Color and Mastering for Digital Cinema explores the implications for motion picture post production processes and changes required to the supporting equipment and software. While a new concept to the motion picture community, the selection of the wide gamut, output-referred XYZ color space for digital cinema distribution is based on decades of color science and experience in other industries. The rationale for choosing XYZ and the other color encoding parameters is explained and the book also provides a full case study of the development of DLP Cinema® projectors by Texas Instruments. Finally, this book explores how the XYZ color encoding concept can be extended to support enhanced display technologies in the future. This book contains: \*

- Brilliant 4-color illustrations that compliment the color science explanations
- Never before published industry information from author Glenn Kennel, a world leader in digital cinema color technology
- Descriptions of key issues and background on decisions that were made in the standardization process

By Glenn Kennel, Glenn Kennel is VP/GM of Feature Film Services at Laser Pacific Media Corporation, a leading provider of a full range of post production services for television and feature film. Recently, he worked for the DLP Cinema group of Texas Instruments in a role that included technology

and business development. Previously, in a twenty year career with Kodak, he led the development of the Cineon digital film scanners and laser recorders and the prototype HDTV telecine that became the Spirit Datacine. As a consultant, he helped DCI draft the technical specifications for digital cinema. Kennel also chairs the SMPTE DC28 Color ad hoc group and the DC28.20 Distribution working group. He is a SMPTE Fellow and has received the SMPTE Journal Award. He is also a member of the Academy of Motion Picture Arts and Sciences.

Since the emergence of Western philosophy and science among the classical Greeks, debates have raged over the relative significance of biology and culture on an individual's behavior. Today, recent advances in genetics and biological science have

pushed most scholars past the tired nature vs. nurture debate to examine the ways in which the natural and the social interact to influence human behavior. In *What's Normal?*, Allan Horwitz brings a fresh approach to this emerging perspective. Rather than try to solve these issues universally, Horwitz demonstrates that both social and biological mechanisms have varying degrees of influence in different situations. Through case studies of human universals such as incest aversion, fear, appetite, grief, and sex, Horwitz first discusses the extreme instances where biology determines behavior, where culture dominates, and where culture overrides basic biological instincts. He then details the variety of ways in which genes and environments interact; for instance, the primal drive to eat and store calories when food supplies were scarce creates serious problems in a society where food is abundant and obesity stigmatized. Now that it's often easier to change our biology rather than our culture, an understanding of which behaviors and traits are simply normal or abnormal, and which are pathological or necessitate treatment is more important than ever. Wide-ranging and accessible, *What's Normal?* provides a crucial guide to the biological and social bases of human behavior at the heart of these matters.

### **Surviving Colton**

Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry's most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music's heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most

successful label of the era. And, as the company's president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of "Sexual Healing"—share the same woman, and of how Walter bonds with Bob Dylan because of

their mutual Jewishness. At the same time we witness Yetnikoff's clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You'll Never Eat Lunch in this Town Again* of the music industry.

"HOURS SPENT IN PRISON." By Gorky, Andreyeff, and Korolenko. This title is the heading of a book, which gives a few biographical words about the poor and sad existence of three authors who represent the literary talent of contemporary Russia. It is a curious fact that under the stringent censorship of Nicholas I there were great writers, like Pushkin, Gogol, Lermontoff, etc., and that most of them belonged to the higher strata of society. At present the Russian Press itself is notorious for its license, but talented authors are scarce, and mostly of low origin, who, on

principle, describe the slums. Gorky's "Song about a Hawk" is an allegory, and the "Destroyed Dam" is a poetical picture of the raging sea, probably suggesting a surging crowd overpowering tyranny. "Pogrom" is a ghastly representation of how the Russian mob slaughtered and robbed Jews. No reasons are, however, given why they did it. Cossacks and policemen come on the scene to save the situation. Now the mob began to climb the wall, and so invaded the courtyards. The Cossacks surrounded the flying crowd. A few moments ago these men had been mercilessly tormenting and killing wretched men, human beings like themselves. In a few seconds the same murderers had become nothing more than frightened, trembling cowards, who were trying to escape over any wall that was possible. If true, this suggests that the Jews are passive, the Russian mob ferocious and brutal, while the authorities represented by Cossacks and police are supine. Andreyeff's "An Abyss" is offensive and revolting, even for this decadent author; while the substance of "Marseillaise" is a description of a silly, feeble boy, who is unjustly imprisoned, but is supposed to become a hero because, when dying, he asks the other prisoners, who used to deride him, to sing the "Marseillaise" over him instead of reading a prayer for his burial service. Last, but not least, we have Vladimir Korolenko's "Strange Character" (from Personal Remembrances), a touching story of a soldier who had to watch a lady, evidently persecuted and exiled for being a sectarian. The story is remarkable for its simplicity and hidden meaning. Korolenko is very popular among the peasant class in Russia, and his books are more read in village circulating libraries

(where such landmarks of civilization exist) than the works of other authors, whose eminent names are better known in Western Europe. - "Proceedings by Anglo-Russian Literary Society" [1908]

In Korea in the early 1800s, news from the countryside reached the king by means of signal fires. On one mountaintop after another, a fire was lit when all was well. If the king did not see a fire, that meant trouble, and he would send out his army. Linda Sue Park's first picture book for Clarion is about Sang-hee, son of the village firekeeper. When his father is unable to light the fire one night, young Sang-hee must take his place. Sang-hee knows how important it is for the fire to be lit-but he wishes that he could see soldiers . . . just once. Mountains, firelight and shadow, and Sunhee's struggle with a hard choice are rendered in radiant paintings, which tell their own story of a turning point in a child's life.
