### Leading the Unleashable

The journey from idea to innovation is fraught with risks and uncertainty. It requires a great deal of courage and perseverance from the teams that work on innovative ideas, as well as from senior management, to embark on innovations without knowing whether they will be successful. This book by Ravi Arora, who is responsible for the innovation programme at the Tata Group, details a new method known as the Innovation Foresight programme. The programme is designed to drive innovations in an organization ensuring that the initiatives enjoy every stakeholder's active engagement. Most importantly, it strives to ensure that an organization does not lose sight of innovation opportunities, whether big or small. Written in a narrative framework featuring two young managers—Paul and Jiao—who have been tasked with driving innovations in their respective companies, Making Innovations Happen is an insider's guide to building a culture of innovation.

### Measures for Research and Evaluation in the English Language Arts

Why did Ratan Tata decide to pay for all the victims of 26/11 whether injured in the Taj or anywhere else? Why did HDFC's Aditya Puri insist that employees leave for home by 5.30 p.m.? How did HUL develop a cheaper, better product to beat its competitor, Nirma? What do Taj Hotels, HDFC, HUL, L&T and BPCL have in common? They are the win-win corporations! Based on over a decade of research, Shashank Shah takes these truly outstanding Indian companies and studies how they do business. Each of these companies has exceptional practices when it comes to stakeholder management. Whether the stakeholder is an employee, customer, investor, vendor or even society at large, these companies reveal how looking at everyone else's interests doesn't really mean compromising on your own. Often, the two complement each other and that is what makes a win-win

solution for everyone. This book gives an inside look into what motivates exceptional companies and how they are a cut above the rest. Full of fascinating anecdotes, leadership philosophy and background stories of organizations, Win-Win Corporations is an inspiring read into what makes companies great.

Founded by Jamsetji Tata in 1868, the Tata group is a global enterprise, headquartered in India, comprising thirty companies across ten clusters. The group operates in more than 100 countries across six continents. What does the Tata group do to encourage and enhance innovation in these companies that are well established and also several other smaller and fledgling companies? Tata InnoVista is a thirteen-year-old flagship innovation programme of the Tata Group. Over the years, Tata InnoVista has fired the imagination of people across Tata companies and has become one of the sought-after platforms for Tata managers. It has been presented to and researched by management experts globally, including those in Harvard Business School, London Business School and INSEAD. This book explores how InnoVista has inspired thousands of managers and is building a culture of innovation. It also explains how this programme is building capability on innovation and serves as a unique measurement system for companies on innovativeness.

When sixteen-year-old Sui Nihl found a program that allowed him to hack into any phone or computer on the planet, he decided to use it to expose all of the corruption and evil in the world. It didn't take long for him to become the world's most infamous hacking vigilante. During the day he goes to school and masquerades as a normal teenager. He deals with teachers and bullies, joins the school play, and attempts to awkwardly flirt with his crush. But at night his quest to expose evil soon turns into an obsession. Corrupt politicians, secret societies, human trafficking rings, everyone is a target. Pretty soon every intelligence agency in the world is looking for him. That's when the paranoia starts. The stakes skyrocket and one wrong move could mean the end. Regardless of the consequences, Sui is determined to fix the broken world around him. No one else would be willing to make the sacrifices like him but he needs to make sure the power doesn't go to his head.

On the surface, John and George Esseff seem to have traveled very different paths in life: George as a successful scientist, entrepreneur, and philanthropist with a wife, children, and grandchildren; John as a celibate priest whose life has been spent mostly with the poor. But from their humble beginnings in Depression-era Wilkes-Barre, PA to this day, the Esseff brothers' lives have been very much intertwined. Their shared story takes us from the poorest places on the planet to the bastions of wealth and power, with these remarkable men touching and changing lives all along the way. Gripping and inspirational, this book is the story of faith made real in the lives of two men who are BROTHERS & FATHERS.

Is that one guy dragging you all down? The control-freak, the narcissist, the slacker, the cynic Difficult people are the worst part of a manager's job. Whether it comes from direct reports or people above, outbursts, irrational demands, griping, and other disruptions need to be dealt with-and it's your responsibility to do it. Leading the Unleadable turns this dreaded chore into a straight forward process that gently, yet effectively, improves behaviors. Written by an insider in the tech industry, where personality issues routinely wreck projects, the book reveals a core truth: most people actually want to contribute results, not cause headaches. Once you realize the potential for change, the book's simple steps, examples, and scripts explain how to right even the most hopeless situations. You'll learn how to: \*

- \* Master the necessary mindset
- \* Explain the problem calmly in a short feedback session
- \* Get a commitment to change, and follow up
- \* Coach others to replicate the process
- \* Develop the situational awareness required to spot trouble even earlier in the future

Every manager has "problem people." What sets great managers apart is how they turn them into productive team players. Prepare to transform the troublesome into the tremendous.

Solution architecture is concerned with the design and definition of (information technology) solutions so they can be subsequently implemented, used, operated and supported securely and efficiently. The solution exists to operate business processes in order to achieve business objectives, meet a business need and deliver business value. Solution architecture is concerned with engaging with the originating business function looking for the solution to create a solution vision and design a solution that meet their needs, subject to a range of constraints such as cost and affordability, time to deliver and organisational standards. The solution must exist as a coherent whole. Solutions must be designed consistently across the solution landscape and make optimum use of appropriate technologies. Solution

architecture must focus on creating usable and useful solutions. Solution architecture must have a standard reliable approach to business engagements and the design of solution that emerge from them. Solution architecture must work collaboratively with other information technology functions - other architecture roles, business analysis and service management - to ensure continuity along the solution delivery journey. Effective solution architecture involves: -Have a depth and breadth of solution delivery and technical experience to be able to identify solution design options quickly-Being able to understand the detail of the solution while maintaining a view of the wider (and higher) context of the business need for the solution and being able to explain both these views of sets of information-Being able to communicate effectively with all parties - technical and business - involved in the solution design and delivery journey, assist with decision-making, be realistic and make appropriate compromises and design choices in order to create the best solution design-Being able to apply technology appropriately and with selective innovation (and the desire to constantly acquire new knowledge and ways of applying technology)-Being involved in the solution delivery journey along its entire length-Being able to be the solution advocate and subject matter expert This book is aimed at a variety of potential readers: -Existing solution architects who want to have a more theoretical and a broader understanding of their role-Existing or new managers of solution architecture functions who want to create a high-performing practice within their organisations and who want to articulate the benefits and value solution architect can contribute to the information technology function and the wider business and the potential it can offer to the business organisation-Managers of information technology functions who want to understand what solution architecture is, where it fits into the wider architecture context and disciplines and solution delivery and operation and the value it can contribute to both the information technology function and the wider business-Other information technology architects who want to understand how the architecture disciplines can work together to deliver value-Business analysts and managers of business analysis functions who want to understand how they can work more closely with the solution architecture function in order to provide the business with a better overall service-Other information technology personnel who want to move into solution architecture and who want to understand what it is-Consulting organisations and individuals who want to develop and offer value-adding solution architecture services

With over 100 companies offering products and services across 150 countries, 700,000 employees contributing a revenue of US\$100-billion, the Tata Group is India's largest and most globalized business conglomerate. The Tata name is known for salt, software, cars, communications, housing and hospitality. How did they come so far? How did they groom leadership, delight customers and drive business excellence? How did they maintain a brand and corporate values that are considered gold standard? A deep-dive into the Tata universe brings forth hitherto lesser-known facts and insights. It also brings you face-to-face with business decisions and outcomes that are most intriguing: - How did Tata Motors turnaround Jaguar Land Rover when Ford failed to do so? - Why wasn't TCS listed during the IT-boom? - Why wasn't Tata Steel's Corus acquisition successful? This definitive book tells riveting tales and gives insider accounts of adventure and achievement, conflict and compassion, dilemmas and decisions across twenty-five Tata companies. With over a decade of rigorous research, interviews with 100 senior Tata leaders, and pan-India site visits, this book decodes the Tata principles of business. It's an exceptional blend of a business biography and a management classic.
