together a priority, exploring from the book of Proverbs how experiencing community and growing in wisdom are inseparably linked and offering practical direction on how to experience this with others. All of us want to get better at life. Getting wiser alone, however, is not the way it works. God didn't wire us to catch onto wise and godly living through lone-ranger attempts at learning; it's something that rubs off on us when we spend time with others who have the wisdom of God living inside of them. As the proverb says, "Iron sharpens iron as one person sharpens another." This study is designed with both new and experienced group leaders in mind. For new leaders, it includes optional weekly DVD training sessions (DVD sold separately) to help them lead a fantastic, first-time small group experience. For experienced leaders, it includes a "Going Deeper" section for those ready to take this content to the next level. Sessions include: Walking with the Wise The Counsel of Community Iron Sharpens Iron The Heart of Community Faith and Friendship Designed for use with the Wiser Together Video Study 9780310820116 (sold separately).

Reinforce your understanding of radiation therapy and prepare for the Registry exam! Mosby's Radiation Therapy Study Guide and Exam Review is both a study companion for Principles and Practice of Radiation Therapy, by Charles Washington and Dennis Leaver, and a superior review for the certification exam offered by the American Registry for Radiologic Technology (ARRT). An easy-to-read format simplifies study by presenting information in concise bullets and tables. Over 1,000 review questions are included. Written by radiation therapy expert Leia Levy, with contributions by other radiation therapy educators and clinicians, this study tool provides everything you need to prepare for the ARRT Radiation Therapy Certification Exam. This title includes additional digital media when purchased in print format. For this digital book edition, media content is not included. Over 1000 multiple-choice questions in Registry format are provided in the text, allowing you to both study and simulate the actual exam experience. Focus questions and key information in tables make it easy to find and remember information for the exam. Review exercises reinforce learning with a variety of question formats to fit different learning styles. Questions are organized by ARRT content categories and are available in study mode with immediate feedback after each question, or in

exam mode, which simulates the test-taking experience in a timed environment with ARRT exam-style questions.

Facilitator's Guide to More Inclusion Strategies That Work!

In this five-session video-based small group Bible study (DVD/digital video sold separately), pastor and bestselling author Craig Groeschel explores the life of Samson, helping you uncover who you really are—a man created with a warrior’s heart in the image of God—and how to stand up and fight for what’s right. Find the strength to fight the battles you know you need to fight—the ones that determine the state of your heart, the quality of your marriage, and the spiritual health of your family. The battles that make you dependent on God as the source of your strength. The battles that make you come alive. Craig looks at the life of Samson, showing how much we have in common with this guy. Things didn’t work out so well for him in the end. But by looking at his life, you’ll learn how to defeat the demons that make strong men weak. You’ll become who God made you to be—a man who knows how to fight for what’s right. Learn how to fight with faith, with prayer, and with the Word of God. Then, when your enemy begins to attack, fight for the righteous cause that God gave you. Draw a line in the sand. Make your enemy pay. Make sure he gets the message. Don’t cross a warrior. Don’t mess with this man of God. Come out fighting. And don’t show up for this fight unarmed. Use the weapons God gave you, and you’ll win. Can you feel it? It’s inside you. It’s

Psychology: Concepts and Applications

In the beginning, God created Adam. Then he made Eve. And ever since we've been picking up the pieces. Loveology is a theology of love from God's point of view. The five sessions start with God's design for marriage and works backward, dealing with sexuality, romance, singleness, and what it means to be male and female. Pastor and writer John Mark Comer shares about what is right in male/female relationships—what God intended in the Garden. And about what is wrong—the fallout in a post-Eden world. The Loveology video-based Bible study (DVD/digital video sold separately) is for anyone who wants to learn what the

Scriptures have to say about sexuality and relationships and for people who want to ask the why questions and get intelligent, grace-and-truth answers. As you walk through this five-week study, you will come to better understand what God fully intended back in the garden. By comprehending the brilliance behind God's original plan for love and marriage and sex and romance—if we can redefine that fuzzy, amorphous, confusing word “love” and look at it through the lens of Jesus—your marriages and relationships will be radically altered as a result. This study guide contains video notes, individual or group reflection questions, and between session personal applications to enhance your journey through the video study. PSYCHOLOGY: CONCEPTS AND APPLICATIONS, Fourth Edition, offers a concept-based approach supported by a unique pedagogical framework. Author Jeff Nevid provides a broad view of psychology that includes history, major theories, research methods, and important research findings as well as applications of contemporary research to the problems and challenges faced in everyday life. Nevid developed the effective teaching devices in this text based on a comprehensive system derived from research on learning and memory as well as his own research on textbook pedagogy. The text's successful modular format organizes each chapter into manageable instructional units that help students focus on one topic at a time within the context of a larger chapter structure. The material also incorporates four goals that Nevid refers to as the Four E's of Effective Learning: Engaging Student Interest, Encoding Information, Elaborating Meaning, and Evaluating Progress. In the Fourth Edition, Nevid employs a new IDEA Model of Course Assessment--unique to this text--which maps specific learning goals (tied to APA goals) to measurable skills students acquire in their first exposure to psychology. Executed throughout each chapter, the model presents learning objectives that are expressed in the form of active learning verbs, and linked to measurable learning outcomes. The model is integrated with the test-item file, making it easy for instructors to select

items measuring these particular outcomes. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

An Illustrated Atlas of the Skeletal Muscles: Study Guide and Workbook

`An astute compilation of the university experience, made easily accessible to the reader, and lightened by the ability of a good storyteller. Within the book are tools to maximise and manage one's learning opportunities both in terms of objective skills and subjective psychological experiences, e.g., stress and anxiety. This is a book that has the potential to be useful throughout one's studies and to transform the university experience' - Brendan Bunting, Reader in Psychology, University of Ulster For those attending university for the first time, the demands made on them academically and socially can seem daunting. Studying at University aims to equip the student with strategies for making the most out of the experience from the moment they arrive until after they leave. Written with fresh insight for the contemporary student, the book addresses key issues such as: - adjusting to life at university - making presentations - working in small groups - library and computer resources - making the most from lectures and seminars - basic numeracy and statistics Studying at University also presents the student with new ways of
