Welcome to Mars

In the Days of Caesar

Joining together, nine Babylonian necromantic sorcerers were appointed as secret protectors of the royal court and the city by the King. In the shadowy

halls of Babylon's underground temples, they met under the veil of night, engaging in the most secretive of esoteric rights. In their ancient Akkadian tongues, they shared their dark secrets, communed with the dead, joined with sister witches for intense sexual magic rituals.

Commentary on John

Cyril of Alexandria (ca. 378-444), one of the most brilliant representatives of the Alexandrian theological tradition, is best known for championing the term Theotokos (God-bearer) in opposition to Nestorius of Constantinople. Cyril's great Commentary on John, offered here in the Ancient Christian Texts series in two volumes, predates the Nestorian controversy and focuses its theological firepower against Arianism. The commentary, addressed to catechists, displays Cyril's breathtaking mastery of the full content of the Bible and his painstaking attention to detail as he offers practical teaching for the faithful on the cosmic story of God's salvation. David R. Maxwell provides readers with the first completely fresh English translation of the text since the nineteenth century. It rests on Pusey's critical edition of the Greek text and displays Cyril's profound theological interpretation of Scripture and his appeal to the patristic tradition that preceded him. Today's readers will find the commentary an indispensable tool for understanding Cyril's approach to Scripture.

Mao Wrote Beautiful Chinese Calligraphy

Never has there been anything quite like it. Dr Daniel Fry, an engineer in charge of the installation of instruments for missile control and guidance at White Sands Proving Ground near Las Cruces, New Mexico, is whisked away on an 8000 mile UFO ride from White Sands to New York City and back. Thus begins his instruction by the extraterrestrial A-lan who wants everyone in this world to understand the truth about our existence and how we can spiritually profit from the beneficence of extraterrestrial contact. Here is a true story directed to all of us.

The Spirit Poured Out on All Flesh

Named one of the Most Anticipated Books of the Year by Vogue, BuzzFeed, Hello Giggles, and more. A fiercely empathetic group portrait of the marginalized and outcast in moments of crisis, from one of the most galvanizing voices in American fiction. I tell you, do not go near that place. Do not go near it. Graywolves guard the ground there. Girls are growing from guts, enough for a body and language all the way out of this world. An eight-year-old trauma victim is enlisted as an underground courier, rushing frozen organs through the alleys of Eastern Europe. A young janitor transforms discarded objects into a fantastical, sprawling miniature city until a shocking discovery forces him to rethink his creation. A brazen child tells off a pack of schoolyard tormentors with the spirited invention of an eleventh commandment. A wounded man drives eastward, through tears and grief, toward an unexpected transcendence. Lidia Yuknavitch's bestselling novels *The Book of Joan* and *The Small*

Backs of Children, and her groundbreaking memoir The Chronology of Water, have established her as one of our most urgent contemporary voices: a writer with a rare gift for tracing the jagged boundaries between art and trauma, sex and violence, destruction and survival. In Verge, her first collection of short fiction, she turns her eye to life on the margins, in all its beauty and brutality. A book of heroic grace and empathy, Verge is a viscerally powerful and moving survey of our modern heartache life.

Robert Burns in Other Tongues

Working at the local processing plant, Marcos is in the business of slaughtering humans—though no one calls them that anymore. His wife has left him, his father is sinking into dementia, and Marcos tries not to think too hard about how he makes a living. After all, it happened so quickly. First, it was reported that an infectious virus has made all animal meat poisonous to humans. Then governments initiated the “Transition.” Now, eating human meat—“special meat”—is legal. Marcos tries to stick to numbers, consignments, processing. Then one day he’s given a gift: a live specimen of the finest quality. Though he’s

aware that any form of personal contact is forbidden on pain of death, little by little he starts to treat her like a human being. And soon, he becomes tortured by what has been lost—and what might still be saved.

SHORTLISTED FOR THE COSTA POETRY AWARD
POETRY BOOK SOCIETY RECOMMENDATION Flèche (the French word for 'arrow') is an offensive technique commonly used in fencing, a sport of Mary Jean Chan's young adult years, when she competed locally and internationally for her home city, Hong Kong. This cross-linguistic pun presents the queer, non-white body as both vulnerable ('flesh') and weaponised ('flèche'), and evokes the difficulties of reconciling one's need for safety alongside the desire to shed one's protective armour in order to fully embrace the world. Central to the collection is the figure of the poet's mother, whose fragmented memories of political turmoil in twentieth-century China are sensitively threaded through the book in an eight-part poetic sequence, combined with recollections from Chan's childhood. As complex themes of multilingualism, queerness, psychoanalysis and cultural history emerge, so too does a richly imagined personal, maternal and national biography. The result is a series of poems that feel urgent and true,

dazzling and devastating by turns.

Secret of the Andes

Originally published in 1984, this dystopian trilogy—"a pioneering feminist experiment"—is a testament to the power of language and women's collective action (Literary Hub). In 2205, the 19th Amendment has long been repealed and women are only valued for their utility. The Earth's economy depends on an insular group of linguists who "breed" women to be perfect interstellar translators until they are sent to the Barren House to await death. But instead, these women are slowly creating a language of their own to make resistance possible. Ignorant to this brewing revolution, Nazareth, a brilliant linguist, and Michaela, a servant, both seek emancipation in their own ways. But their personal rebellions risk exposing the secret language, and threaten the possibility of freedom for all. "This angry feminist text is also an exemplary experiment in speculative fiction, deftly and implacably pursuing both a scientific hypothesis and an ideological hypothesis through all their social, moral, and emotional implications." —Ursula K. Le Guin "A welcome reminder of the feminist legacies of science fiction. . . . Explores the power of speech, agency, and subversion in a work that is as gripping, troubling, and meaningful today as it has ever been." —Publishers Weekly (starred review)

The Terror

A romantic cabin getaway doesn't go exactly as

planned. High up on the windswept cliffs of Pale Peak, Faye and Felix celebrate their new engagement. But soon, a chorus of ghastly noises erupts from the nearby woods: the screams of animals, the cries of children, and the mad babble of a hundred mournful voices. A dark figure looms near the windows in the dead of night, whispering to Faye. As the weather turns deadly, Felix discovers that his terrified fiancée isn't just mumbling in her sleep - she's whispering back. Originally a contest-winning story on reddit.com's horror community NoSleep, *Stolen Tongues* has received widespread acclaim and is now being adapted into a feature film.

Pioneers of Space

Many books and articles have been written in defense of speaking in tongues as the unmistakable, physical evidence of the Baptism in the Holy Spirit. Through his careful and thorough analysis of the Pentecostal texts in the Book of Acts, Dr. Walston is challenging this view.

The Autobiography of My Mother

"Drawing on newspaper articles, ad campaigns, declassified government archives, and old movies, Ken Hollings shows the culture of postwar America and its dream of limitless technological and human development" --

Concerning Tongues

In the Days of Caesar is a constructive political theology formulated in sustained dialogue with the Pentecostal and charismatic renewal one of the most vibrant religious movements at the beginning of the twenty-first century. Amos Yong here argues that the many tongues, practices, and gifts of renewal Christianity offer up new resources for thinking about how Christian community can engage and transform the social, political, and economic structures of the world. Yong has three goals here. First he seeks to correct stereotypes of Pentecostalism, both political and theological. Secondly he aims to provoke Pentecostals to reflect theologically from out of the depths of their own Pentecostalism rather than merely to adopt some framework for theological or political self-understanding. Finally Yong shows that a distinctively Pentecostal form of theological reflection is not a parochial activity but has constructive potential to illuminate Christian belief and practice. This book's engagement with political theology from a Pentecostal perspective is the first of its kind.

Stick Out Your Tongue

Everyone has heard of Close Encounters of the Third Kind. But what about close encounters of the fatal kind? The field of UFOs is rife with unsettling examples of suspicious deaths. Accounts of accidents that might not have been accidents after all, abound. Researchers and witnesses have vanished, never to be seen again. Conveniently timed heart attacks are reported. Out-of-the-blue suicides that, upon investigation, bear the distinct hallmarks of murder,

are all too common. And grisly deaths at the hands of both extraterrestrials and government agents have occurred. Highlights of Close Encounters of the Fatal Kind include: The strange saga of the incredible melting man. The UFO-related death of the first U.S. Secretary of Defense, James Forrestal. The mysterious disappearances of military pilots and their connection to UFOs. The connections between national security and the sudden deaths of UFO investigators. Getting too close to the cosmic truth about alien abductions, Roswell, and what the government really knows about UFOs can—clearly—be a deadly business. The government's latest admission of the existence of Area 51 is barely the tip of a very big iceberg.

Close Encounters of the Fatal Kind

Explores the role of ETs in the military, government, technology, history, and the coming new age • Surveys contact with ETs, abductions, alien technology and exopolitics, genetic tampering by ETs, and the history behind the Nazis and UFOs • Contains interviews with Jesse Marcel, Michael Salla, Paul LaViolette, Robert Bauval, Helen Wambach, and others at the forefront of the ET-derived New Science movement The extraterrestrial presence on Earth is widening and, as we enter the Aquarian Age, will be admitted officially, causing shock and an urgent universal need to understand the social and technological changes derived from our space brothers. A primer for the explosive advances humanity will experience scientifically and spiritually in the coming years, this compendium explores the ET

phenomenon and its influence on humanity past and present. The book surveys contact with ETs and abduction accounts, unexplained public and undisclosed military technology from aliens including anti-gravity devices, exopolitics (the influence of ETs in human affairs), the Iraqi Stargate, the Hybrid Project of alien interbreeding by abduction, Nazi ties to UFOS and their secret underground base in Antarctica, government cover-ups of alien interactions including Roswell, and the transformation triggered by the Hale-Bopp comet. Based on interviews with people who are witnessing the coming changes as well as those visionaries who are actually bringing them about--including John Mack, Major Jesse Marcel, Paul LaViolette, Robert Bauval, Michael Salla, and Helen Wambach--this book sketches out a breathtaking vision of the planetary revolution just around the corner.

Tongues of Serpents

For the first time ever, painstaking investigation by the highly-respected French author and researcher Michel Zirger, has uncovered the truth about what really happened in the California Desert on November 20, 1952 when George Adamski and six witnesses encountered a man from a spacecraft in broad daylight. His name came to be known as "Orthon." The photographs taken that day have been enhanced using new, standard, digital techniques that now reveal the craft, the large mothership floating above and - most intriguingly - Orthon himself. The significance of this photographic validation of

Adamski's claims becomes clear as we progress through the author's own contacts with apparent extraterrestrials in Japan, where he now lives, always with witnesses present. Zirger's own journey toward accepting the simple reality that intelligent life throughout the universe is human is amplified as he recounts the first-hand experiences of others, some untold until now. Richly illustrated with rare and often unpublished items, "We Are Here!" takes the reader on a journey that transcends mainstream Ufology and, indeed, much twentieth-century history. It is a journey that reveals significant new truths about Humanity and our place in the Universe.

They are destined to supplant humanity as we know it, but humanity won't die without a struggle. Here at last in a single volume are all three of Constantine's Wraeththu trilogy: The Enchantments of Flesh and Spirit, The Bewitchments of Love and Hate, and The Fulfilments of Fate and Desire.

Offers a fascinating look at Pentecostalism's place in global theology and shows how Christians from other traditions can benefit from recent developments in Pentecostal theology.

The words we speak have power. Often the consequences of our careless words are far reaching and eternal. At one time or another we all have experienced saying something in a moment that takes hours (or weeks or a lifetime) to make right. In his engaging teaching style, Dr. R. T. Kendall helps you learn how to take control of the words you speak. He brings you straight to the Bible to identify characters who spoke without thinking as examples of how not to do things, demonstrating conclusively through their lives that, even when you fail, God will use you as He used them.,

Speaking in other tongues has been one of the most misunderstood gifts in Christianity. The carnal and natural minded have resisted and fought against this "sign" ever since it was introduced to the church on the Day of Pentecost. In this message, Brother Curry, gives straightforward teaching on why God Himself chose "tongues" to be the primary sign of the presence of the Spirit. Operating in this gift will "turbo-charge" your prayer life as well as revolutionize your life as a child of God. Find out why this tool is so effective.

Bastard Tongues

Tibet is a land lost in the glare of politics and romanticism, and Ma Jian set out to discover its truths. *Stick Out Your Tongue* is a revelation: a startlingly vivid portrait of Tibet, both enchanting and horrifying, beautiful and violent, seductive and perverse. In this profound work of fiction, a Chinese writer whose marriage has fallen apart travels to Tibet. As he wanders through the countryside, he witnesses the sky burial of a Tibetan woman who died during childbirth, shares a tent with a nomad who is walking to a sacred mountain to seek forgiveness for sleeping with his daughter, meets a silversmith who has hung the wind-dried corpse of his lover on the wall of his cave, and hears the story of a young female incarnate lama who died during a Buddhist initiation rite. In the thin air of the high plateau, the divide between dream and reality becomes confused. When this book was published in Chinese in 1997, the government accused Ma Jian of "harming the fraternal solidarity of the national minorities," and a blanket ban was placed on his future work. With its publication in English, including a new afterword by the author that sets the book in its personal and political context, readers get a rare glimpse of Tibet through Chinese eyes—and a window on the imagination of one of China's foremost writers.

As a child of immigrants, Yaya Yao always "craved an unbroken narrative: an arc that would give my existence a sense of context and continuity." In this brilliant and provocative first collection she confronts her inherited fragmented self and her hunger for a home, using scraps of personal and communal memory to bridge languages, worldviews, and physical distance from the ancestral homeland. Bits of Cantonese, Mandarin, Hokkien, and Shanghainese are translated and altered to explore the dynamics between language and identity. In this collection, Yaya Yao has created a unique and authentic voice.

CHRISTIAN MINISTER MAINTAINS - MIRACLES OF THE OLD AND NEW TESTAMENTS ARE MANIFESTATIONS OF AN EXTRATERRESTRIAL INTELLIGENCE The

Reverend Barry Downing's credentials are impressive, adding scholarly weight to his theories regarding anomalous and miraculous events as portrayed in the Old and New Testaments. Downing holds a Ph.D. in the relation between religion and science from the University of Edinburgh of Scotland. He also has a bachelor's degree in physics from New York's Hartwick College as well as a degree from Princeton Theological Seminary. Dr. Downing has studied the Bible most of his life. . . Not unusual for a pastor, but what makes his evangelistic career unique is that he has also studied the UFO phenomena since the mid-1950s. The combination of both pursuits resulted in the 1968 publication of his controversial book, "The Bible and Flying Saucers," which would lay important groundwork regarding the blending of the divine with the theory that earth has been visited by extraterrestrials in ancient times and that these visitations continue to this day. This work is his long awaited sequel in which he expands upon the polemic issues previously put forth, including that the - ** Parting of the Red Sea in the Bible's Exodus was accomplished by a cylindrical UFO, a cigars haped ship whose kind is still reported. ** That Jesus was an extraterrestrial sent to earth to rid the world of sin and wickedness, quoting Biblical text to support his claim. ** That Jesus left earth in a spaceship to

another planet, or perhaps another spatial dimension. ** That angels were actually aliens and that the "angelic aliens" spoke to Moses on Mount Sinai where he boarded a UFO to receive the Ten Commandments and specifications for the construction of the Tabernacle. It was aliens who guided the ancient Israelites, providing them with manna in the wilderness. ** In the modern world, Downing contends with mainstream religion's refusal to take the subject seriously. Christian liberals don't want to hear the miracles of the Bible were real and Christian conservatives don't want the miracles credited to simple aliens in flying saucers. Thus one can see that Downing, an ordained minister, is bravely risking disapproval from a wide swathe of fellow Christians not ready for his message. Many of the issues discussed by the author raise the issue of ontology, or what is real and what is the nature of being. Rev. Downing believes that recent discoveries in quantum physics tend to confirm that Biblical phenomena could be real. "Modern quantum physics has revealed a world," he states, "that is not full of 'solid objects' on one hand and space on the other, but rather a dynamic world in which solid objects are mostly space, with various types of quantum energy spinning away to create the illusion of solid objects, making it difficult to know for certain what we think we know." As for a possible global cover-up of the UFO phenomenon, Rev. Downing espouses the theory that if UFOs truly carry the angels of Christ, their "strange technology and behavior" may be as upsetting to government scientists as the Resurrection of Jesus was to the disciples. "Their 'real-world' understanding had to expand, and so must ours," he rightfully

concludes. This book is for the faithful as well as those who are primarily interested in unexplained historical phenomena as revealed in Biblical as well as other ancient texts, as well as seekers of censored truths concerning the hidden and forbidden knowledge of mankind.

Why Do Isolated Creole Languages Tend to Have Similar Grammatical Structures? *Bastard Tongues* is

an exciting, firsthand story of scientific discovery in an area of research close to the heart of what it means to be human—what language is, how it works, and how it passes from generation to generation, even where historical accidents have made normal transmission almost impossible. The story focuses on languages so low in the pecking order that many people don't regard them as languages at all—Creole languages spoken by descendants of slaves and indentured laborers in plantation colonies all over the world. The story is told by Derek Bickerton, who has spent more than thirty years researching these languages on four continents and developing a controversial theory that explains why they are so similar to one another. A published novelist, Bickerton (once described as "part scholar, part swashbuckling man of action") does not present his findings in the usual dry academic manner. Instead, you become a companion on his journey of discovery. You learn things as he learned them, share his disappointments and triumphs, explore the exotic locales where he worked, and meet the colorful characters he encountered along the way. The result is a unique blend of memoir, travelogue, history, and linguistics primer, appealing to anyone who has ever wondered how languages grow or what it's like to search the world for new knowledge.

Wraeththu

The problem of evil has challenged mankind ever since the dawn of intelligence. Why is there evil in the world and why do pain and suffering come upon those who do not seem to deserve it? Written in a simple, popular style, Bamberger's book, first published in 1952, will appeal to anyone who, no matter what his own answer to the question may be, is curious to learn how it has been answered in the past or is being answered by others in our own age. The author traces the history of the belief in fallen angels in Judaism, Christianity and Islam, and assembles a variety of tales and superstitions -- some grotesque, others quaint and humorous. His presentation also reveals a basic divergence between Judaism and Christianity in their respective attitudes toward the devil. The concluding chapter of the work deals with the return of the devil to prominence in contemporary religious thought and shows how Judaism seeks its own solution to the problem of evil. The book contains an extensive bibliography, notes, and index.

Now with an Historical Afterword by Ron Miller
Featured in Ron Miller's *The Conquest of Space Book Series*.
Pioneers of Space (1949) was later reincarnated almost word-for-word as the "non-

fiction" Inside the Space Ships, one of the books largely responsible for the UFO craze of the 1950s and 60s. Ghost-written by Adamski acolyte Lucy McGinnis, this novel contains some of the most inept scientific ideas imaginable. In the early 1950s, "Professor" George Adamski laid the groundwork for all subsequent UFO contactees. In *Pioneers of Space* he created many of the incidents and qualities he later attributed to the "actual" inhabitants of Venus, Mars and Saturn he later claimed to have met. In addition, we get a look at some of the strange "science" this self-proclaimed astronomer believed in. "Facts" such as there must be oxygen in space otherwise the sun could not burn At the publisher's request, this title is sold without DRM (Digital Rights Management).
