The modern Tractor-Loader\_backhoe has become the most useful machine in general construction, and it has gained that reputation since its introduction in the late 1950's. This reputation as the most useful is due to the wide-ranging tasks that the machine is capable of performing. These wide-ranging jobs, in turn, demand that operators have the knowledge, skills, and experience required for safety and productivity. The first edition of this book, *Operating Techniques for the Tractor-Loader-Backhoe*, published in 1983, was written simply as an information source covering standard machine operations and procedures. Over the years, training programs sought it out for its practical and detailed information for operators and training programs, such as: guidelines, safety considerations, and preventing damage to existing utilities.

Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. ### **Absolutely Fabulous**

ABOUT THE BOOK: Younger pastors are looking for practical help in the language of their generation. Pastoral Ministry for the Next Generation integrates contemporary issues and biblical principles. Pastors of all ages will find details for the "how to's" of nearly every aspect of church ministry. Pastoral ministry is timeless. Certain aspects of this life and work endure through all generations until the Lord returns. Yet, the milieu of ministry constantly changes. People expect their ministers to baptize them, marry them, and bury them, but marriage in today's culture involves questions for next-generation ministers that their grandfathers never imagined. Next-Gen ministry requires thoughtful processing of biblical foundations and contemporary applications. Dr. Jere Phillips has incorporated thirty years as pastor and over sixteen years of teaching young pastors to provide a biblically based, future-focused approach. This book was written for young pastors but can help ministers of any generation, especially new pastors. \*\*\*\* ABOUT THE AUTHOR: Dr. Jere Phillips has served churches as pastor and church staff member in several states and has preached in over 300 churches. He also was State Missions Director for the Tennessee Baptist Convention and Executive Director at the West Virginia Convention of Southern Baptists.
