This gifted and talented test preparation book contains a full-length CogAT(R) Form 7 Grade One practice test, which provides gifted and talented CogAT test preparation for First Grade students. This Level 7 (Grade 1) test will prepare your child for the Cognitive Abilities Test (CogAT(R)), an exam used for admission to US gifted and talented programs, including in the San Diego Unified School District GATE program, Houston Vanguard schools, and Chicago programs for the education of the gifted. The questions in this CogAT practice test were created by educators who have prepared many children for gifted and talented tests. They cover all three of the test's sections (nine question types) so you can help your student improve the logical and visual reasoning skills required to excel on the CogAT test. By using

this gifted workbook, your student can get used to the format and content of the CogAT(R) Grade 1 test so he or she is adequately prepared and feels confident on test day. This practice test contains all nine question types on the Level 7 CogAT, including: Verbal (Picture Analogies, Sentence Completion, Picture Classification ) Quantitative (Number Analogies, Number Puzzles, Number Series) Figurative (Figure Matrices, Paper Folding, Figure Classification) We suggest you use the practice test as a diagnostic to identify your child's strengths and weaknesses, or as a 'mock' exam to simulate real testing conditions. In the latter case, we recommend that you have your child take the test in timed conditions over the course of a few days, as per the instructions in the book.

What's Inside this CogAT Test Prep Book? A full-length CogAT Form 7 Level 7 practice test, containing 136 practice questions. Access to bonus online 'challenge' questions. Detailed descriptions of questions and answer keys. Essential test prep strategies to help students avoid mistakes and achieve their best score. This is the best value you will find for CoGAT prep!

Who can use this CogAT(R) Prep Guide and Practice Test? Gifted and Talented Test Preparation for 2nd Grade: The standardized test prep workbook is for 1st grade students who are taking the CogAT test to gain admission to Grade 2 gifted and talented programs. Gifted and Talented Test Preparation for 1st Grade Kindergarten students can also use this practice test to develop and hone cognitive skills that will be tested in 1st grade for admission to 2nd grade gifted and talented programs. Why use our books? Our goal is to provide you with the very best CogAT test prep materials, and the best value for your money. We

created our test prep material because we could not find enough good practice material to effectively prepare students for gifted and talented tests. As tutors and teachers, we have used various test prep books and have found that they either have an incorrect difficulty level or are overly expensive. After studying original materials from test creators and testing them on children, we are confident our materials and tests reflect the real CogAT(R) both in difficulty and in structure

### **9th Grade Math MCQs**

A companion series to our "Competitive Mathematics for Gifted Students," the series "Math Challenges for Gifted Students" offers additional material in practice test form. The workbooks are useful for assessment and for development of testing skills. In full color and with fully detailed solutions, the workbooks may be used as a fun introduction to competitive problem solving. However, the problems are a bit more difficult than actual Kangaroo problems, exploring a large number of known 'tips and tricks.' One could say it is much more concentrated in that, unlike actual exams, it has less 'filler' - almost every problem is 'tricky' and embodies a specific strategy. The material is excellent for training purposes and has been used by the authors in seminars with hundreds of the most gifted students in the Bay Area. The workbook contains six 24-question tests. After each test there is an answer key. The tests are followed by detailed solutions. The

recommended time limit for each test is of 75 minutes. Students who have not been exposed to competitive problem solving will find this book extremely difficult and will need help from an adult. Without preparation, students who get 'A' in school generally score about 50 points out of 96 possible on Kangaroo level 1-2.
