Cambridge Key English Test 3 Student's Book with Answers

The complete and integrated IELTS preparation course, providing comprehensive exam skills development and graded practice.

Objective PET Student's Book Without Answers with CD-ROM

This is a self-study publication with two CD ROMs for students preparing for the Academic Module of the International English Language Test System (IELTS) which is administered by the British Council, the University of Cambridge Local Examinations Syndicate (UCLES) and by IELTS Australia. The book covers the four sections of the IELTS exam: listening, reading, writing and speaking. Special features of the book are: the reading exercises, the detailed Keys for these exercises, the wide range of exercises to help you prepare for Writing Task 1, and the detailed Key for the Reading Tests. The third edition incorporates additional material to cover changes made to the Speaking module of the IELTS examination. The publication may also be used as a course book, or as a supplement to a course book. Also includes changes to IELTS writing rubrics.

IELTS Superpack

McGraw-Hill Education IELTS, Second Edition

Surviving IELTS Speaking

Improve Your IELTS. Reading Skills

This volume reports research that informs the development of reading and listening assessment in IELTS. This volume brings together a set of eight IELTS-related research studies - four on reading and four on listening - conducted between 2005 and 2010. Findings from these studies provide valuable evidence on the validity, reliability, impact and practicality of the IELTS test; they are also instrumental in highlighting aspects needing attention, and thus directly inform the continuing evolution of the IELTS reading and listening tests. The volume reviews and comments on the specific contribution of each study to the ongoing process of IELTS reading and listening test design and development.

New Insight Into IELTS Workbook Pack

Presents guidance for students preparing for the oral portion of the International English Testing System (IELTS)--particularly those not naturally proficient in languages and whose performance suffers as a result of nervousness.

IELTS

The past examination in Cambridge Key English Test 3 papers provide the most authentic exam preparation available. They allow candidates to familiarise themselves with the content and format of the examination and to practise useful examination techniques. These papers follow the March 2004 revised exam specifications. A Student's Book 'without answers' is also available as is a Self-study Pack containing the Student's Book with Answers and the Audio CD.

Complete IELTS Bands 6.5-7.5 Student's Pack (Student's Book with Answers with CD-ROM and Class Audio CDs (2))

This Handbook, with 45 chapters written by the world's leading scholars in second language

acquisition (SLA) and language testing, dives into the important interface between SLA and language testing: shared ground where researchers seek to measure second language performance to better understand how people learn their second languages. The Handbook also reviews how to best measure and evaluate the second language (L2) learners' personal characteristics, backgrounds, and learning contexts to better understand their L2 learning trajectories. Taking a transdisciplinary approach to research, the book builds upon recent theorizing and measurement principles from the fields of applied linguistics, cognitive science, psychology, psycholinguistics, psychometrics, educational measurement, and social psychology. The Handbook is divided into six key sections: (1) Assessment concepts for SLA researchers, (2) Building instruments for SLA research, (3) Measuring individual differences, (4) Measuring language development, (5) Testing specific populations, and (6) Measurement principles for SLA researchers.

McGraw-Hill Education 6 IELTS Practice Tests with Audio

The book examines how individual differences in candidates' levels of extraversion interact with facets which have been shown to affect scores obtained on oral performance tests. Three major studies are presented: the first is concerned with the individual candidate in the model; the second study investigates the role of the rater in the oral test process; the final study is concerned with the degree of interactivity required of pairs of candidates, each of whom also acts as an interlocutor in the performance of an oral test task. Results of the studies confirm that when an appropriate instrument is used to assess personality, and when theoretically sound hypotheses derived from the psychological literature are tested, significant differences can be observed in the responses of introverts and extraverts on particular oral test tasks.
