Minnow and Rose

I Am Not a Tractor! celebrates the courage, vision, and creativity of the farmworkers and community leaders who have transformed one of the worst agricultural situations in the United States into one of the best. Susan L. Marquis highlights past abuses workers suffered in Florida's tomato fields: toxic pesticide exposure, beatings, sexual assault, rampant wage theft, and even, astonishingly, modern-day slavery. Marquis unveils how, even without new legislation, regulation, or government participation, these farmworkers have dramatically improved their work conditions. Marquis credits this success to the immigrants from Mexico, Haiti, and Guatemala who formed the Coalition of Immokalee Workers, a neuroscience major who takes great pride in the watermelon crew he runs, a leading farmer/grower who was once homeless, and a retired New York State judge who volunteered to stuff envelopes and ended up building a groundbreaking institution. Through the Fair Food Program that they have developed, fought for, and implemented, these people have

changed the lives of more than thirty thousand field workers. I Am Not a Tractor! offers a range of solutions to a problem that is rooted in our nation's slave history and that is worsened by ongoing conflict over immigration.

A Very, Very Noisy Tractor

A Calculus two exam at 7:30 a.m. is insane was my thought as I sat down to breakfast in the LSU Union hall. I looked up at one of the TVs just in time to see the second plane crash into the World Trade Center. My heart sank to my toes. I thought, as a truck driver in the Louisiana National Guard, active duty consisted of dealing with hurricanes and floods, not war. That is what the Army is for. I'm still in school. Perhaps my contract will be up in time. National Guard truck drivers are not war heroes. Little did I know that a phone call in the middle of a blind date would prove me so wrong. Now that an active-duty deployment to Iraq is in my future, my concern is, Will I be the same person when I come back? From the Journals I kept daily, this is a "Walk in My Boots".

For their father's intended is a voluptuous old-country gold digger with a proclivity for green satin underwear and an appetite for the good life of the West. As the hostilities mount and family secrets spill out, *A Short History of Tractors in Ukrainian* combines sex, bitchiness, wit, and genuine warmth in its celebration of the pleasure of growing old disgracefully.

Chilton Tractor Journal

One day, a terrible thunderstorm knocked down the giant mesquite tree that grew in the town square. After the storm, the townspeople gathered to gawk at the large obstruction blocking the street. They weren't sure what to do with it, but they all agreed that the wood was good for nothing except a fire. But the woodcutter Tomas sees something in the huge tree that the rest of the townsfolk don't. "The beauty of this tree is not on the outside but on the inside." Tomas tells them. In the following days, everyone watches curiously as the woodcutter carves and chips and whittles the wood into blocks. At one point, he moves the chunks into his shed, increasing everyone's curiosity. What could the woodcutter be doing with all that lumber? Finally, Tomas calls the townsfolk together to see his creations: a wonderful collection of life-sized animals for the children to enjoy. Children and adults alike are thrilled with their private zoo! But a few weeks later the woodcutter is visited by strangers from a folk art museum who want to buy the pieces for their collection. Will Tomas sell the town's new zoo animals so that others can enjoy them too?
