism, which places the responsibility of interpretation and identity on each one of us. The Torah is not in heaven but in the heart and mouth of you and me, to study it and to live by it. Through this book the author tries to involve the reader in the language of the five books of Moses that has been present in our lives for thousands of years. It's a language which is human, universal, moral, historical and national. "My interpretation is one of many and I try to invite the reader or student to argue or to agree, to add or to subtract from my interpretation, or even better to develop their own interpretation and spread it around." Avraham Burg-Author

Last Days Survival Guide

After a half-century of activism, John McConnell, the true founder of Earth Day, here relates his global promotion of peace, justice, and Earth care. Following the Kennedy assassination, McConnell's Minute for Peace gained worldwide attention. This led to his Earth Day and other initiatives aimed at promoting people and planet. In this book, he shares the views that garnered support during the environmental movement from 1969 onward, and that have inspired followers for forty years at annual Earth Day ceremonies at the UN and cities across the globe. John McConnell coined the term Earth Day in 1968, proposed its celebration on the spring equinox to the City of San Francisco in October 1969, and announced it in November at a UNESCO Conference. The City responded by hosting the first Earth Day on March 21, 1970. Margaret Mead, UN Secretary-General U Thant, President Ford, and thirty-three Nobel laureates supported McConnell's Earth Day, and thirty-six worldwide dignitaries signed McConnell's Earth Day Proclamation, supporting Earth Day on the spring equinox, an annual planetary holiday linking people everywhere without regard to politics, culture, national border, or religion. In 1957, after Sputnik, McConnell promoted the Star of Hope, a satellite devoted to peace.

This effort sparked his origination of Earth Day, the Earth Flag, Earth Trustees, and the Earth Magna Charta. He worked with UN officials and other leaders to overcome differences and build common ground for peace, aiming to ensure our planet's future and human survival. This book chronicles his global mission, his life journey, and his unique contributions toward a peaceful and cherished planet.

Last Days Madness

There you are with your grande latte and designer sunglasses pushed up in your hair, wondering what book to buy. Are you ready if the sh*t hits the fan? Your supercomputer cell phone will either set you on fire or won't work at all, and your total lack of preparedness will make you one of the first victims. Just put this one back on the shelf because you don't really believe in this 'Apocalypse' garbage anyway. Your soft hands and sad excuse for a desk job have left you utterly worthless in a survival sense, and the fact that you just looked at your hands

confirms it. There are plenty of safe picture books, with large, simple words that will not intimidate you. Just keep droning on mindlessly at your meaningless job and forget that our existence on this planet could end at a moment's notice.

In the Shadow of the Moon

A visionary and powerful debut thriller set in a terrifyingly plausible dystopian near-future--with clear parallels to today's headlines--in which the future of humanity lies in the hands of one woman, a scientist who has stumbled upon a secret that the government will go to any lengths to keep hidden. A world half in darkness. A secret she must bring to light. It is 2059, and the world has crashed. Forty years ago, a solar catastrophe began to slow the planet's rotation to a stop. Now, one half of the globe is permanently sunlit, the other half trapped in an endless night. The United States has colonized the southern half of Great Britain--lucky enough to find itself in the narrow habitable region left between frozen darkness and scorching sunlight--where both nations have managed to survive the ensuing chaos by isolating themselves from the rest of the world. Ellen Hopper is a scientist living on a frostbitten rig in the cold Atlantic. She wants nothing more to do with her country after its slide into casual violence and brutal authoritarianism. Yet when two government officials arrive, demanding she return to London to see her dying college mentor, she accepts--and begins to unravel a secret that threatens not only the nation's fragile balance, but the future of the whole human race.

The Last Day

“Last Day on Mars is thrillingly ambitious and imaginative. Like a lovechild of Gravity and The Martian, it's a rousing space opera for any age, meticulously researched and relentlessly paced, that balances action, science, humor, and most importantly, two compelling main characters in Liam and Phoebe. A fantastic start to an epic new series.” —Soman Chainani, New York Times bestselling author of the School for Good and Evil series “Emerson's writing explodes off the page in this irresistible space adventure, filled with startling plot twists, diabolical aliens, and (my favorite!) courageous young heroes faced with an impossible task.” —Lisa McMann, New York Times bestselling author of the Unwanteds series It is Earth year 2213—but, of course, there is no Earth anymore. Not since it was burned to a cinder by the sun, which has mysteriously begun the process of going supernova. The human race has fled to Mars, but this was only a temporary solution while we have prepared for a second trip: a one-hundred-fifty-year journey to a distant star,

our best guess at where we might find a new home. Liam Saunders-Chang is one of the last humans left on Mars. The son of two scientists who have been racing against time to create technology vital to humanity's survival, Liam, along with his friend Phoebe, will be on the last starliner to depart before Mars, like Earth before it, is destroyed. Or so he thinks. Because before this day is over, Liam and Phoebe will make a series of profound discoveries about the nature of time and space and find out that the human race is just one of many in our universe locked in a dangerous struggle for survival.

The trek to higher ground is difficult but necessary when one assumes pride of ownership of his or her life. Joseph Perroni hopes his truth and life experiences help others find peace.

Spiritual Survival in the Last Days

On the Beach

What would you do if you were lost in a 2 million-acre mountain wilderness, with no map, no trails, no water, and no way of finding your way home? What would you do if you felt these were your last days alive on Earth and had no one to complete your life with? How would you keep your hope alive and your will to survive strong when your options have run out? How would your relationship with God change if He was the only one you could connect to? These are some of the questions that went through author Blaine Carmans mind as he spent seventeen hours trying to navigate his way back to civilization, after becoming separated from his climbing party on Mt. Shasta, the highest mountain in the contiguous United States. A true story, *My Miracle on Mount Shasta* takes the reader on a personal journey of the physical, emotional, and spiritual challenges that happen when you believe that these might be your last days on Earth. More than just a survival story, *My Miracle on Mount Shasta* addresses the question of what part our individual will really plays, versus surrendering to a greater destiny, in determining what happens with our lives.

ÊIf my present reader happens to be a Boy Scout or a scout-master who wants the scouts to build a tower for exhibition purposes, he can do so by following the directions here given, but if there is real necessity for haste in the erection of this tower, of course we cannot build one as tall as we might where we have more time. With a small tower all the joints may be quickly lashed together with strong, heavy twine, rope, or even wire; and in the wilderness it will probably be necessary to bind the joints with pliable roots, or cordage made of bark or withes; but as this is not a book on woodcraft we will suppose that the reader has secured the proper material for fastening the joints of the frame of this signal-tower and he must now shoulder his axe and go to the woods in order to secure the necessary timber. First let him cut eight straight polesÑthat is, as straight as he can find them. These poles should be about four and one half inches in diameter at their base and sixteen and one half feet long. After all the branches are trimmed off the poles, cut four more sticks each nine feet long and two and a half or three inches in diameter

at the base; when these are trimmed into shape one will need twenty six or seven more stout sticks each four and one half feet long for braces and for flooring for the platform.
