Have you ever dreamt of becoming an infallible seducer of women? This book tells you everything you need to know, courtesy of the world's only major female PUA (pick-up artist), Kezia Noble! Unknown until a couple of years ago, Kezia was approached by the organisers to attend a PUA class meeting. She gave it to the other attendees straight, not caring if she offended anyone; the men took it on the chin and took her constructive criticisms on board. Within days and weeks they were trying out her suggested techniques and starting to become more successful with women. Kezia returned to the PUA classes and started to make a name for herself. Kezia Noble is the first woman to offer the aspiring pick-up artist advice on how to attract women from a woman's point of view. She now runs many classes and a workshop, and even produces corporate videos on the chemistry of attracting women. Now, in answer to requests from her students, Kezia has written a book on the 15 steps to becoming a master seducer - which will also prove an invaluable aid to men who cannot afford her classes, who work too far away or don't have enough time. The Noble Art of Seducing Women is the first and only

An artisan perfumer reveals a lost art and its mysterious, sensual history. For centuries, people have taken what seems to be an instinctive pleasure in rubbing scents into their skin. Perfume has helped them to pray, to heal, and to make love. And as long as there has been perfume, there have been perfumers, or rather the priests, shamans, and apothecaries who were their predecessors. Yet, in many ways, perfumery is a lost art, its creative and sensual possibilities eclipsed by the synthetic ingredients of which contemporary perfumes are composed, which have none of the subtlety and complexity of essences derived from natural substances, nor their lush histories. *Essence and Alchemy* resurrects the social and metaphysical legacy that is entwined with the evolution of perfumery, from the dramas of the spice trade to the quests of the alchemists to whom today's perfumers owe a philosophical as well as a practical debt. Mandy Aftel tracks scent through the boudoir and the bath and into the sanctums of worship, offering insights on the relationship of scent to sex, solitude, and the soul. Along the way,

"This Life Is Joy is an extraordinary new book by one of the most admired spiritual teachers in the country. In this book, Dr. Roger Teel shows us how every moment, experience, and person can be an opening for our soul. Separated into three easy-to-use parts, this book will-

- Tell a fable that puts our spiritual journey into context
- Discuss the seven spiritual principles that are universal to the world's wisdom traditions
- Show how nine specific challenges and difficulties (such as fear, illness, and change) can be transformed from stumbling blocks into stepping stones

Filled with advice that can come only from a lifetime of practicing these traditions, this book will be an indispensable guide to people who want more from their lives."

When a bottle of whiskey is found amid the ruins of a centuries-old ship uncovered at the Ground Zero construction site, Samuel Dugranval, a.k.a "The Flying Distiller," is immediately intrigued. Along with his lab assistant, David Dubehash, he'll stop at nothing for a taste of the treasure and a glimpse of the ancient recipe. Already deep in their hunt for answers, Samuel and David are abruptly interrupted when tragedy strikes-their friend, master distiller, and titan of the bourbon industry, Woody Campbell, is dead-his body found in the fermentation room of a Japanese competitor. In a world of musky backrooms, high-end and high-stakes liquor, and secret-sauce recipes dating back to the birth of America itself, nothing is certain and everyone has something to hide. Based largely on real-life characters in the business and chock-full of details on the art and history of distilling from a true master of the trade, "In Hot Waters" is a book to be read in front of a roaring fire with a stiff drink in hand-and the doors locked behind you.

Informed by twenty years of experience on the flats, Rod Hamilton and Kirk Deeter describe the allure of matching wits with one of fly fishing's most elusive targets and discuss the reasons why more and more fly fishermen are seeking the challenge of catching bonefish without the aid of a guide. Do It Yourself Bonefishing is packed with useful tips to help all levels of fly fishermen locate and catch more of one of the world's premier gamefish. Learn stalking strategies, how to spot bonefish, appropriate fly selection, and where to find the fish. As you plan your bonefishing trip, the authors' destination chapters and "Seven-Day Sample Trip" itineraries suggest where to fish, how to get there, and places to stay. Included is a list of more than 300 individual bonefish hotspots located throughout the tropics, complete with maps and tips specific to the flat or creek system. Within the "Spousal Rating" section are Hamilton's opinions on how suitable the destination is for nonfishers; the "Nonfishing Activities" section highlights things to do when not fishing. Whether you need help deciding where to go or simply desire greater success while wading on your own, Do It Yourself Bonefishing is where you should start.

Winner of the 2015 James Beard Award for Best Beverage Book and the 2015 IACP Jane Grigson Award. A revolutionary approach to making better-looking, better-tasting drinks. In Dave Arnold's world, the shape of an ice cube, the sugars and acids in an apple, and the bubbles in a bottle of champagne are all ingredients to be measured, tested, and tweaked. With Liquid Intelligence, the creative force at work in Booker & Dax, New York City's high-tech bar, brings readers behind the counter and into the lab. There, Arnold and his collaborators investigate temperature, carbonation, sugar concentration, and acidity in search of ways to enhance classic cocktails and invent new ones that revolutionize your expectations about what a drink can look and taste like. Years of rigorous experimentation and study—botched attempts and inspired solutions—have yielded the recipes and techniques found in these pages. Featuring more than 120 recipes and nearly 450 color photographs, Liquid Intelligence begins with the simple—how ice forms and how to make crystal-clear cubes in your own freezer—and then progresses into advanced techniques like clarifying cloudy lime juice with enzymes, nitro-muddling fresh basil to prevent browning, and infusing vodka with coffee, orange, or peppercorns. Practical tips for preparing drinks by the pitcher, making homemade

sodas, and building a specialized bar in your own home are exactly what drink enthusiasts need to know. For devotees seeking the cutting edge, chapters on liquid nitrogen, chitosan/gellan washing, and the applications of a centrifuge expand the boundaries of traditional cocktail craft. Arnold's book is the beginning of a new method of making drinks, a problem-solving approach grounded in attentive observation and creative techniques. Readers will learn how to extract the sweet flavor of peppers without the spice, why bottling certain drinks beforehand beats shaking them at the bar, and why quinine powder and succinic acid lead to the perfect gin and tonic. Liquid Intelligence is about satisfying your curiosity and refining your technique, from red-hot pokers to the elegance of an old-fashioned. Whether you're in search of astounding drinks or a one-of-a-kind journey into the next generation of cocktail making, Liquid Intelligence is the ultimate standard—one that no bartender or drink enthusiast should be without.
