This bibliography is the first comprehensive listing of works on Latino politics, a subject that is rapidly growing in importance as the influence of Latinos in the United States steadily increases. In contrast to other existing bibliographies, this one encompasses all three major U.S. Latino groups: Mexican Americans, Puerto Ricans, and Cuban Americans. The focus within the general arena of Latino politics is on political values, attitudes, mobilization, and leadership, and on public-policy issues. With more than 700 entries from a wide range of disciplines, Latinos and Politics includes virtually every empirically based research piece written on these subjects since 1965, and many significant works of more general interest. The book is divided into four sections : journal articles; books; dissertations; and government publications. All article and dissertation entries are accompanied by abstracts, as are many of the entries in the fourth section. In addition, author and subject indexes help make the bibliography more accessible.--From jacket flap

The Trouble with Unity

This study is the first empirical study of the development of Latino empowerment on the United States political stage, utilizing data collected from voter behavior research, narrative inquiry, participant-observation, interviews, content analysis, case study analysis, case law analysis, and examinations of national and state labor force statistical data. This work should appeal to scholars interested in state and local government, legislative studies, law and courts, public administration, and nonprofit and ethnic studies. events give due cause to be impressed with Latino Americanos: first, the fact that in 2003, Latinos became the United States' largest minority; second, three Latino U.S. Senators, first-time Latino Attorney General and Secretary of Commerce, and female Mexican-born defeats incumbent

native-born Hispanic and MPA graduate for a House seat in the Illinois State General Assembly are all historic events for the Latino community in America. This book is timely, considering significant population shifts in the United States which are redefining the minority, plurality, and majority status of Latinos, by utilizing data collected from voter behavior research, narrative inquiry, participant-observation, interviews, content analysis, case study analysis, case law analysis, and examinations of national and state labor force statistical data.

Latin American Studies Association International Congress

In 1808 Napoleon invaded Spain and deposed the king. Overnight, Hispanics were forced to confront modernity and look beyond monarchy and religion for new sources of authority. Coronado focuses on how Texas Mexicans used writing to remake the social fabric in the midst of war and how a Latino literary and intellectual life was born in the New World.

Everything You Need to Know about Latino History

This encyclopedia provides a comprehensive overview of the evolution of Hispanic American engagement in U.S. politics, from their increased visibility as governors and other lawmakers at the local, state, and federal levels to their growing importance as a voting constituency. • Features two dozen primary documents, including illuminating sources provided both in the original Spanish and in English translations • Contains approximately 300 encyclopedia entries • Gives special attention to the significant diversity of the Latino population in the United States, with a focus on growing communities of Central American and Dominican origin as well as groups of Mexican, Puerto Rican, and Cuban origin • Provides context in historical overview essays that focus specifically on Latino population in their roles as voters and citizens, candidates, and lawmakers in American life • Includes a chronology of events concerning the evolution of Latino American involvement in U.S. politics

British Bulletin of Publications on Latin America, the Caribbean, Portugal and Spain

A collection of essays that explores the lives and cultural contributions of gay Latino men in the United States, and analyzes the political and theoretical stakes of gay Latino studies.

Contemporary Latin American Social and Political Thought

It is well known that Latinos in the United States bear a disproportionate burden of low educational attainment, high residential segregation, and low visibility in the national political landscape. In *Latinos in American Society*, Ruth Enid Zambrana brings together the latest research on Latinos in the United States to demonstrate how national origin, age, gender, socioeconomic status, and education affect the well-being of families and individuals. By mapping out how these factors result in economic, social, and political disadvantage, Zambrana challenges the widespread negative perceptions of Latinos in America and the single story of Latinos in the

United States as a monolithic group. Synthesizing an increasingly substantial body of social science research—much of it emerging from the interdisciplinary fields of Chicano studies, U.S. Latino studies, critical race studies, and family studies—the author adopts an intersectional "social inequality lens" as a means for understanding the broader sociopolitical dynamics of the Latino family, considering ethnic subgroup diversity, community context, institutional practices, and their intersections with family processes and well-being. Zambrana, a leading expert on Latino populations in America, demonstrates the value of this approach for capturing the contemporary complexity of and transitions within diverse U.S. Latino families and communities. This book offers the most up-to-date portrait we have of Latinos in America today.

Latinx

I Am Aztlán

Lessons from Latin America

Cultural Studies. Chicano Studies. In this important new anthology, editors Chon A. Noriega and Wendy Belcher bring together twelve essays by scholars, writers, and artists reflecting on the role of the "I" in Chicano and Latino culture and the diverse ways in which personal voice and experience inform their research. The contributors to I AM AZTLAN include Max Benavidez, Harry Gamboa Jr., Tatiana de la Tierra, Alma Lopez and more. "[I AM AZTLAN] beings a deeper focus to the Quixotesque quests for identity that Chicano writers have been undertaking for generations now. Combining scholarship, testimonio, and chisme, the essays throw open a panoramic view onto mystic and fascinating landscapes of memory and imagination that will help readers envision the collective Latino self"--John Phillip Santos.

Inviting Latino Voters

Provides an overview of Latino culture and history, examining Mexican Americans, Puerto Ricans, and other groups, and discusses such topics as immigration, politics, and social, cultural, and economic trends.

The Latino Question

Latino Americans

A perspective on Latinos - not only as a diverse and growing population in the US with distinct social, cultural and economic features, but as a political force with a collective ethnic identity. It explores the personal identity and resiliency, adaptive strategies, and successes of Latinos.

The New Latino Studies Reader

Latino/a Thought brings together the most important writings that shape Latino consciousness, culture, and activism today. This historical anthology is unique in its presentation of cross cultural writings-especially from Mexican, Puerto Rican, and Cuban writers and political documents-that shape the ideology and experience of U.S. Latinos. Students can read, first hand, the works of authors who most shaped their cultural heritage. They are guided by vivid introductions that set each article or document in its historical context and describe its relevance today. The writings touch on many themes, but are guided by this book's concern for a quest for public citizenship among all Latino populations and a better understanding of racialized populations in the U.S. today.

Latino and Latina Writers

Offers a comprehensive historical overview of the "Latinization" of the United States that has occurred over the past four decades. Brings together the views of some of the foremost scholarly interpreters of the recent history of Latinos in the United States.

The Hispanic Republican

Prev. ed. under title: Latino politics in America.

The Mestizo/a Community of the Spirit

*Winner of the Latino Politics Book Award 2019*While so many Latino/Chicano Americans struggle in pursuit of the 'American dream', while figures such as Donald Trump are accepted in mainstream politics, and scaremongering and paranoia is rife, the need for a vivid, empirically grounded study on Latino politics, culture and society has never been greater. The Latino Question fulfils this need, offering a cutting-edge analysis of the transformative nature of Latino politics in the US. In a radical alternative to dominant ideas, the authors emphasise the importance of political economy for understanding Latino politics, culture and social issues. It draws from original research and a number of critical traditions including the thought of Karl Marx and Antonio Gramsci, to understand the politics of race and ethnicity in a modern capitalist society. Including case studies of how Latino/Chicano communities across the US are not only resisting, but also reinventing and transforming ethnic politics in the age of neoliberalism, this book is required reading for all those hoping to understand the 'Latino question' in contemporary America.

Indigenous Quotient/stalking Words

An illuminating and thought-provoking history of the growth of Hispanic American Republican voters in the past half century and their surprising impact on US politics. In the lead-up to every election cycle, pundits predict that Latino Americans will overwhelmingly vote in favor of the Democratic candidate. And it's true—Latino voters do tilt Democratic. Hillary Clinton won the Latino vote in a "landslide," Barack Obama "crushed" Mitt Romney among Latino voters in his reelection, and, four years earlier, the Democratic ticket beat the McCain-Palin ticket by a margin

of more than two to one. But those numbers belie a more complicated picture. Because of decades of investment and political courtship, as well as a nuanced and varied cultural identity, the Republican party has had a much longer and stronger bond with Hispanics. How is this possible for a party so associated with draconian immigration and racial policies? In *The Hispanic Republican*, historian and political commentator Geraldo Cadava illuminates the history of the millions of Hispanic Republicans who, since the 1960s, have had a significant impact on national politics. Intertwining the little understood history of Hispanic Americans with a cultural study of how post-World War II Republican politicians actively courted the Hispanic vote during the Cold War (especially Cuban émigrés) and during periods of major strife in Central America (especially during Iran-Contra), Cadava offers insight into the complicated dynamic between Latino liberalism and conservatism, which, when studied together, shine a crucial light on a rapidly changing demographic that will impact American elections for years to come.

The Politics of Latino Faith

Literary Nonfiction. Native American Studies. Latino/Latina Studies. Philosophy. In *INDIGENOUS QUOTIENT/STALKING WORDS*, Gómez-Quiñones argues for readers to connect to the intellectual traditions of an ever-present American Indigenous civilization. With this new consciousness of Indigeneity, readers can better understand the intellectual and cultural heritage of all peoples in the Western hemisphere as a continuation of millennia of history and civilization. As such, Gómez-Quiñones demonstrates that Indigenous history is U.S. and Western hemisphere history and vice versa. A critical understanding of this is a necessary requirement for any useful understanding of the history of culture, politics, and economics in the Western hemisphere. Finally, Gómez-Quiñones's essays demonstrate the necessity of the fundamental Indigenous "belief in the interdependence of all life and life sources." This depicts the historic and present responsibility all humans have to each other and their environment.

A World Not to Come

This work models a creative exercise in ecclesiology based on a Latino/a practical theology of the Spirit, which designs theological discourse based on its encounter with the Spirit in human culture. Hence, it is a theology appreciative of and attentive to the "multiple matrices and intersections" of the Spirit with cultures. Garcia-Johnson offers an appreciative and critical analysis of the uses of culture among Latino/a theologians, followed by the proposal for a postmodern Spirit-friendly cultural paradigm based on the narratives of the cross and the Pentecost. He develops a practical theology for a Latino/a postmodern ecclesiology based on three native Latino/a theological concepts: mestizaje, accompaniment, and manana eschatology. The resulting ecclesial construct-The Mestizo/a Community of Manana-reflects a transforming manana vision and models the visible cruciform community in which the transforming praxis and historical transcendence of the Christ-Spirit works from within. The work sets forth practical guidelines for implementation of the ecclesial construct in the urban context of devastated communities and offers suggestions for further development in Latino/a theology.

The Latin American Cultural Studies Reader

This three-volume encyclopedia describes and explains the variety and commonalities in Latina/o culture, providing comprehensive coverage of a variety of Latina/o cultural forms—popular culture, folk culture, rites of passages, and many other forms of shared expression.

Latino Politics in America

Essays by intellectuals and specialists in Latin American cultural studies that provide a comprehensive view of the specific problems, topics, and methodologies of the field vis-a-vis British and U.S. cultural studies.

Latinos in the American Political System: An Encyclopedia of Latinos as Voters, Candidates, and Office Holders [2 volumes]

Garc'a offers a bold new interpretation of identity formation for second-generation immigrants in America. Her qualitative analysis of Mexican American women in higher education reveals the processes by which they negotiate ethnic, gender, and class identities with Mexican immigrant parents and with their university communities. She provides significant insight into the processes of cultural continuity and change. Her new book is an innovative contribution to Mexican American studies, women's studies, multicultural education, and sociology.

Latino(a) Research Review

How did Puerto Ricans, Mexicans, and Cubans become known as “Hispanics” and “Latinos” in the United States? How did several distinct cultures and nationalities become portrayed as one? Cristina Mora answers both these questions and details the scope of this phenomenon in *Making Hispanics*. She uses an organizational lens and traces how activists, bureaucrats, and media executives in the 1970s and '80s created a new identity category—and by doing so, permanently changed the racial and political landscape of the nation. Some argue that these cultures are fundamentally similar and that the Spanish language is a natural basis for a unified Hispanic identity. But Mora shows very clearly that the idea of ethnic grouping was historically constructed and institutionalized in the United States. During the 1960 census, reports classified Latin American immigrants as “white,” grouping them with European Americans. Not only was this decision controversial, but also Latino activists claimed that this classification hindered their ability to portray their constituents as underrepresented minorities. Therefore, they called for a separate classification: Hispanic. Once these populations could be quantified, businesses saw opportunities and the media responded. Spanish-language television began to expand its reach to serve the now large, and newly unified, Hispanic community with news and entertainment programming. Through archival research, oral histories, and interviews, Mora reveals the broad, national-level process that led to the emergence of Hispanicity in America.

Making Hispanics

Over the past decade, much attention has been given to the growing political influence of Latinos in the United States in order to define the so-called "Latino vote." But the existence of a coherent Latino political agenda is highly debatable and likely unviable, as electoral and protest politics erase diversity and debate in favor of images of unity. Situated at the intersection of political theory and Latino studies, *The Trouble with Unity* is the first comprehensive critique of civic Latinidad, analyzing the relationship among participatory democracy, public speech, and racial identification.

Annual Meeting Program

#1 New York Times Bestseller OPRAH'S BOOK CLUB PICK "Extraordinary."
—Stephen King "This book is not simply the great American novel; it's the great novel of las Americas. It's the great world novel! This is the international story of our times. Masterful." —Sandra Cisneros También de este lado hay sueños. On this side, too, there are dreams. Lydia Quixano Pérez lives in the Mexican city of Acapulco. She runs a bookstore. She has a son, Luca, the love of her life, and a wonderful husband who is a journalist. And while there are cracks beginning to show in Acapulco because of the drug cartels, her life is, by and large, fairly comfortable. Even though she knows they'll never sell, Lydia stocks some of her all-time favorite books in her store. And then one day a man enters the shop to browse and comes up to the register with a few books he would like to buy—two of them her favorites. Javier is erudite. He is charming. And, unbeknownst to Lydia, he is the jefe of the newest drug cartel that has gruesomely taken over the city. When Lydia's husband's tell-all profile of Javier is published, none of their lives will ever be the same. Forced to flee, Lydia and eight-year-old Luca soon find themselves miles and worlds away from their comfortable middle-class existence. Instantly transformed into migrants, Lydia and Luca ride la bestia—trains that make their way north toward the United States, which is the only place Javier's reach doesn't extend. As they join the countless people trying to reach el norte, Lydia soon sees that everyone is running from something. But what exactly are they running to? *American Dirt* will leave readers utterly changed. It is a literary achievement filled with poignancy, drama, and humanity on every page. It is one of the most important books for our times. Already being hailed as "a *Grapes of Wrath* for our times" and "a new American classic," Jeanine Cummins's *American Dirt* is a rare exploration into the inner hearts of people willing to sacrifice everything for a glimmer of hope.

Latino/a Thought

Since the early 1980s, Latin American countries have been innovative in a range of policy and cultural experiences, including health care, voting, pensions, and multiculturalism. And yet, their policy innovations are rarely found in textbooks. This book addresses that gap, providing a fascinating and wide-ranging exploration of both the history of "looking down" at Latin America and the political, economic, and cultural "lessons" (including successes, failures, and unintended consequences) that should inform important policy discussions around the world.

Mexicano Political Experience in Occupied Aztlan

Latinos and Politics

While the presence of Latinos and Latinas in mainstream news and in popular culture in the United States buttresses the much-heralded Latin Explosion, the images themselves are often contradictory. *Latino/a Popular Culture* brings together scholars from the humanities and social sciences to analyze representations of Latinidad in a diversity of genres.

Latinos in American Society

The *New Latino Studies Reader* is designed as a contemporary, updated, multifaceted collection of writings that bring to force the exciting, necessary scholarship of the last decades. Its aim is to introduce a new generation of students to a wide-ranging set of essays that helps them gain a truer understanding of what it's like to be a Latino in the United States. With the reader, students explore the sociohistorical formation of Latinos as a distinct panethnic group in the United States, delving into issues of class formation; social stratification; racial, gender, and sexual identities; and politics and cultural production. And while other readers now in print may discuss Mexican Americans, Puerto Ricans, Cubans and Central Americans as distinct groups with unique experiences, this text explores both the commonalities and the differences that structure the experiences of Latino Americans. Timely, thorough, and thought-provoking, *The New Latino Studies Reader* provides a genuine view of the Latino experience as a whole.

Narratives of Mexican American Women

Latin America has produced an impressive body of sociopolitical work, yet these important texts have never been readily available to a wider audience. This anthology offers the first serious, broad-ranging collection of English translations of significant Latin American contributions to social and political thought spanning the last forty years. Iván Márquez has judiciously selected narratives of resistance and liberation; ground-breaking texts in Latin American fields of inquiry such as liberation theology, philosophy, pedagogy, and dependency theory; and important readings in guerrilla revolution, socialist utopia, and post-Cold War thought, especially in the realms of democracy and civil society, alternatives to neoliberalism, and nationalism in the context of globalization. By drawing from an array of diverse sources, the book demonstrates the linkages among important tendencies in contemporary Latin America, allowing the reader to discover common threads among the selections. Highlighting the vitality, diversity, and originality of Latin American thought, this anthology will be invaluable for students and scholars across the social sciences and humanities. Contributions by: Domitila Barrios de Chungara, Leonardo Boff, Ernesto Cardenal, Fernando Henrique Cardoso, Jorge G. Castañeda, Evelina Dagnino, Hernando de Soto, Theotonio Dos Santos, Enrique D. Dussel, Enzo Faletto, Paulo Freire, Eduardo H. Galeano, Ernesto Che Guevara, Gustavo Gutiérrez, José Ignacio López Vigil, Carlos Marighella, Iván Márquez, Rigoberta Menchú, Plinio Apuleyo Mendoza, Carlos Alberto Montaner, Elena Poniatowska, Raúl Prebisch, Carlos Salinas de Gotari, Roberto Mangabeira

Unger, Alvaro Vargas Llosa, and Zapatista Army of National Liberation.

Encyclopedia of Latino Culture

Pundits and commentators are constantly striving to understand the political behavior of Latinos—the largest minority in the United States and a key voting block. As Catherine E. Wilson makes clear in *The Politics of Latino Faith*, not only are Latinos a religious community, but their religious institutions, in particular faith-based organizations, inform daily life and politics in Latino communities to a considerable degree. Timely and discerning, *The Politics of Latino Faith* is a unique scholarly work that addresses this increasingly powerful political force. As Wilson shows, Latino religious institutions, whether congregations or faith-based organizations, have long played a significant role in the often poor and urban communities where Latinos live. Concentrating on urban areas in the South Bronx, Philadelphia, and Chicago, she provides a systematic look at the spiritual, social, and cultural influence Latino faith-based organizations have provided in American life. Wilson offers keen insight into how pivotal religious identity is in understanding Latino social and political involvement in the United States. She also shows the importance of understanding the theological underpinnings at work in these organizations in order to predict their political influences.

Latino History and Culture

EL LIBRO COMPLEMENTARIO DE LA CONOCIDA SERIE DOCUMENTAL DE PBS *Latino americanos* relata la rica y variada historia de los Latinos que han contribuido a darle forma a nuestra nación, y quienes se han convertido --con más de 50 millones de personas-- en la minoría más numerosa de los Estados Unidos. Este complemento de la conocida miniserie de PBS relata, de manera vívida y franca, cómo la historia de los lationamericanos es la historia de nuestro país. El aclamado periodista y autor Ray Suarez explora las vidas de hombres y mujeres latinoamericanos en un periodo de quinientos años, e incluye una gama épica de experiencias que abarca desde los primeros asentamientos europeos al Destino Manifiesto; del Salvaje Oeste a la Guerra Fría; de la Gran Depresión a la globalización; de la Guerra Hispano-Estadounidense al movimiento de los derechos civiles. *Latino americanos* comparte las luchas personales y los éxitos de inmigrantes, poetas, soldados y muchos otros: individuos que han causado un impacto en la historia y aquellos cuyas extraordinarias vidas iluminan la época en que vivieron, así como el legado de estos sensacionales estadounidenses.

American Dirt (Oprah's Book Club)

Latino's increasing numbers and their uncertain voting behaviors have enticed Democrats and Republicans to actively court this demographic group, seeking their partisan identification. Through in-depth interviews with campaign strategists, a quantitative analysis of Latino-oriented television advertisements and a survey of Latino citizens, this project examines these efforts.

Latinos Unidos

Latinos are the fastest growing population in America today. This two-volume encyclopedia traces the history of Latinos in the United States from colonial times to the present, focusing on their impact on the nation in its historical development and current culture. "Latino History and Culture" covers the myriad ethnic groups that make up the Latino population. It explores issues such as labor, legal and illegal immigration, traditional and immigrant culture, health, education, political activism, art, literature, and family, as well as historical events and developments. A-Z entries cover eras, individuals, organizations and institutions, critical events in U.S. history and the impact of the Latino population, communities and ethnic groups, and key cities and regions. Each entry includes cross references and bibliographic citations, and a comprehensive index and illustrations augment the text.

The Columbia History of Latinos in the United States Since 1960

The Emergence of Latino Americanos on the United States Political Stage

The Latinx revolution in US culture, society, and politics "Latinx" (pronounced "La-teen-ex") is the gender-neutral term that covers one of the largest and fastest growing minorities in the United States, accounting for 17 percent of the country. Over 58 million Americans belong to the category, including a sizable part of the country's working class, both foreign and native-born. Their political empowerment is altering the balance of forces in a growing number of states. And yet Latinx barely figure in America's ongoing conversation about race and ethnicity. Remarkably, the US census does not even have a racial category for "Latino." In this groundbreaking discussion, Ed Morales explains how Latinx political identities are tied to a long Latin American history of *mestizaje*--"mixedness" or "hybridity"--and that this border thinking is both a key to understanding bilingual, bicultural Latin cultures and politics and a challenge to America's infamously black-white racial regime. This searching and long-overdue exploration of the meaning of race in American life reimagines Cornel West's bestselling *Race Matters* with a unique Latinx inflection.

Critical Latin American and Latino Studies

Alejandro de la Fuente and George Reid Andrews offer the first systematic, book-length survey of humanities and social science scholarship on the exciting field of Afro-Latin American studies. Organized by topic, these essays synthesize and present the current state of knowledge on a broad variety of topics, including Afro-Latin American music, religions, literature, art history, political thought, social movements, legal history, environmental history, and ideologies of racial inclusion. This volume connects the region's long history of slavery to the major political, social, cultural, and economic developments of the last two centuries. Written by leading scholars in each of those topics, the volume provides an introduction to the field of Afro-Latin American studies that is not available from any other source and reflects the disciplinary and thematic richness of this emerging field.

Afro-Latin American Studies

Gay Latino Studies

This book brings together some of the most prominent scholars working across the spectrum of Latin American and Latino studies to explore their changing intellectual undertaking in relation to global processes of change. *Critical Latin American and Latino Studies* identifies the challenges and possibilities of more politically engaged and theoretically critical modes of scholarly practice. One objective is to provide a brief critical history of the study of various Latin American cultures -- Latino, Chicano, Puerto Rican, among others. But these essays also serve to assess the roles of ethnic and area studies in light of changing scholarly trends, from emphases on gender and sexuality to a focus on postcoloniality and globalization. The result is an important contribution to current debates on the conditions of contemporary knowledge production. Book jacket.

Latino/a Popular Culture

This exciting new volume from Armando Navarro offers the most current and comprehensive political history of the Mexicano experience in the United States. Viewing Mexicanos today as an occupied and colonized people, Navarro calls for the formation of a new movement to reinvigorate the struggle for resistance and change. His book is a valuable resource for social activists and instructors in Latino politics, U.S. race relations, and social movements.
