Management Accounting

The emphasis of Managerial Accounting, 9th edition is on teaching students to use accounting information to best manage an organization. In a practice Hilton pioneered in the first edition, each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. Known for balanced examples of Service, Retail, Nonprofit and Manufacturing companies, Hilton offers a clear, engaging writing style that has been praised by instructors and students alike. As in previous editions, there is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting and performance evaluation.

Accounting

The success of every business in the hospitality industry depends on maximizing revenues and minimizing costs. This Ninth Edition continues its time-tested presentation of fundamental concepts and analytical techniques that are essential to taking control of real-world accounting systems, evaluating current and past

operations, and effectively managing finances toward increased profits. It offers hands-on coverage of computer applications and practical decision-making skills to successfully prepare readers for the increasingly complex and competitive hospitality industry.

Managerial Accounting 11E W/Dvd

Introduction to Financial Accounting

For non-accountant hospitality managers, accounting and financial management is often perceived as an inaccessible part of the business, yet understanding is crucial for success. Using an 'easy to read' style, this book provides a comprehensive overview of the most relevant accounting information for managers. It demonstrates how to organise and analyse accounting data to help make informed decisions with confidence. With its highly practical approach, this book:

- Quickly develops the reader's ability to adeptly use and interpret accounting information to further organisational decision making and control
- Demonstrates how an appropriate analysis of financial reports can drive your business strategy forward from a well-informed base
- Develops mastery of the key accounting concepts through financial decision making cases that take a hospitality manager's perspective on an issue
- Sets financial problems in the context of a range of countries and currencies
- Includes two new chapters on internal control and performance management
- Offers further resources at Textbooks.Elsevier.com including a suite of worked contextualised cases in Tourism, Events and Sport Management

The all new companion website includes the suite of contextualised examples, PowerPoint lectures aligned to each chapter, solutions to all end-of-chapter problems, a student revision test bank and a password protected test bank available to lecturers who adopt this book as required student reading. These resources are SCORM compliant and compatible with institutions' Learning Management Systems. Dr. Chris Guilding is professor of Hotel management at Griffith University. He is a qualified member of the Chartered Institute of Management Accountants and has held full time lecturing positions in universities in Australia, Canada, England and New Zealand. His research interests concern accounting applications in the hospitality sector and he has more than 40 refereed publications in a range of top journals that span the accounting, hospitality and tourism management fields.

KEY FEATURES

- * includes two new chapters on internal control and performance management, covering the increasingly important balanced scorecard
- * develops mastery of the key accounting concepts through financial decision making cases that take a hospitality manager's perspective on an issue
- * develops familiarity of financial problems in the context of a range of countries and currencies, including coverage of key accounting terms and financial statement types used in different countries
- * makes key concepts accessible

"Introduction to Managerial Accounting," 5/e by Brewer/Garrison/Noreen is based on the market-leading text, "Managerial Accounting," by Garrison, Noreen and

Brewer. However, this is not simply a briefer book with chapters removed; Brewer 5e has been rethought and retooled to meet the needs of the market. Brewer 5e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

Organizational Communication

Hilton/Maher/Selto (HMS) addresses traditional cost concepts, but makes cost accounting functional by focusing on measuring and managing costs. HMS maintains that, "Costs don't just happen," and with a pro-active approach toward costs, accountants can add value to an organization. Faculty will appreciate the new and more conventional chapter organization in the first two sections of the text. The real-world approach of this text, including the use of focus companies and the new accompanying focus sites, provides a realistic business environment, and aids in student comprehension and interest in the subject.

Accounting Theory

Introduction to the Practice of Statistics is the classic textbook for teaching

statistics. This textbook shows students how to produce and interpret data from real-world contexts, guiding them through the type of data gathering and analysis that working statisticians do every day. With this phenomenally successful approach developed by David Moore and George McCabe, statistics is more than just a collection of techniques and formulas. Instead, students develop a way of thinking about data with a focus on problem-solving that helps them understand concepts and master statistical reasoning. Part of the best-selling Moore family of statistics books, Introduction to the Practice of Statistics is designed for a two-semester 'introduction to statistics' course and offers a rigorous introduction to the subject. This textbook is available on LaunchPad, which combines an interactive ebook with multimedia content and assessment tools, including LearningCurve adaptive quizzing. See 'Instructor Resources' and 'Student Resources' for further information.

Garrison - Your guide through the challenging waters of managerial accounting. For centuries, the lighthouse has stood as a beacon of guidance for mariners at sea. More than an aid to navigation, the lighthouse symbolizes safety, permanence, reliability, and the comforts of the familiar. For this reason, we have chosen to illustrate the Canadian eighth edition of Managerial Accounting by Garrison, Chesley, Carroll and Webb with an image that encapsulates the greatest strengths of this market leading text. Garrison is your guide through the challenging waters of managerial accounting. It identifies the three functions managers must perform within their organizations—plan operations, control activities, and make decisions—and explains what accounting information is necessary for these functions, how to collect it, and how to interpret it. Managerial Accounting 8ce focuses, now as in the past, on three qualities: Relevance, Balance and Clarity. The authors' steady focus on these core elements has led to tremendous results! As seafarers look to the lighthouse for direction along unfamiliar shore, so too can Garrison act as a compass for students seeking to master this course.
