Explore My World: Lions

A young, orphaned chimpanzee must start at a new school, where he will learn how to climb and build his confidence. Stunning photographs from award-winning photographer Gerry Ellis are sure to captivate young readers and raise awareness about chimps and the threats they face. Little Larry is an orphaned chimpanzee who doesn't know much about being a chimp. He has to go to his first day at the forest school to learn what chimp life is all about. Nestled in a primate sanctuary in Cameroon, Little Larry and his group of chimp friends go to the school each day to learn how to play, communicate, and climb like they would if they were chimps in the wild. The only trouble is, Little Larry doesn't want to learn how to climb. He's perfectly happy on the ground. Will the sanctuary keepers and other chimpanzees be able to teach Little Larry how to climb so he can graduate from forest school? This sweet story, with its beautiful photographs, explores the challenges of going to school, learning, and gaining confidence in yourself. This is a perfect read-aloud tale for children reluctant to try new things, preparing to enter kindergarten, or starting preschool for the very first time.

The Navajo Code Talkers

Young readers learn about the characteristics, behavior, diet, and life cycle of elephants as they follow Liza, a real-life baby elephant in the African desert.

The Elephant Scientist

A science and nature biography of Cynthia Moss, the elephant expert, by the author of Caldecott Honor book *One Cool Friend* Cynthia Moss was never afraid of BIG things. As a kid, she loved to ride through the countryside on her tall horse. She loved to visit faraway places. And she especially loved to learn about nature and the world around her. So when Cynthia traveled to Africa and met the world's most ENORMOUS land animal, the African elephant, at Amboseli National Park in Kenya, she knew she had found her life's work. Cynthia has spent years learning everything she can about elephants and sharing these fascinating creatures with the world. She is a scientist, nature photographer, and animal-rights activist, fighting against the ivory poachers who kill so many elephants for their tusks. This lyrical and accessible picture book gives kids a glimpse of what scientists do in the real world and inspires them to dream of accomplishing BIG things.

The Elephant Keeper

This adorable new title from Emmy Award-winning singer-songwriter (and animal lover) Parry Gripp shows us the magical world of furry friendship and teaches young readers to be kind to animals of all shapes and sizes. Through adorable, uplifting photographs, and sweet, silly text, kids will learn not only how to interact with animals, but also just what makes you a good friend for your fuzzy, feathered, or scaly new bud. This fun book will inspire young animal lovers to understand their perfect new pal, giving kids lessons on being gentle with pets, making sure to care and love them, how to be patient, and more. Lyrical text illustrates the fun and companionship that dogs, cats, lizards, fish, rabbits, and all sorts of animal friends can offer. Parents and families considering or who've just gotten a new pet will have fun sharing and learning all about animals together. Plus, turn each page and sing along with Parry with an original song and music video!

Chained

A picture book biography by an award-winning team about the first woman to ride a motorcycle around the world One day, a girl gets on her motorcycle and rides away. She wants to wander the world. To go . . . Elsewhere. This is the true story of the first woman to ride a motorcycle around the world alone. Each place has something to teach her. Each place is beautiful. And despite many flat tires and falls, she learns to always get back up and keep riding. Award-winning author Amy Novesky and Governor General's Award-winning illustrator Julie Morstad have teamed up for a spectacular celebration of girl power and resilience.

The Manual of Ideas

Africa is not an easy place to live, even for the enormous elephants that call it home. Foraging for food and water and fighting off predators are only a few of the many skills that these giants must acquire as part of the long learning process that begins immediately after birth. Thankfully, they have a large familial network in place to teach them how to wash and drink and whiffle and roar--everything they need to know about how to be an elephant. Award-winning author-illustrator Katherine Roy's *How to Be an Elephant* delves into the intricate family dynamics at play in a typical African herd. Emphasizing the latest available research with lush watercolor illustrations and detailed diagrams, Roy vividly portrays the life and development of an elephant from an uncertain 220-pound newborn into a majestic, 7,000-pound matriarch. As informative as it is beautiful, this unique portrait of an elephant's life will captivate young explorers and their parents alike. David Macaulay Studio.

Universal Dictionary of the English Language

The most significant shift in environmental governance over the last thirty years has been the convergence of

environmental and liberal economic norms toward "liberal environmentalism"—which predicates environmental protection on the promotion and maintenance of a liberal economic order. Steven Bernstein assesses the reasons for this historical shift, introduces a socio-evolutionary explanation for the selection of international norms, and considers the implications for our ability to address global environmental problems. The author maintains that the institutionalization of "sustainable development" at the 1992 United Nations Conference on Environment and Development (UNCED) legitimized the evolution toward liberal environmentalism. Arguing that most of the literature on international environmental politics is too rationalist and problem-specific, Bernstein challenges the mainstream thinking on international cooperation by showing that it is always for some purpose or goal. His analysis of the norms that guide global environmental policy also challenges the often-presumed primacy of science in environmental governance.

The Sisters Vol. 2

A witty jungle romp for the adventurer in every kid Safari etiquette can be tricky. Fortunately, our trusty narrator can help. Sort of. From what to do if an elephant stands on your foot ("Keep calm. Panicking will only startle it!") to how to escape the attentions of a crocodile ("Well? What are you waiting for? Wave your arms around and shout for help!"), our plucky guide leads our unlucky hero on a jungle adventure, barely avoiding tigers, a rhino, snakes, and--uh-oh. What's that? Well thank heavens the monkeys are friendly at least! Debut author Michelle Robinson teams with bestseller Peter H. Reynolds for a Monster at the End of This Book-style romp, culminating in a hilarious finish that will send readers--and our hapless hero--right back to the beginning for more.

Wendy and Maureen continue their sisterly shenanigans and manage to not kill each other as they continue to act like sisters. Can you imagine what would happen if they didn't love each other? While their friends know to stay out of the sisters' way while they're going at it, they also know what a good time can be had just by standing back and seeing what they'll do next! It'll surprise you—or worse, it will remind you of you and your sister!

The American Bookseller

After losing her mother, shy Natumi is rescued by a team from the David Sheldrick Wildlife Trust, an orphanage for baby elephants. At the shelter, Natumi hides behind keepers' legs to watch the other elephants at the shelter. But soon, she meets several other orphans, and the eight of them play together in the surrounding bush. As the babies become closer and more like a real family, they need a leader, someone they can trust. Can Natumi grow into this role? Join the herd to find out what happens when they travel back into the wild. This sweet story, with its heartwarming photographs, explores the challenges and joys of family, love, and growing up, and is a perfect bedtime tale.

Energy and Water Development Appropriations for 1994

Read Along or Enhanced eBook: Elephants never forget During a drought in Tanzania, Grandma Elephant is in search of water for her herd. Little Calf follows along and mimics her grandmother at each stop on their journey. When Grandma leads them to a watering hole she recalls from years before, the elephants are overjoyed and Little Calf splashes about with her tender leader. Grandma's persistence and powerful memory is something Little Calf will never forget. Based on true events. Sandra Markle's acclaimed nonfiction writing takes on a more lyrical style alongside Fabricio VandenBroeck's gorgeous illustrations making this story of animal behavior accessible for younger readers. Back matter includes further information about the phenomenon of a herd of elephants that survived a drought, as well as fascinating elephant facts.

Teach Your Children to Read Well

From Africa to Asia, the elephant makes its home. Light on their feet, despite their great weight, these magnificent creatures appear light and graceful because they're always walking on their tip-toes. They have excellent hearing and can detect the rumblings of other elephants from six miles away. And, just like humans being right handed or left handed, elephants can be right tusked or left tusked!

Bulletin of the Chemical Society of Japan

The markets for organic and fair trade food are growing rapidly. Although there are some important differences, both seek to address the consumer desire for “better” food: fair trade because it offers economically disadvantaged producers a better financial return; organic because it is perceived to be a more sustainable system delivering better-tasting, healthier and safer food than that produced by non-organic methods. The Handbook of Organic and Fair Trade Food Marketing provides a practical guide to successful marketing in these two dynamic sectors, underpinned by case-histories and lessons from companies that have been successful in these areas, including Green & Black's, Yeo Valley and Duchy Originals. It includes a review of the international markets for organic and fair trade food and drink; an analysis of organic and fair trade consumers; a review of successful retailing practice and a section on organic and fair trade divergence and convergence. Chapters are also included on perspectives from the USA, Germany and Italy. The book is written by industry experts, augmented by academic contributions where appropriate, offering for the first time the practical marketing advice required by companies in this sector.
