Architecture

From the world's greatest master illusion artists, including Guido Moretti, Tracy Lee Stum, Vladimir Kush, Rob Gonsalves and Bev Doolittle, to Istvan Orosz, John Langdon, Scott Kim, Oscar Reutersvard, and Donald "Rusty" Rust, *THE ART OF DECEPTION* is not just an ordinary collection of optical illusions. Author Brad Honeycutt has collected 200 of the finest deceptive images ever assembled that will excite both novices and long-time fans of illusion art. The spectrum spans from classic optical illusions to art that is "made real from the impossible." This collection includes famous paintings, stunning photographs, and computer enhanced visual eye treats that will make your mind's eye blink twice . . . and then smile. Every image was handpicked to feature a specific segment of the illusory spectrum that has one sole purpose--to illustrate the best artistic presentation possible. With commentary by the artists about their vision and techniques, this is an extraordinary book on the art and science of the

illusion.

History of Britain and Ireland

Packed with over 40 magical science tricks for kids using simple experiments! Join comedian and author Steve Mould, #1 bestselling author of *How to be a Scientist*, and learn the secrets behind some of the most famous magic tricks and illusions (and learn some of your own). Learn how to bend water with a balloon, turn water into juice, make a glass beaker disappear in oil, and wow your friends with levitating tinsel! Packed with optical illusions, pranks, and fun facts, this book is a must-have for any aspiring scientist or magician (the two aren't as different as you might think)! Each trick is explained using step-by-step photographs, and the science behind each one is showcased clearly and simply. Sprinkled throughout the book are profiles of famous magicians and illusionists, such as Harry Houdini and David Blaine, and stories of how they used science to create their most famous tricks. *Science is Magic* is the perfect addition to any family bookshelf or classroom, putting a fresh spin on science for kids. What's fantastic about this kids' activity book is that many of the magic tricks or experiments are something you learn to perform on a friend and require practice. Thus, (the genius bit) it's not something kids will just do once and then turn the page. Think *Magic Is Just An Illusion?* Think again! Discover science - REAL magic at your fingertips. Learn some amazing experiments to wow your friends, find out how magicians use science in their most famous tricks, and discover the magic of the world around you. Packed with activities for kids from magic tricks to optical illusions, and
