Creating Competitive Advantage with HRM

Hotel Housekeeping

A comprehensive, visual reference, enhanced by two thousand photographs and illustrations, provides information on all major fields of knowledge and includes timelines, sidebars, cross-references, and other useful features.

Three Graves Full

This title will help you understand how developing people can create a competitive advantage. It contains a range of activities and these activities form an integral part of the Human Resource Management and help you to apply what you are learning in practice to your business or organisation. This title will help you to deepen your understanding of some of the main themes covered.

Teaching Online

How does a suburban pizza joint end up profiled on national magazine covers and network TV news? (Hint: The secret is not in the sauce.) When Nick Sarillo decided to open a family-friendly pizza restaurant in the suburbs of Chicago, people thought he was nuts. Having worked as a carpenter for much of his adult life, he lacked any formal experience in restaurants or in managing a small business.

Everyone told him no one else would ever care about his place the way he did. They warned he'd have to work 20-hour-days and monitor every employee just to stay in business. But Sarillo saw things differently, and set out to run his business in a radically different way. Today Nick's Pizza & Pub is one of the top ten busiest independent pizza restaurants in the country, with two locations that gross about six times the revenue of the typical pizza restaurant. And in an industry where most employees leave within less than a year, Nick's annual turnover rate is less than 20 percent. How did he do it? The secret lies in Nick's purpose-driven culture, in which every employee—from the waiters to the chefs to the managers—is equipped with the tools necessary to do their jobs while also advancing the company's overall mission. The result is higher sales, a dedicated team, and a big little business that is beloved by the entire community. In *A Slice of the Pie* Sarillo tells the story of how he built his extraordinary culture and shows how anyone can follow his methods. For instance, Nick's managers engage the staff by tracking and rewarding unusual metrics, such as how many guests request a particular server or the average check amount of each carryout host. Likewise, team members of all ages and levels of experience are encouraged to express themselves, acquire new skills, and suggest ideas to help the business grow. *A Slice of the Pie* will help transform even the smallest, simplest, and most ordinary business into a successful, high-performance organization.

Three White Dogs Cookbook

Turn your Raspberry Pi into a secret agent toolbox with this set of exciting projects

About This Book Turn your Raspberry Pi into a multi-purpose secret agent gadget for audio and video surveillance, Wi-Fi exploration, or playing pranks on your friends

Detect an intruder on camera or with sensors and set off an alarm or receive messages to your phone

Find out what the other computers on your network are up to and make yourself anonymous on the Internet

This book has been updated for new additions to your toolkit featuring the tiny, recently released Raspberry Pi Zero board

Who This Book Is For This book is for those who are new to the Raspberry Pi Zero ,Raspberry Pi 2 or Raspberry Pi 3 and have some experience with the original Raspberry Pi models, and even for those budding secret agents who would like to use Pi Zero as a secret agent toolbox. No programming experience is assumed. Suitable for the novice and expert alike, each topic provides a fast and easy way to get started with exciting applications, with practical examples in every chapter.

What You Will Learn

Install and configure the Raspbian Jessie operating system for maximum mischief

Detect an intruder with motion detection or a laser trip wire and set off an alarm

Listen in to conversations from a distance over Bluetooth

Distort your voice in weird and wonderful ways

Track the Pi's whereabouts using GPS

Connect your Pi to the mobile Internet using a 3G dongle and make yourself anonymous on the net

Display secret messages and codes to fellow agents on a LED display

In Detail This book is for all mischievous Raspberry Pi owners who'd like to see their computer transform into a neat spy gadget to be used in a series of practical pranks and projects. No previous skills are required to follow along, and if you're completely new to Linux, you'll pick up much of the basics for free. We'll help you set up your Raspberry Pi Zero , Raspberry Pi 2 and Raspberry Pi 3 and guide you through a number of pranks and secret agent techniques that are so inconspicuous yet high on mischief. You'll learn how to configure your operating system for maximum mischief and start exploring

audio, video, or Wi-Fi techniques. We'll show you how to record, listen, or talk to people from a distance and how to set up your own phone network. Then, you'll plug in your webcam and set up a motion detector with an alarm and find out what the other computers on your Wi-Fi network are up to. Once you've mastered the techniques, we'll combine them with a battery pack and GPS for the ultimate off-road spy kit. **Style and Approach** This easy-to-follow guide is for budding secret agents who want to create tools for mischief, stealth, and reconnaissance. It's full of fun, practical examples and easy-to-follow recipes, guaranteeing maximum mischief for all skill levels.

Algebra & Trigonometry

Pakistani Assistance For The Anti-Government Of India Activities Was Not Due To Only Its Revanchist Spirit Following Its Loss Of East Pakistan But For Keeping Its military Preoccupied With Internal Security Duties Thereby Trying To Neutralize The Superiority Of The Indian Armed Forces. Such A Policy Could Ultimately Weaken The Unity Of India Just As The Bleeding Of Soviet Troops In Afghanistan Contributed To The Break-Up Of Ussr. Terrorism Is An Absolute Evil And Has To Be Treated As Such.

Ciarcia's Circuit Cellar

This cookbook was written for all the dogs who rely on their master for all their needs and ask nothing in return. Good nutrition is as important to your dog as it is to you. Cancer is the leading cause of death in dogs and cats today, so the food they ingest is paramount to their health, as well as exercise and annual visits to the veterinarian. This cookbook was written to have fun in the kitchen cooking delicious recipes that your dog will love. He will probably join you in the kitchen when he starts to know that the aroma of good food is for him. P.J.'s Bichon Frise lived to be 22 years old and spunky to the end of her life. P.J. attributes her Bichon Frise's excellent health to the meals she cooked for her, long before the pet food recall scare. You have control of all the ingredients your dog eats. If your dog had to cook for you, don't you think it would give you the best possible food to keep you healthy and living longer? You bet they would. Do you feed your dog the same thing, day after day, week after week? Yuk. This cookbook will get you out of this rut and you will see a happier and healthier dog if you start cooking these easy and fun recipes. The book is also filled with fun facts, dog jokes, dog sayings, astrology, dog breeds, and trivia to make this cookbook a must for you to have. A portion of the proceeds of this book will be donated to the Cancer Society for Animals.

A Clenched Fist

Introducing the first travel guide organized by color palette. Travel through Costa Rica's green rainforests, Australia's red desert and Dubai's gold souk, along with hundreds of other colorful destinations. Travelers will discover the best places in the world to immerse themselves in their favorite shade of aquamarine, magenta, canary yellow, and everything in between. Each chapter features a single color and shows you the most picturesque places around the world where you can surround yourself with that shade. Whether it's the chilly blues of New Zealand's Fox Glacier,

the earth tones of Morocco's red mudbrick pre-Saharan architecture, or the soothing lavender fields of Provence; whatever your dream aesthetic, there's a color to match. And for those of us whose favorite color as kids was "rainbow," there's an entire chapter dedicated to those special places where the full spectrum of color is everywhere you look. *Travel by Colour* is a vibrant feast for the visually obsessed traveler. Let color be your guide. Includes photos and information to help you find 15 immersive color experiences all over the world. About Lonely Planet: Lonely Planet is a leading travel media company and the world's number one travel guidebook brand, providing both inspiring and trustworthy information for every kind of traveller since 1973. Over the past four decades, we've printed over 145 million guidebooks and grown a dedicated, passionate global community of travellers. You'll also find our content online, on mobile, video and in 14 languages, 12 international magazines, armchair and lifestyle books, eBooks, and more.

Sport Aviation

GRABBING A GOLDEN DREAM WITH GOLDEN GLOVES Does boxing teach anything besides how to club someone into submission? Can it transcend its sordid reputation and instill love, compassion and honor in America's most troubled kids? In this raw yet uplifting memoir about amateur boxing, author Peter Wood tells of his begrudging return to a world he thought he'd left behind. He steps back into the mud of boxing, coaching two troubled teens who dream of becoming Golden Gloves champions. His compelling story moves far beyond the grunt and sweat of the local gym. It explores the classrooms of a suburban high school and digs through the remains of unhappy childhoods. It's a story about how boxing is a way out, and how it cleanses the soul. This book brings the subculture of amateur boxing up close and weaves a powerful story of redemption, beating demons and battling for glory.

The Art of Assassin's Creed Unity

YouTube For Dummies takes the classic *Dummies* tact in helping tech novices get a handle on a popular technology that more tech-savvy audiences consider "simple." With so much content on YouTube getting media attention, more first-timers are jumping on the site and they need help. The book also helps the next step audience of users looking to add content to YouTube. Content includes: *Watching the Tube* - includes getting your PC ready for YouTube viewing, finding video, signing up for an account, and creating favorites. *Loading Video to YouTube*—covers the nuts and bolts of shooting video, transferring it to a PC, editing it, and sending it up to YouTube. *Bringing Along YouTube*—covers the various ways you can use YouTube video in places other than on the site. Includes mobile YouTube and adding videos to your MySpace page or another Web site. *I Always Wanted To Direct*—explores how to use YouTube's directors program to upload longer video, use the site for marketing, or launch your own videoblog.

The Captain of Battery Park

Engrained in our culture is the belief that unbending discipline is the only sure way to success. You must go to the gym five times a week, never order the dessert,

and don't even think about buying that dress you keep staring at in the store window. Breaking from such a regimented lifestyle is a sign of weakness, right? Wrong!-and Joyce wants to tell us why Though setting rules in our lives are important, it's just as important that we break them from time-to-time. Structure is a powerful tool, but when diverging from your own goals is seen as catastrophic, it can have a hugely negative effect on us. Balance is a core value in life and every once in awhile we deserve to indulge in a guilty pleasure or two. So don't feel bad about straying from your goals every once-in-awhile and in fact, embrace it: eat the cookie and buy the shoes!

Practical Teaching in Emergency Medicine

New series, new team, new missions! VITA AYALA (Morbius, Age Of X-Man), DANNY LORE (Queen Of Bad Dreams) and ERIC GAPSTUR (James Bond 007) present a fresh take on the world's greatest secret agent. When a priceless piece of art is found to be fake, investigations lead down a rabbit hole of international crime and corruption. But what the hell does James Bond know about the world of art forgery? Featuring a cover by superstar JIM CHEUNG (Justice League, Young Avengers), that will be revealed as an interlocking image over the first three issues!

Choose to Lose

This work provides an overview of removable partial denture service in contemporary dental practice, with an emphasis on clinical and design aspects. Clinical topics range from examination and treatment planning to mouth preparation and prosthesis placement. Common design philosophies are discussed, and a step-by-step method for partial denture design is presented. Also included are alternative removable partial denture therapies such as swing lock, dual path and attachment-type prostheses

BlackBerry For Dummies

Emergency medicine attendings who wish to hone their teaching skills can find a number of books on educational strategies written by physicians from other disciplines. However, until the publication of the first edition of this book, they did not have access to a text written by emergency medicine physicians on methods of teaching that are directly applicable to teaching EM. This book was compiled to meet that need. Following the introductory section, which provides important background information, the book's contents are organized into 4 sections that correspond to the core needs and interests of EM educators: Section 2 focuses on practical and ethical considerations of teaching in the ED; Section 3 provides strategies for teaching specific groups of learners; Section 4 looks at the skills that are characteristic of the best EM educators; and Section 5 looks in depth at specific teaching techniques and strategies. Now more than ever this book addresses the needs of physician educators from all over the world. New chapters discuss lecturing to an international audience; using simulation as a teaching tool; how to make journal club work for you, and other topics that are of broad interest to medical educators in this field. In general, each chapter has been updated and reviewed to make sure the content was something that

emergency physician educators could use in any country. The chapter contributors are widely regarded as leaders in the field of emergency medicine education and faculty development. Authors were given free rein to develop their chapters and write in their own style. They were asked to present their personal views on how to successfully teach the art of emergency medicine, rather than review evidence-based guidelines regarding medical education. As a result, most of the chapters have few references. This first-person approach to a multi-authored textbook yields a compilation that varies in style from chapter to chapter and exposes the reader to a variety of communication techniques.

A Terrorist State as a Frontline Ally

A twelve-year-old girl and a veterinarian, who wears a black tricorne and a gold earring, nurse an injured tern they find in New York's Battery Park.

Just a Spoonful of Laughter Helps the Medicine Go Down

The AOPA Pilot

"In recent years the debate on multiculturalism in the UK and other Western societies has focused principally on Islam, and the specific 'problems' said to be posed by Muslims have been invoked to justify the claim that multiculturalism has failed. That claim is opened to scrutiny and challenged in this unique collection through a series of explorations of specific issues and controversies - including the question of the veil, crime, political Islam, the role of Muslim women, sexuality and the Danish cartoons affair - and through more general reflections on the nature of multiculturalism. By exploring the nature of cultural differences and sensitivities and examining the way conflicts have played out, this challenging book makes a wide-ranging contribution to debate and a more constructive inter-cultural engagement. The contributors draw upon the disciplines of social science, ethics, theology, philosophy and education to examine the nature of the issues and flashpoints and to draw out implications for theory, policy and practice." --from back cover.

Islam in the West

Get the most juice out of your BlackBerry handheld! Feature-rich and complex, the BlackBerry is the number one smartphone in the corporate world and among the most popular handhelds for business users. This new and updated edition includes all the latest and greatest information on new and current BlackBerry mobile devices. Covering a range of valuable how-to topics, this helpful guide explores the BlackBerry's most useful features, techniques for getting the most out of your BlackBerry, and practical information about power usage. Edition explains business tools, games, and great sites that deliver what you need for your BlackBerry, when you need it.

Software Architecture 2

This book constitutes the refereed proceedings of the 4th Conference on Extreme Programming and Agile Methods, XP/Agile Universe 2004, held in Calgary, Canada in August 2004. The 18 revised full papers presented together with summaries of workshops, panels, and tutorials were carefully reviewed and selected from 45 submissions. The papers are organized in topical sections on testing and integration, managing requirements and usability, pair programming, foundations of agility, process adaptation, and educational issues.

Stewart's Clinical Removable Partial Prosthodontics

"Introduction to Human Communication shows how effective communication is central to shared meaning-making, identity construction and maintenance, and responsible interaction with the world. In an inviting and engaging style, Beauchamp and Baran provide the most current and complete survey of the discipline. They cover the basics of communication theory and research with vivid examples while providing practical tools to help students become more thoughtful, confident, and ethical communicators. The text demonstrates the relevance of communication to our everyday lives and invites students to apply what they learn in a broad variety of contexts, including mass communication, organizational communication, health communication, social media, and media literacy"--

Eat the CookieBuy the Shoes

The Knowledgebook

Renowned business and time-management expert Jeffrey Mayer provides readers with a detailed and systematic 7-step plan for reaching goals and achieving success. Success Is a Journey identifies the characteristics common to all successful people and provides easy-to-follow guidelines for applying them to the most important goals in one's life. Straightforward and full of invaluable advice anyone can use, Mayer's book includes: - Unique, interactive exercises designed to help readers determine where they want their lives to lead - Easy-to-apply tools for developing an individualized plan of action - Proven time-management tips and organizational techniques - Inspirational anecdotes and motivational sidebars

Using the Phone Book

A vision for building a society that looks beyond money and toward maximizing the values that make life worth living, from the cofounder of Kickstarter. Western society is trapped by three assumptions: 1) That the point of life is to maximize your self-interest and wealth, 2) That we're individuals trapped in an adversarial world, and 3) That this is natural and inevitable. These ideas separate us, keep us powerless, and limit our imagination for the future. It's time we replace them with

something new. *This Could Be Our Future* is about how we got here, and how we change course. While the pursuit of wealth has produced innovation and prosperity, it also established an implicit belief that the right choice in every decision is whichever option makes the most money. The answer isn't to get rid of money; it's to expand our concept of value. By assigning rational value to other values besides money--things like community, purpose, and sustainability--we can refocus our energies to build a society that's generous, fair, and ready for the future. By recalibrating our definition of value, a world of scarcity can become a world of abundance. Hopeful but firmly grounded, full of concrete solutions and bursting with creativity, *This Could Be Our Future* brilliantly dissects the world we live in and shows us a road map to the world we are capable of making.

Marketing That Works

"RELENTLESSLY FUNNY . . . BARRY SHINES." --People A self-professed computer geek who actually does Windows 95, bestselling humorist Dave Barry takes us on a hilarious hard drive via the information superhighway--and into the very heart of cyberspace, asking the provocative question: If God had wanted us to be concise, why give us so many fonts? Inside you'll find juicy bytes on *How to Buy and Set Up a Computer*; *Step One: Get Valium Nerdstock in the Desert*; *Or: Bill Gates Is Elvis Software: Making Your Computer Come Alive So It Can Attack You* *Word Processing: How to Press an Enormous Number of Keys Without Ever Actually Writing Anything* *Selected Web Sites, including Cursing in Swedish, Deformed Frog Pictures, and The Toilets of Melbourne, Australia* And much, much more! "VERY FUNNY . . . After a day spent staring at a computer monitor, think of the book as a kind of screen saver for your brain." --New York Times Book Review

This Could Be Our Future

Teaching Online: A Practical Guide is a practical, concise guide for educators teaching online. This updated edition has been fully revamped and reflects important changes that have occurred since the second edition's publication. A leader in the online field, this best-selling resource maintains its reader friendly tone and offers exceptional practical advice, new teaching examples, faculty interviews, and an updated resource section. New to this edition: new chapter on how faculty and instructional designers can work collaboratively expanded chapter on Open Educational Resources, copyright, and intellectual property more international relevance, with global examples and interviews with faculty in a wide variety of regions new interactive Companion Website that invites readers to post questions to the author, offers real-life case studies submitted by users, and includes an updated, online version of the resource section. Focusing on the "how" and "whys" of implementation rather than theory, this text is a must-have resource for anyone teaching online or for students enrolled in Distance Learning and Educational Technology Masters Programs.

YouTube For Dummies

This soup-to-nuts collection of recipes covers everything you need to know to perform your job as a Linux network administrator, whether you're new to the job

or have years of experience. With *Linux Networking Cookbook*, you'll dive straight into the gnarly hands-on work of building and maintaining a computer network. Running a network doesn't mean you have all the answers. Networking is a complex subject with reams of reference material that's difficult to keep straight, much less remember. If you want a book that lays out the steps for specific tasks, that clearly explains the commands and configurations, and does not tax your patience with endless ramblings and meanderings into theory and obscure RFCs, this is the book for you. You will find recipes for: Building a gateway, firewall, and wireless access point on a Linux network Building a VoIP server with Asterisk Secure remote administration with SSH Building secure VPNs with OpenVPN, and a Linux PPTP VPN server Single sign-on with Samba for mixed Linux/Windows LANs Centralized network directory with OpenLDAP Network monitoring with Nagios or MRTG Getting acquainted with IPv6 Setting up hands-free networks installations of new systems Linux system administration via serial console And a lot more. Each recipe includes a clear, hands-on solution with tested code, plus a discussion on why it works. When you need to solve a network problem without delay, and don't have the time or patience to comb through reference books or the Web for answers, *Linux Networking Cookbook* gives you exactly what you need.

A Cognitive Psychology of Mass Communication

Presents concept art, scenery landscapes, and character designs of video game "Assassin's Creed Unity."

The Economics of Regional Clusters

In this fifth edition of *A Cognitive Psychology of Mass Communication*, author Richard Jackson Harris continues his examination of how our experiences with media affect the way we acquire knowledge about the world, and how this knowledge influences our attitudes and behavior. Presenting theories from psychology and communication along with reviews of the corresponding research, this text covers a wide variety of media and media issues, ranging from the commonly discussed topics - sex, violence, advertising - to lesser-studied topics, such as values, sports, and entertainment education. The fifth and fully updated edition offers: highly accessible and engaging writing contemporary references to all types of media familiar to students substantial discussion of theories and research, including interpretations of original research studies a balanced approach to covering the breadth and depth of the subject discussion of work from both psychology and media disciplines. The text is appropriate for *Media Effects*, *Media & Society*, and *Psychology of Mass Media* coursework, as it examines the effects of mass media on human cognitions, attitudes, and behaviors through empirical social science research; teaches students how to examine and evaluate mediated messages; and includes mass communication research, theory and analysis.

A Slice of the Pie

From celebrated fitness trainer Chris Powell, star of ABC's *EXTREME WEIGHT LOSS*, comes this inspirational weight loss book to help anyone conquer their weight.

You've seen him change lives on television. Now, in *Choose to Lose*, Powell presents fast and easy workouts, diet guidance, basic recipes, and insight into finding the true transformation mindset. Following his *Carb Cycle Solution*, you can drop pounds safely and quickly while learning how to listen to your body to optimize your overall health and fitness. Powell's easy-to-follow *Carb Cycle Solution* contradicts everything you've heard about avoiding carbohydrates in an attempt to lose weight. Not only does Chris encourage you to eat carbs, he will show you how to use them to amplify your weekly weight loss. By cycling between high-carb and low-carb days, your body will alternate boosting metabolism one day and burning fat the next. You will never feel deprived of the foods you love, because you can fine-tune the solution to suit your needs. Powell gives you complete control over your nutrition plus plenty of opportunities to indulge, and offers many delicious recipes to help you stay on track. If you work it, the *Carb Cycle Solution* may very well work for you--for the rest of your life. With detailed exercises and accompanying photographs, as well as guidelines on how to revamp your environment, support system, and more, Powell not only shows you how to lose pounds, but also works with you as a coach and mentor, teaching you how to finally take control of the incredible machine that is your body. His words of encouragement will be there day after day as you build unstoppable momentum, guiding your body toward your ideal weight. Great physical change begins with a psychological one: Change your mind, change your body. - EAT MORE CARBS - BURN FAT - BUILD MUSCLE - QUICK-FIX RECIPES - NO GYM REQUIRED - CHEAT EVERY OTHER DAY

Just a Spoon Full of Laughter is a great read for anyone that's been to a doctor's office and made it out alive. Written by an actual physician, it will keep you in stitches (no pun intended) from one story to the next. See for yourself what could be so funny about the physician office visit. Whether it's recalling his first sigmoidoscopy or performing an autopsy, you'll keep this riveting series of short humorous stories right there in the bathroom for pleasurable reading. You may even find yourself somewhere between the pages. From an author who will never be a New York Times Best Seller, it's a great book for young or old, male or female, professional or not. It's especially ideal for that person in your life who has everything except a sense of humor. It's ideal as a stocking stuffer, white elephant gift or for future yard sales. "The funniest book I ever read." Says Dr. Zhivago "Yes! Yes! Yes!" Says Dr. No

Introduction to Human Communication

A Library Journal Best Book of 2013! A Booklist Best Crime Novel of 2013! There is very little peace for a man with a body buried in his backyard. But it could always be worse... More than a year ago, mild-mannered Jason Getty killed a man he wished he'd never met. Then he planted the problem a little too close to home. But just as he's learning to live with the undeniable reality of what he's done, police unearth two bodies on his property—neither of which is the one Jason buried. Jason races to stay ahead of the consequences of his crime, and while chaos reigns on his lawn, his sanity unravels, snagged on the agendas of a colorful cast of strangers. A jilted woman searches for her lost fiancé, a fringe dweller runs from a past that's quickly gaining on him, and a couple of earnest local detectives piece clues together with the help of a volunteer police dog—all in the shadow of a dead man who had it coming. As the action unfolds, each character discovers that knowing more than one side of the story doesn't necessarily rule out a deadly margin of error. Jamie Mason's irrepressible debut is a macabre, darkly humorous tale with the thoughtful beauty of a literary novel, the tense pacing of a thriller, and a clever twist of suspense.

Success is a Journey

Marketing That Works introduces breakthrough marketing tools, tactics, and strategies for differentiating yourself around key competencies, insulating against competitive pressures, and driving higher, more sustainable profits. From pricing to PR, advertising to viral marketing, this book's techniques are relentlessly entrepreneurial: designed to deliver results fast, with limited financial resources and staff support. They draw on the authors' decades of research and consulting, their cutting-edge work in Wharton's legendary Entrepreneurial Marketing classes, and their exclusive new survey of the Inc. 500's fastest-growing companies. Whether you're launching a startup or working inside a huge global enterprise, this will help you optimize every marketing investment you make. You'll learn how to target the right customer, deliver the right added value, and make sure your customers will pay a premium for it—now, and for years to come. Build the foundation for extraordinary profit Discover faster, smarter techniques for positioning, targeting, and segmentation Drive entrepreneurial attitude throughout all your marketing functions Master entrepreneurial pricing, advertising, sales management, promotion—and even hiring Maximize the value of all your stakeholder relationships Profit by marketing to investors, intermediaries, employees, partners, and users Generate, screen, and develop better product ideas Engage combat on the right battlefields Launch new products to maximize their lifetime profitability Stage the winning rollout: from fixing bugs to gaining reference accounts Every dime you spend on marketing needs to work harder, smarter, faster. Every dime must differentiate your company based on your most valuable competencies. Every dime must protect you against competitors and commoditization. Every dime must drive higher profits this quarter, and help sustain profitability far into the future. Are your marketing investments doing all that? If not, get Marketing That Works –and read it today. Includes online access to state-of-the-art marketing allocation software!

James Bond (2020) #1

Over the past 20 years, software architectures have significantly contributed to the development of complex and distributed systems. Nowadays, it is recognized that one of the critical problems in the design and development of any complex software system is its architecture, i.e. the organization of its architectural elements. Software Architecture presents the software architecture paradigms based on objects, components, services and models, as well as the various architectural techniques and methods, the analysis of architectural qualities, models of representation of architectural templates and styles, their formalization, validation and testing and finally the engineering approach in which these consistent and autonomous elements can be tackled.

Dave Barry in Cyberspace

This important new book takes a critical view on regional industry clusters, in particular their identification and formation, and the policies which help create and support them.

Raspberry Pi for Secret Agents

Daring and defiant there's no stopping diver Hawk Ridley as he takes the plunge into a briny world of untold riches and danger. The Caribbean is a fortune hunter's dream, salted with the gold of galleons long ago claimed by the deep. Now Hawk's headed for the Windward Passage of Haiti to stake his claim. But a rival team has also picked up the scent, and they're willing to turn the sea red with blood to get to the gold first. Fighting off ruthless competitors is nothing new to Hawk but fighting off a beautiful woman is a different story. Is she an innocent stowaway or a seductive saboteur? Between the cool millions lying on the bottom of the ocean, and the boiling-hot race to grab it, Hawk's about to find the answer and make a discovery *Twenty Fathoms Down* that will blow you out of the water. "Primo Pulp Fiction." —Booklist
