The long-awaited memoir by Canada's most celebrated Olympian and advocate for mental health. From one of Canada's most decorated Olympians comes a raw but life-affirming story of one woman's struggle with depression. In 2006, when Clara Hughes stepped onto the Olympic podium in Torino, Italy, she became the first and only athlete ever to win multiple medals in both Summer and Winter Games. Four years later, she was proud to carry the Canadian flag at the head of the Canadian team as they participated in the opening ceremony of the Vancouver Olympic Winter Games. But there's another story behind her celebrated career as an athlete, behind her signature billboard smile. While most professional athletes devote their entire lives to training, Clara spent her teenage years using drugs and drinking to escape the stifling home life her alcoholic father had created in Elmwood, Winnipeg. She was headed nowhere fast when, at sixteen, she watched transfixed in her living room as gold medal speed skater Gaétan Boucher effortlessly raced in the 1988 Calgary Olympics. Dreaming of one day competing herself, Clara channeled her anger, frustration, and raw ambition into the endurance sports of speed skating and cycling. By 2010, she had become a six-time Olympic medalist. But after more than a decade in the gruelling world of

professional sports that stripped away her confidence and bruised her body, Clara began to realize that her physical extremes, her emotional setbacks, and her partying habits were masking a severe depression. After winning bronze in the last speed skating race of her career, she decided to retire from that sport, determined to repair herself. She has emerged as one of our most committed humanitarians, advocating for a variety of social causes both in Canada and around the world. In 2010, she became national spokesperson for Bell Canada's Let's Talk campaign in support of mental health awareness, using her Olympic standing to share the positive message of the power of forgiveness. Told with honesty and passion, *Open Heart, Open Mind* is Clara's personal journey through physical and mental pain to a life where love and understanding can thrive. This revelatory and inspiring story will touch the hearts of all Canadians.

## **Just Ride**

Coach Joe Friel is the most trusted name in endurance sports coaching, and his *Cyclist's Training Bible* is the most comprehensive and reliable training resource ever written for cyclists. This new edition of the bestselling book includes all of the latest advances in training and technology. Using this book, cyclists can create a comprehensive, self-coached training plan that is both scientifically proven and shaped around their personal goals. Friel empowers athletes with every detail they need to consider when planning a season, lining up a week of workouts, or preparing to race. This fourth edition includes extensive revisions on the specifics of how to train and what to eat. Friel explains how cyclists can: best gauge intensity with power meters and other new training technology to maximize form

and fitness and reduce fatigue; more knowledgeably and accurately make changes to their annual training plan over the course of a season; dramatically build muscular endurance with strength training; improve body composition and recovery with smarter nutrition. With more case studies to draw from and multiple contingency plans for those times when training doesn't progress as planned, *The Cyclist's Training Bible* continues to be the definitive guide to optimal cycling performance.

When it comes to retail, is there a method to the madness? In this report Donny Perry answers with a definitive, "yes." In *Leading Out Retail*, Perry combines hundreds of hours of research, a rich trove of social science, and his counterintuitive insights as he explains a paradigm shift in the industry of bicycle retail. Within this paradigm shift Perry teaches retailers simple strategies on how to increase profit through service, what the most important question to ask every customer is, and how to manage the dreaded Timmy Factor. Perry believes the future belongs to a different kind of retailer with a different mindset. In this book he offers a provocative and urgent new way of thinking about the future of retail; a future that may have already arrived.

## **The Golden Age of Handbuilt Bicycles**

"No matter what or how you ride, read this book and remind yourself just how enjoyable cycling can and should be."—Eben Weiss, author of *The Enlightened Cyclist Just Ride* is a revelation. Forget the ultralight, uncomfortable bikes, flashy jerseys, clunky shoes that clip onto tiny pedals, the grinding out of endless miles. Instead, ride like you did when you were a kid—just get on your bike and discover the pure joy of riding it. A reformed racer who's commuted by bike every day since 1980, whose writings and opinions appear in major bicycling and outdoor magazines, and whose company, Rivendell Bicycle Works, makes bikes for riders ready to opt out of a culture overrun by racing, Grant Petersen shares a lifetime of unexpected facts, controversial opinions, expert techniques, and his own maverick philosophy. In 87 short, two-to-three page chapters, it covers: Riding: Count Days, Not Miles; Corner Like Jackie Robinson; Steer with Your Hips, Shift with Your Legs Suiting Up: The Shoes Ruse; Ponchos—the Ultimate Unracer's Garment Safety: #1 Rule—Be Seen; Helmets Aren't All They're Cracked Up to Be Health and Fitness: Why Riding Is Lousy All-Around Exercise; Saddles Don't Cause Impotence; Drink When You're Thirsty—Not Before Also includes chapters on Accessories, Upkeep, and Technicalities, and a final chapter titled "Velosophy" that includes the

essential, memorable thought: Your Bike Is a Toy—Have Fun with It. Winner Silver Medal 2013 Independent Publisher Book Awards

## **Rusch to Glory**

For Paul Howard, who has ridden the entire Tour de France route during the race itself—setting off at 4 am each day to avoid being caught by the pros—riding a small mountain-bike race should hold no fear. Still, this isn't just any mountain-bike race. This is the Tour Divide. Running from Banff in Canada to the Mexican border, the Tour Divide is more than 2,700 miles—500 miles longer than the Tour de France. Its route along the Continental Divide goes through the heart of the Rocky Mountains and involves more than 200,000 feet of ascent—the equivalent of climbing Mount Everest seven times. The other problem is that Howard has never owned a mountain bike—and how will training on the South Downs in southern England prepare him for sleeping rough in the Rockies? Entertaining and engaging, *Eat, Sleep, Ride* will appeal to avid and aspiring cyclers, as well as fans of adventure/travel narrative with a humorous twist.

Among the critical adulation that follows VJAA wherever they build, you'll find words like graceful, beautiful, sublime, quiet, classic, disciplined, and lightall suggesting the kind of alchemy that makes the work of this Minnesota-based firm so highly regarded. The magic they perform marrying the simple forms of modernism with the rich materials of their sites in a thoughtful framework that encourages social interaction and environmental responsibility is carefully illustrated and explained in this monograph, which evokes the very qualities that make their work so seductive and compelling. A former furniture maker, principal Vincent James brings the woodworker's appreciation of materials, details, joinery, and structure to the firm's work, which here includes both their award-winning houses such as the Dayton and Type/Variant houses and institutional projects, such as the Minneapolis Rowing Club, Tulane University Center, and St. John's Abbey and Monastery Guesthouse. Along with an introductory essay by Hashim Sarkis, partners Vincent James and Jennifer Yoos provide a captivating and insightful portrait of their talented young firm.

The Golden Age of Handbuilt Bicycles presents fifty hand-built bicycles, lovingly created by small craftsmen. These makers carefully built not only the frames, but

in many cases also the parts, including brakes, stems, racks, derailleurs, and other components. Many of their revolutionary innovations have helped shaped the standard models we use today. The book features brilliant full-color photographs of models from 1910 to the present day, each one carefully crafted over hours by famous makers such as Alex Singer and René Herse, as well as lesser-known small designers. Close-ups reveal unique details and show the level of craftsmanship that went into producing these elegant machines--one that has rarely been surpassed. Chronological text that sets the scene, and vintage images of both the makers and the riders provide a historical complement.

This book of proceedings contains papers for the Second European Workshop on Mobile/Personal Satcoms (EMPS '96), held in Rome, Italy, and hosted by the

Consiglio Nazionale delle Ricerche. The EMPS '96 workshop follows the edition of two years ago, and is intended as an occasion for exchange of information and opinions among experts in the fast-growing field of mobile satellite communications. With respect to the first successful edition we only made one main modification. We issued a formal call for papers, instead of limiting the selection process to invited papers as was in the past: 60 papers were received from 18 countries. Each paper has been reviewed by at least two referees, and then 41 papers were selected by the Workshop Steering Committee (WSC). An invited introductory lecture opens the workshop and is given by Dr. Andrew J. Viterbi, who is also honorary chairman of EMPS '96. Satellite Personal Communications Networks (SPCNs) are now expected to grow very fast, even beyond the most optimistic forecast: their unique feature to establish ex abrupto a world-wide communication fabric is certainly the winning card. Market analyses now indicate that LEO networks already planned to be operational around 1998 even risk being overwhelmed by users request, so that their extensions are already being considered. And, additionally, multimedia SPCNs are also being introduced at higher frequencies to provide broadband services.

In recent years, a growing emphasis has been placed on tourism experiences and attractions related to food. In many cases eating out while on holiday includes the 'consumption' of a local heritage, comparable to what is experienced when visiting historical sites and museums. Despite this increasing attention, however, systematic research on the subject has been nearly absent. Tourism and Gastronomy addresses this by drawing together a group of international experts in order to develop a better understanding of the role, development and future of gastronomy and culinary heritage in tourism. Students and researchers in the areas of tourism, heritage, hospitality, hotel management and catering will find this book an extremely valuable source of information.

On rails-to-trails bike paths, city streets, and winding country roads, the bicycle seems ubiquitous in the Badger State. Yet there's a complex and fascinating history behind the popularity of biking in Wisconsin—one that until now has never been told. Meticulously researched through periodicals and newspapers, Wheel Fever traces the story of Wisconsin's first "bicycling boom," from the velocipede craze of 1869 through the "wheel fever" of the 1890s. It was during this crucial

period that the sport Wisconsinites know and adore first took shape. From the start it has been defined by a rich and often impassioned debate over who should be allowed to ride, where they could ride, and even what they could wear. Many early riders embraced the bicycle as a solution to the age-old problem of how to get from here to there in the quickest and easiest way possible. Yet for every supporter of the “poor man’s horse,” there were others who wanted to keep the rights and privileges of riding to an elite set. Women, the working class, and people of color were often left behind as middle- and upper-class white men benefitted from the “masculine” sport and all-male clubs and racing events began to shape the scene. Even as bikes became more affordable and accessible, a culture defined by inequality helped create bicycling in its own image, and these limitations continue to haunt the sport today. *Wheel Fever* is about the origins of bicycling in Wisconsin and why those origins still matter, but it is also about our continuing fascination with all things bicycle. From “boneshakers” to high-wheels, standard models to racing bikes, tandems to tricycles, the book is lushly illustrated with never-before-seen images of early cycling, and the people who rode them: bloomer girls, bicycle jockeys, young urbanites, and unionized workers. Laying the foundations for a much-beloved recreation, *Wheel Fever* challenges us to imagine anew the democratic possibilities that animated cycling’s early debates.

Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. *Rusch to Glory* is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

One of the last places you'd expect to find fun is in an elementary-school janitor's

cleaning closet. Creator Jef Mallett has given life to Renaissance janitor Edwin Frazier, better known as "Frazz," who took the job at Bryson Elementary School as a struggling songwriter. He then surprised everyone by sticking around after selling his first hit song; the school will never be the same. Frazz has a diverse cast of charming characters including eight-year-old budding genius Caulfield. He's a constant thorn in the side of bitter and burned-out third-grade teacher Mrs. Olsen, who still remembers having Frazz in her class more than 20 years ago. Caulfield needs Frazz to challenge him as he remarks, "School would be OK if it didn't interfere so much with my education." Hilariously naive Principal Spaetzle wants to be like Frazz. First-grade teacher (and first-rate babe!) Miss Plainwell is getting to know him better. And the kids at Bryson Elementary can't get enough of him! Live from Bryson Elementary is the first Frazz collection and will leave fans begging for more

'The whole point of a race is to find a winner I chose to race, so I chose to win.' For 14 years between 1965 and 1978, cyclist Edouard Louis Joseph Merckx simply devoured his rivals, their hopes and their careers. His legacy resides as much in the careers he ruined as the 445 victories - including five Tour de France wins and all the monument races - he amassed in his own right. So dominant had Merckx become by 1973 that he was ordered to stay away from the Tour for the good of the event. Stage 17 of the 1969 Tour de France perfectly illustrates his untouchable brilliance. Already wearing the yellow jersey on the col du Tourmalet, the Tour's most famous peak, Merckx powered clear and rode the last 140 kilometres to the finish-line in jaw-dropping solitude, eight minutes ahead of his nearest competitor. Merckx's era has been called cycling's Golden Age. It was full of memorable characters who, at any other time, would all have gone on to become legends. Yet Merckx's phenomenal career overshadowed them all. How did he achieve such incredible success? And how did his rivals really feel about him? Merckx failed drug tests three times in his career - were they really stitch ups as he claimed? And what of the crash at a track meet in Blois, France that killed Merckx's pacer Fernand Wambst, which Merckx claimed deeply affected him psychologically and physically? Or the attack by a spectator in 1975? Despite his unique achievements, we know little about the Cannibal beyond his victories. This will be the first comprehensive biography of Merckx in English, and will finally expose the truth behind this legendary man.

Pick the right bicycle for your travels and you'll be sure to come home with those wonderful bicycle touring memories you've been dreaming about. But pick the wrong bicycle and your trip could be over before it has even had a chance to begin. The Essential Guide To Touring Bicycles is a short, descriptive book designed to teach you about: The features, components and characteristics that are unique to touring bicycles. The five main styles of touring bikes. The different metals used in touring bicycle frames (and why they are so important). Words and definitions you should know before purchasing a touring bicycle. The different types of touring bicycle brakes, handlebars, shifters and gears. How to find the right size bicycle for your body type. Things to look out for when purchasing a new touring bicycle. And a tip that could save you hundreds of dollars when purchasing your new bicycle touring vehicle. Written by Bicycle Touring Pro, Darren Alff, The Essential Guide To Touring Bicycles is a book that every cyclist should read before purchasing a touring bicycle of any kind. This is a book for people who are totally new to touring bicycles - not a book for experienced bicycle riders. CONDUCT THE BICYCLE TOUR OF YOUR DREAMS The dream you are likely having involves going on a bicycle tour and having magical experiences you will remember for the rest of your life. Experiences so incredible you will tell your friends and family about them for years to come. The reality, however, might be that you never complete your bike tour, because you picked the wrong touring bicycle - a bicycle that wasn't built for the kind of bike tour you were participating in - and you were unable to return home with those magical memories you were hoping for. What many first-time bicycle tourists don't realize is that there are several different types of bicycles made for bicycle touring. There are touring bicycles made for short day trips around your home; fast, sporty touring bicycles made for racing and light touring; and an entire separate breed of touring bicycles made to carry you and your gear all the way around the world. Plus, there are bicycles made for all kinds of other types of bike rides (that aren't designed for bicycle touring at all). Let the Bicycle Touring Pro help you find your ideal touring bicycle! The Essential Guide To Touring Bicycles is a book designed to teach you about the different types of touring bicycles, their various uses, and most importantly - to help you select the right bicycle for the type of bicycle tour that you wish to participate in. With The Essential Guide To Touring Bicycles, you will not only learn about what to look for in your next touring bike, but you will be given access to the world's largest collection of touring bicycles (included for free with this book)- a detailed directory where you will be introduced to more than 130 different types of touring bicycles made in various countries all over the world. From this database of 130+ bicycles, the author will help you narrow down your selection and find the touring bicycle that will help to make your bicycle touring dreams come true. The Essential Guide To Touring Bicycles comes with three free digital bonus gifts (worth more than \$25 USD): 1) A bonus eBook called "A Buyer's Guide To Bicycle Touring Panniers & Trailers" 2) An hour-long video recording where the author speaks at great length about touring bicycles, panniers and trailers. 3) And access to the world's largest touring bicycle database (where more than 130 touring bicycles are shown in great

detail with their name, photo, product description, price and more).
